Dear Sir:

I have been advised by Mrs. Dupuis, teacher of the Magnetawan Indian Day School, that a shipment of arithmetic books, which had been consigned to her in November last had not been received and that she had had some correspondence with the Department regarding this but has not recently had any advice as to whether or not the shipment had been traced. I would be glad to know if this has been done and if not, can the original requisition be duplicated or will it be necessary for her to make a new requisition.

Mr. S. Devlin, Indian Agent, Parry Sound, Ont.

As requested, the previous teacher, Miss Rita Dupuis, forwarded to the Department on May 1 last, through your office, a requisition for supplies that she considered would be required at the Magnetawan Indian Day School during the academic year 1943-44. I am now in receipt of the attached statements from the Public Printing and Stationery Branch with regard to the articles that have been shipped. They forwarded these addressed "The Teacher" but they have been returned. We overlooked advising them that we have not yet secured a teacher for this school and presumably the supplies are at Byng Inlet. It would be appreciated if you would accept delivery of the parcel and keep it at your office until a teacher is secured. If we do not obtain a teacher within the next month or so, you can open the parcel and return to this office the Corona Readers. The other supplies may be distributed among the other schools in your agency. As soon as you have checked the parcel you should sign the attached advices from the Stationery Office and return them to the Department of Public Printing and Stationery, Ottawa, Ontario.

Sir,

Enclosed please find sketch of proposed school building at Maganetawan Reserve, along with approximate cost of material and labour for building same.

I beg to state that the cost of material is the cheapest and best procurable in the District. I should also state that Mr. Wood, the foreman whom I propose having, has had experience building schools in the west. He informs me that he would want to be inside of two weeks if I want him, after that he will be busy on summer cottage work.

I can assure the Dept. that the building planned, will be suitable and comfortable. The price, as given, is for the actual work. Such as cupboards for teacher's house should have to be allowed for.

By starting right away, I should be able to get the Indians before the tourist trade starts, and before the railways start their summer work. Mr. Wood informs me that with the summer, he can complete the whole, in six weeks. By waiting the month, the wage bill would be considerably more

Awaiting your reply and instructions.

I have the honour to be.

Sir:

Your obedient servant,

John M. Daly

Honourable Charles Stewart.

There are at Byng Inlet about twenty children who are members of the Maganetawan Indian band. It has come, I believe, for the establishment of a school on the reserve. In the past some have been recruited to Indian residential institutions in the East are filled to accommodation.

The Agent is prepared to secure a site to erect by day labour a small day residence. He has submitted a plan approved by the Department is \$2,450 and I should be pleased to instruct the Agent to include it as an item in the Estimates.

Memorandum:

Honourable Charles Stewart.

There are at Byng Inlet about twenty children of school age who are members of the Maganetawan Indian Band. The time has come, I believe, for the establishment of a day school on the reserve. In the past some of the children have been recruited to Indian residential schools, but these institutions in the East are filled to the limit of their accommodation.

The Indian Agent is prepared to secure a competent foreman and to erect by day labour a small day school and a teacher's residence. He has submitted a rough sketch, which has been approved by the Department Architect. The estimated cost is \$2,450 and I should be pleased to have your authority to instruct the Agent to proceed with the work. There is an item in the Estimates for this building.

Sir:

I have your No. T-41 of the 7th instant with enclosures, with reference to the proposed school building on the Maganetawan Reserve. I am pleased to inform you that the Department has given favourable consideration to your recommendation and I have to confirm my telegram of today's date as follows: -

"Authority to erect school Maganetawan mailed today."

You may purchase the lumber and other materials enumerated on the enclosed lists. Please secure competitive prices from the best available sources of supply, and when you are forwarding properly certified accounts, in duplicate, in favour of the firms given the business, please support them with Abstract of Tender forms showing the firms asked to quote and the prices quoted. You may secure a foreman and other carpenters and under your supervision erect the school building on a day labour basis. Indian labour should be engaged when practicable. Proper time sheets, in duplicate, showing the hours and receipts of the men employed, should be kept and in due course forwarded to the Department. An accountable cheque of \$500 will be directed to you under separate cover, for the wages of men. Do not pay any accounts for materials. These should be sent to the Department for payment.

The sketches you had prepared are also returned herewith.

I have ordered the material and supplies for putting in foundation and they are going forward by way-freight on Wednesday's local. The remainder of the lumber will go forward in a carlot, on Friday of this week. The foreman, Mr. Woods, will go with the material for foundation on Wednesday's local. I expect the foundation to be finished by next week.

Sir,

Enclosed please find bill for car load of lumber and other building material for Maganetawan School. I should state that since getting the prices on material, I have changed the XXX British Columbia shingles to Rock-faced shingles (Green), as I got them at a low price, and it does away with the staining. The material for the outside toilets is added on to the bill.

I intend to go to Maganetawan on Saturday to pay the workmen, and expect the frame to be up, and part of the roof on.

Trusting that this will be satisfactory to the Dept.

I have the honour to be.

✓ This makes a total of \$469.25, leaving me a balance of \$30.75.

I expect that the building will be finished within 10 days and would respectfully request that the Dept. forward \$175.00 to enable me to meet the remainder of the payments of wages to these men.

I beg to state that the band are very well pleased with the building, and the progress so far, has been very satisfactory. I am satisfied that the Dept. is getting value for the money spent in the building of the school at Maganetawan. I might say that a bell is needed for the school, so will the Dept. please send one or else instruct me how I should get one.

Trusting that this will be satisfactory.

Sir,—

I beg to advise the Dept. that the ages of the children who will be going to the Maganetawan school are as follows:

15 children 10 years and under.
15 2 11 " " over to 16 years.

I would be pleased if the desks would be ordered as soon as possible to suit these ages. Most of the children were never at school before. Some of them are half-breeds, and I am told that there are some white children, whom their parents would like to send to our school, such as the station master's children, at Byng Inlet. I presume that there will be a fee for such children. Would the Dept. please say if they will allow this, and if so, how much the fee would be per quarter.

The Band does not object to the white children coming to their school. I approve of it, as I have seen the children, and there is no chance of them getting schooling unless we allow them to come to our school.

Trusting that this will be satisfactory.

I have the honour to be.

Ottawa, May 22nd, 1924.

Sir:

I have to acknowledge the receipt of your letter of the 19th instant, with reference to the desks required for the new school building on the Maganetawan Indian Reserve.

In reply I beg to say that before an order is placed further information is required. School desks are manufactured in the following sizes, viz:

No. 6 -	Pupils 5 to 8 years,
No. 5 -	" 6 to 10 "
No. 4 -	" 9 to 14 "
No. 3 -	" 12 to 16 "

Please state the number of rows it is intended to set up in the classroom. If the desks are arranged in 4 rows, I would suggest that the following seating arrangement be carried out, viz: 4 fronts No. 6 and 4 single desks No. 6; 8 single desks No. 5; 12 single desks No. 4; 4 single desks No. 3 and 4 rear seats No. 3. This would provide seating accommodation for 32 pupils - seating 8 to each row of desks. If this is more desks than required, please state the number you would advise be furnished and how they will be arranged, also give full shipping directions.

Besides the school desks, we will supply a teacher's desk and chair and two visitors' chairs.

Please state whether a cupboard is required, or if you will arrange to have a suitable cupboard built in the classroom in which to store books and school material. It is considered that it might be cheaper to have this done than to purchase a cupboard.

You should also furnish the dimensions of the blackboard required. We now supply beaverplate blackboards to day schools. This is manufactured in widths of 3', 3½' and 4', and up to 12' in length.

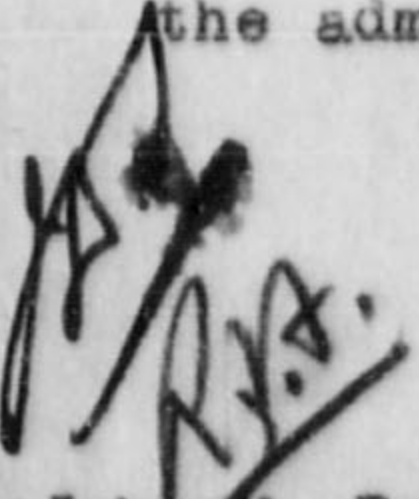

As soon as the above information is received, an order will be placed for the desks, etc.

You will be advised in a separate communication regarding the admission of white children and the fees that will be charged.

Your obedient servant,

J. D. McLEAN

IN YOUR REPLY REFER TO No. <u>T-99</u>
ALSO TO DATE OF THIS LETTER

Sir,

Replying to yours of 23rd. 22-8-5,
re_ school desks and blackboard for the Maganetawan school,
I beg to state that your suggestion of desks would appear to
be the correct thing for this school. The number of desks
required at present as far as I can see, is about thirty,
but there are a few children just about school age and your
figuring seems to suit the situation perfectly. The space
allotted for blackboards, is 16 ft, add if we could get it all
in one, so much the better, if not, whatever way is suitable
will be made to suit.

I am having a cupboard built as it will be so
be so much cheaper than to buy one. I think that it will save
money by having the desks sent put up as the foreman carpenter
will be through this week, and none of the Indians are over-
smart at putting them up.

I am a little disappointed at the progress
last week, but on the whole, I think I'm getting value for the
money being spent.

The Indian labour is very slow as the
building is progressing they are so pleased, the foreman tells
me they would like to stop every ten minutes and admire their work.
When I estimated, I estimated for a rush job. On the whole perhaps
I expect too much. One thing I can assure the Dept., it will be a
nice little school and the best value for the money in this part of
the country. I would have liked a storm porch on the main building
but perhaps later on I will be able to get an appropriation for this
porch.

Have all desks and other supplies shipped to
Byng Inlet to Samuel Noganosh (Chief) of the Maganetawan Band. It
makes them feel good to have it done that way and they take a
greater interest in the work. I will have to have the supplies
carted onto the reserve, which will cost a little more. The road
is very rough and they will have to make quite a few trips.
However, rest assured I will keep the cost down as much as possible.

Trusting that this will meet with
the approval of the Dept.

I have the honour to be.

Ottawa, May 28th, 1924.

Sir:

I have your letter dated the 26th instant, regarding the desks and blackboard required for the new school which is being erected on the Maganetawan reserve.

We are obtaining prices for the supplying of the desks, and, as soon as the order is placed, you will be advised. An order will also be placed with the Government Stationery Office to supply 1 - 16' green hyloplate blackboard, 4' wide, with the necessary chalk trough and moulding. When shipment of the desks is being made, they will be forwarded addressed to the Chief, as requested by you. As it is not intended that the school will open until on or about September 1st, next, it is hoped that all furnishings and supplies will be in place before that date.

Have any arrangements been made for the providing of closets and for the storage of fuel? If not, would you recommend that the same be erected? It is preferred that separate closets with screened approaches be erected. If it is intended that a woodshed be erected, one building with a closet in either end and a separate apartment for fuel in the centre might be suitable. However, we will be pleased to have your recommendation, together with an estimate of the cost of any work which you would recommend be undertaken.

Regarding the installing of a bell, which you refer to in your letter No. T-86 of the 19th instant, I beg to say that the Department is not prepared to incur the expenditure required for this purpose at the present time.

Sir,—

Enclosed please find estimated cost of wood-shed, one toilet, toilet screens (two) for Byng Inlet School.

I have ordered the supplies and they will go forward on Wednesday's local. This will keep the men on the job and allow me to have everything finished by the end of next week.

Trusting that this will be satisfactory.

I have the honour to be.

Sir,—

Enclosed please find pay sheets for workmen on building of school at Maganetawan. You will observe on total that the estimate on labour has been exceeded \$23.00. I misunderstood Mr. Woods, and thought he said that the whole building, school, and teacher's house would be finished by Thursday May 29th. He explained to me that owing to the school having to be shellaced before being varnished that it was the same as a two coat job and made the varnish set up better and of course took more time. There was not enough of inside V-joint to complete the inside of teacher's house so I had to order 200ft. more and 300ft. of round. It will be Thursday of this week before the building is completed. I had a platform built at front of school which was not estimated on, so that the door which opens out would not bang against the building and be knocked off the hinges. The inside of the school looks good with B.C. fir, shellaced and varnished with the windows done in white. There is also a platform shaped  so, which was not estimated on and which of course takes time, along with the cupboard, which is done in B.C. fir, to correspond with the rest of the inside of school. I figured on two toilets, and have them built, but there is one required for teacher's use. I thought of putting it in the wood shed built 12 by 16, on frame 2 by 4, clapboard outside and rough lumber sheathed inside to save clapboards, when they are piling the wood in shed. I figured the whole building will cost in the neighbourhood of \$400 dollars, that is allowing for a two coat job of paint, the same as the main building and the toilets.

As it is more economical to have all done at once I am ordering the lumber for the wood shed to be shipped this week so as to keep the men. I understand that the mill will start next week and it will not be easy to get men. I trust the Dept. approves of my actions in this matter for I am indeed anxious to keep the cost down as much as possible. The price for lumber for wood shed will be the same as for main building as I am getting it from the same firm, Mark Rogers, Parry Sound.

The Dept. can rest assured that I will endeavour to keep the cost of everything down to the lowest. The estimated cost of lumber and labour, I will forward this week.

I require a check for \$23.00, to cover this week's pay sheet and as I purpose going right ahead with the wood shed, would ask the Dept. to forward the check for next week of \$117.00. I figure, and Mr. Woods assures me that school, wood shed and everything will be completed not later than Thursday June 12th.

I have a bellfry built and would appreciate the Dept. re-considering the supplying of bell.

Trusting this will be satisfactory.

I have the honour to be.

Ottawa, June 11th, 1924.

Sir:

I have to acknowledge receipt of your two letters of the 2nd instant, enclosing an estimate of the cost of the erection of a woodshed, one toilet and screens, for the use of the new Indian day school at Maganetawan.

RECEIVED
JUN 12 1924
STANDARD

In reply I beg to say it is noted that you have ordered the lumber for the woodshed, etc., and that the work of erecting the same is now being carried out. Your action in having this work done is approved. You should forward properly certified vouchers, in duplicate, for the materials used, and time sheets, in duplicate, for the labour employed. An accountable cheque, No. 967, for \$140, was sent you yesterday in payment of the labour.

It is also noted that you ordered a further supply of V joint to complete the inside of the teacher's house, and that you have had a platform built at the front of the school.

Regarding your further request that a bell be supplied to be placed in the belfry, please state the cost of supplying same. If a bell can be obtained at a reasonable cost the Department would give consideration to the matter of authorizing the same.

Your obedient servant,

J. D. McLean

Sir,—

Enclosed please find pay sheets for labour done on the Maganetawan school -and wood shed ,for weeks 7th to 14th. I would draw the attention of the Dept. to the fact that on the week of the seventh the two men who were helping, left, to work in the mill as its an all-summer job.

The foreman Mr. Woods has been very dissatisfied with Indian help and has been threatening to leave ,for the last three weeks but has kept on the job and as the seats have arrived I have retained him to put them up.

The blackboard has not arrived yet ,so I will have to have ,after this week, a man to put the blackboard up and I hope the bell as well.

Trusting this will be satisfactory to the Dept.

Sir,

Replying to yours of June 11th., 22-8-5.
I beg to thank the Dept. for the confidence placed in me in the building of this school.

Regarding the request for the bell, I should state that the band will appreciate the granting of this boon.

The George M. Hendry Co. Ltd., Toronto, supplies a nice bell, in every way suitable for our purpose, 24 inch diameter, 155 lbs., weight, complete weight with mountings, 225 lbs. for forty dollars (\$40.00).

This bell can be seen in their catalogue on page forty-seven.

Trusting this will meet with the approval of the Dept.

Ottawa, July 5th, 1924.

Sir:

I have to acknowledge receipt of your letter of the 20th ultimo, with reference to the supplying of a bell for the new day school building on the Maganetawan Reserve, and furnishing an estimate of the cost of same.

In reply I beg to say that the Department will approve of the purchase and installation of a bell of approximately 24" in diameter. Please obtain competitive prices from the following firms for the supplying of a bell of the dimensions mentioned, with mountings, complete, delivered F.O.B. Byng Inlet, viz: -

Geo. M. Hendry Co. Ltd.,
215 Victoria St., Toronto.

E. N. Moyer Co. Ltd.,
100 West Front St., Toronto.

You should make the purchase from the firm quoting the lowest price.

You should obtain an account, in duplicate, from the firm from whom you make the purchase, which you should attach to proper voucher forms, certify and send to the Department for payment. A memo. should be attached showing the prices quoted by these two firms.

Enclosed please find bills of hardware for Bygg Ialet School and school shed.

I should state that the supplies obtained for the school were sent from here as the foreman ordered them.

I have difficulty in getting the merchants to itemize the bills properly, but on the whole, they try to give service.

I will forward the final pay sheet next week and submit a requisition for furniture for school house sometime in August.

I should state that I have some bricks, a few shingles, and some lumber left over, which I will dispose of to the Indians of the Reserve at cost price. Please say if I can allow the Indians time on these.

There is a few nails, some putty and a few panes of glass, which I am storing for future use.

Trusting that this will be satisfactory,

Ottawa, July 29, 1924.

Sir:

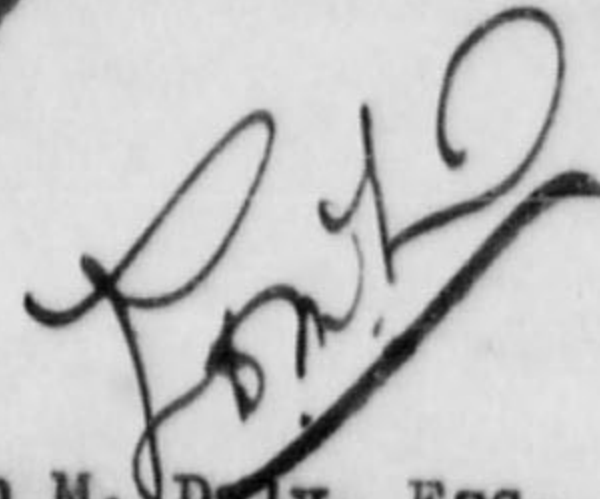

I have your letter of the 12th instant, in which you request authority to purchase the necessary furnishings for the teacher's residence in connection with the Maganetawan Indian Day School and a stove for the classroom. In reply I have to say that you may purchase and have delivered a stove for the school, a kitchen stove and heater for the teacher's house. You should see that the stoves supplied are of a type and size suitable to meet the requirements. If possible, competitive prices should be obtained and the purchase made from the firm quoting the lowest price. Please forward properly certified vouchers, in duplicate, covering the cost. Any stove pipes required may also be purchased.

Regarding the other furnishings which may be required in fitting up the teacher's living quarters, I shall be pleased if you will forward a list of the articles which you would recommend be supplied. It is expected that the teachers will provide certain supplies themselves. In making out the list, therefore, you should include only the articles absolutely necessary.

With reference to the material which was left over after the erection of the building, as mentioned in your letter of the 10th instant, I have to say that you may arrange for the disposal of the small quantities of bricks, shingles and lumber to the Indians of the reserve. As this material has all been included in the accounts which you forwarded and has been paid for and as the Indians are asking time for payment if it is sold to them, it is considered that you may divide it up among the Indians who would make use of it, without charge. The Department will leave in your hands the matter of disposing of the left over material as you see advisable. If any of it would be of future use, it should be stored.

Ltd., Waterloo, and that this firm was being requested to forward their account, in duplicate, to you. In a letter dated June 13th, the Globe Furniture Co. advised the Department that the desks had been shipped and that the account for the same had been forwarded to you. As you have, no doubt, received the desks by this time, I would request you to certify the account and forward it to the Department at once, as we have just received a request from the Globe Furniture Co. for payment.

Referring to your letter of the 22nd instant, I re-enclose herewith the voucher, amounting to \$1.98, which you submitted in favour of Chief Samuel Noganosh for freight on hardware. You omitted to state in this voucher or in your covering letter for what purpose the hardware was purchased. Information to that effect is required before the Department gives consideration to the question of payment of the account. The account should be certified before it is returned by you.

I return also for your certificate the voucher amounting to \$7.00 which you submitted in favour of Michael Noganosh.

Ottawa, September 5th, 1924.

Sir:

I have your telegram of the 4th instant, regarding the school material and blackboard required for the use of the new Maganetawan Indian Day School which has recently been opened.

In reply I beg to confirm the following telegram sent you today: -

"May purchase locally small quantity schoolroom supplies for Maganetawan School. Blackboard will be shipped at early date."

You should purchase and have forwarded to the school a small supply of text books and other classroom supplies sufficient to carry on for a short period. You should obtain from the teacher a requisition for the balance of the supplies she will require to the end of the present year, which you should forward to the Department, when the same will be ordered through the Government Stationery Office. Before leaving for the Christmas holidays, the teacher should prepare another requisition covering the supplies for the balance of the school year to June 30th, next, and this should also be forwarded.

Regarding the blackboard, it is regretted that the ordering of this was overlooked. We have taken the matter up with the Government Stationery Office and they will arrange for early delivery. We are supplying a beaver plate blackboard, 16'x4', with the necessary chalk trough and moulding. This will be shipped care of Chief Noganosh, Byng Inlet. You should arrange to have it placed in position when it arrives.

At Parry Sound, Ont.,

..... March 26, 1925..

MEMO.

R.T. Ferrier Esq.,
Supt. Indian Education,
Ottawa, Ont.

Dear Mr. Ferrier:

[Handwritten signature]

I wish to draw your attention to certain requirements for the Magnetawan school grounds.

We require fence posts for the east side of the lot and sufficient fencing for same, also 2 gates 8ft. You will remember that I asked for a porch for this school, which is required, and it was arranged to leave it over to this year's expense. Through the winter, I observed the need of same, and would respectfully ask your consideration. One screen door is required for the teacher's house, and later on, perhaps next year, we might be able to get a well dug on the school grounds.

I can get all work done satisfactorily by the Indians on the Reserve. The lumber for the porch would have to be shipped from Parry Sound, and I can buy same at wholesale price from Roger's Mill.

Trusting that you will give this your serious consideration.

I have the honour to be.

Sir:

Your obedient servant,

John M. Daly

Sir:

I have your letter of the 26th instant, drawing attention to certain requirements for the school and grounds in connection with the Maganetawan Indian Day School.

In this connection I have to request that you will furnish an estimate of the number of fence posts required, the type of fencing and the quantity of same required, also the cost of the posts, fencing and gates, as well as the labour in putting up the fence. Please also furnish an estimate of the cost of the material and labour in having a porch built to the school building.

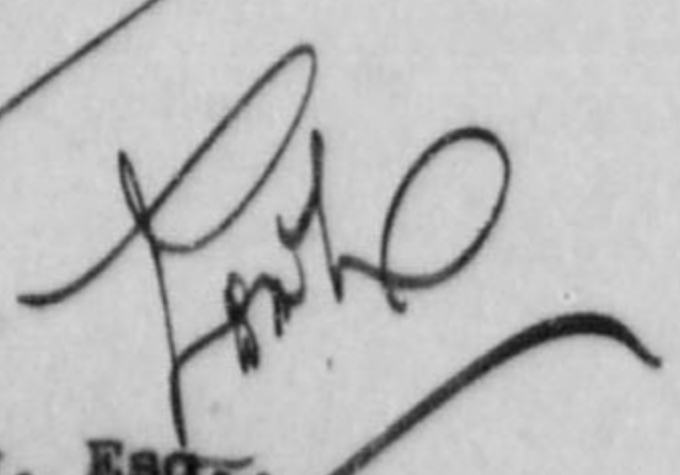

When we have full particulars regarding the cost of the fencing and the building of the porch, consideration will be given to having the work done.

You may arrange for the purchase and delivery of 1 screen door for the teacher's house.

Your obedient servant,

J. D. McLEAN

Sir:

I have your letter of the 17th instant, furnishing an estimate of the cost of building a porch to the Maganetawan Indian Day School, and enclosing an estimate of the lumber and other material required.

In reply I beg to say that the Department will approve of having this porch built. You may, therefore, arrange for the purchase of the lumber and materials required and for the labour in having the work done. The quotation which you forwarded is returned herewith for your information. The Department would like, if possible, that you obtain other prices for this material, and purchase the same from the dealer quoting the lowest price. Proper time sheets, in duplicate, should be kept for the labour employed. If this work is undertaken before the school closes, as little interruption as possible should occur in the classroom activities. Please furnish properly certified vouchers covering the cost of the lumber, paint and other materials. This should be accompanied by a memorandum showing the names of the firms asked to quote for supplying same and the prices quoted. The total cost of the porch should, if possible, be kept down to the estimate submitted by you of approximately \$243.

Regarding the fence, you may purchase the posts, fencing and 2 gates, and arrange for the labour in putting up the fence. The total cost of the material and labour for the fence should not exceed your estimate of \$48.20. You should also forward properly receipted vouchers for the material and labour for the purpose.

You should arrange to have the porch and fence undertaken at a time considered by you satisfactory to have the work done.

Sir,—

On my recent visit to Maganetawan, Michael Noganosh, who did the work of fencing at the school, said that he had not received a cheque for work done.

This expenditure was authorized by Dept. letter 22-8-5 of April 29, 1925, and the bills for same were forwarded on May 29, amounting in all to \$38.82.

I should state that this Indian is of a very suspicious nature and I would appreciate it if the Dept. would trace this matter up.

Trusting to hear from you at your very earliest.

I have the honour to be.

Sir,—

I beg to report that the porch at Maganetawan School is finished and that Michael Noganosh, the Indian who was foreman on the job, has made a very good job of it. The building looks complete. The porch will be painted by Saturday.

Enclosed are pay sheets for labour on building of porch. The pay sheet for painting will be forwarded by the end of the week.

Trusting that this will be satisfactory.

I have the honour to be.

Sir:

I have your letter of the 26th instant, requesting that a grant be provided for the purchase of supplies for a Christmas treat for the pupils of the Indian Day Schools in your Agency.

In reply I beg to say that you may incur an expenditure for this purpose for each of the schools as follows:

x	x	x
Maganetawan.....	\$5.00	
x	x	x

These amounts should not be exceeded in the case of each school.

Please forward properly certified vouchers, in duplicate, covering the expenditure incurred for each school separately.

I note that each of these schools is arranging for a concert and Christmas tree, and hope that the closing exercises will be a success.

Your obedient servant,

Russell T. Ferrier.

R. T. Fournier Esq.

Dear Mr Fournier

Have sent forward bill for
scrubbing of Magnetawan School in favour of
Michael Doganork for year 1926-1927
I have to explain that I have tried to have
this work done as caretaker but no in
the caretaker will rather give up the job
Her care is a good one as I insist that
the school be kept scrubbed
I could not get another person to give
the same satisfaction and considering the
salary for caretaking I think it should be paid
I have a fine teacher in this school and
can see the effect of her work in the pupils
Trusting you will pass this bill through and
Thanking you for past considerations Yours Truly

Original on File 22-8-6.

Sewing has been taught here before but
supplies are all used and I recommend that it be
continued. The following is a small order needed:-

2 yds. of plain white cotton cloth
3 skeins of green & 3 red Cotton Floss
2 "spools" of White cotton tape, inch wide
4 yds. of "Indian Head" cloth

Ottawa, November 3, 1927.

Sir:

The Separate School Inspector, in a report on his recent inspection of the Maganetawan Indian Day School, recommends that sewing, which had been taught previously at this school, be continued and that the following supplies be furnished:-

- 2 yds. plain white cotton cloth,
- 3 skeins green cotton floss,
- 3 " red " "
- 2 spools white cotton tape 1 inch wide,
- 4 yds. "Indian Head" cloth.

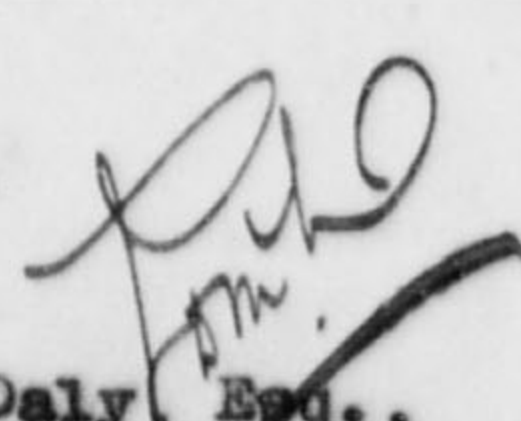

Please arrange for the purchase and delivery of the above materials and forward a properly certified voucher, in duplicate, covering the cost.

The Inspector states, further, that there was no kindling wood at the school. I should be pleased if you would arrange for the purchase and delivery of the quantity of kindling wood required for the coming winter's use. You should see that a good, dry quality of wood is obtained and that it is stored at the school. Please forward the account covering the cost in the usual manner.

Sir:

With reference to your letter of the 20th instant, enclosing an account for scrubbing the Maganetawan Indian Day School, I beg to say it appears from the explanation on the voucher that this covers the scrubbing of the school for the calendar years 1926, 1927, 1928. I would point out that you submitted a voucher for \$12 on May 14th, 1927, being the cost of scrubbing this school four times in 1926 and twice in 1927, and a cheque for \$12 was sent to Michael Noganosh on May 20th, 1927. It would, therefore, appear that there is only \$12 due him now, and you should submit a voucher for this amount.

EXTRACT FROM REPORT OF MR. INSPECTOR McGOOKIN,
DATED SEPTEMBER 15TH, 1930, REGARDING HIS RECENT
VISIT OF INSPECTION TO THE PARRY SOUND AGENCY.

Original on File 77-22.

I beg to submit the following report on my
recent visit of inspection to the Parry Sound Agency.

next year
[Handwritten signature]

Maganetawan Day School:- Some of the floor joists have
given way causing the floor to sag badly. Part of the
flooring will have to be taken up and new joists put in.
About 250 feet of flooring will be spoiled and have to
be replaced. The work, including labour and new material,
will cost approximately \$90.00. This school needs painting
outside and inside of porch. / This should be done this year
if funds are available.

Ottawa, September 25, 1930.

Sir:

Mr. Inspector McGookin, in a report on his recent visit to the Maganetawan Indian Day School, reports regarding the school building as follows: -

"Some of the floor joists have given way causing the floor to sag badly. Part of the flooring will have to be taken up and new joists put in. About 250 feet of flooring will be spoiled and have to be replaced. The work, including labour and new material, will cost approximately \$90.00. This school needs painting outside and inside of porch."

The Department has no funds at the present time to provide the expense required in having the above work carried out this year, and the repairs and painting will have to stand over until next Summer. I have to request that you will draw this matter to the attention of the Department early next Spring, stating, in detail, the work you would advise be carried out in order to place this school building in good condition. Please state the approximate cost involved and how you would recommend that the work be carried out.

Sir:

Yours of Sept. 25th, 28-8-5, received,
re Inspector McGookins recommendations for repairs
to the Magnetawan Indian Day School, I have to report
that the repairs to the joists and flooring should
be attended to right away. I refrained from reporting
on this matter knowing that Mr. McGoogan would be
in this vicinity and was under the impression that
when he would report and show the great need of these
repairs that the Department would sanction the cost.

The repairing of the joisting in this
school would not be expensive, it would be the tearing
up of the flooring, and the time spent pulling up and
replacing it that would cost the most. I feel there is
a reflection on this Agency and on the Department if these
repairs are not attended to right away. So far as the
painting is concerned that could lie over until next
year, but the flooring should be done right away.
I can assure the Department that if this expenditure,
which I shall watch very closely, is granted, that I will
keep it as low as possible.

Trusting this will be satisfactory.

Sir:

I have your letter of the 29th ultimo, regarding the repairs required to the joists and flooring in the Maganetawan Indian Day School building.

In reply I have to say that, in view of your report as to the urgency of this work, the Department will approve of your arranging to have the repairs required carried out. It is noted that it will be necessary to have the floor taken up, new joists put in and the flooring relaid. The Department will rely on you to see that all the work is completed in a satisfactory manner and at the lowest possible expense. You should arrange to purchase any materials required and for the labour in having the work carried out. After these repairs have been completed, please forward accounts, in duplicate, properly certified, covering the expenditure incurred.

The matter of the painting of this school will have to stand over until next Spring, at which time you should draw same to the attention of the Department, giving particulars as requested in our letter of the 25th ultimo.

Sir:

Enclosed please find bills and time sheet for repairs to floor of the Magnetawan Indian Day School. I have to state that when this floor was taken up it was found that a lot of the joists and posts had dry rot. This is very puzzling to me because in building this school I had put in, what I thought would be sufficient air holes to prevent dry rot.

Michael Noganosh, the caretaker informs me that it is natural for lumber in that section of the country to rot in that way. I am quite curious about this because I have never seen it before.

As we had to watch the expenses, I had them fix up what was actually necessary, and may requisition later on for further repairs to this school.

Trusting this will be satisfactory.

EX-11.
Ottawa, January 5, 1932.

Sir:

I have to acknowledge receipt of the requisition which you forwarded from the teacher of the Maganetawan Indian Day School. In this connection I have to say that you may arrange for the purchase and delivery of the following: 1 alarm clock of the Big Ben type, 3 yards oilcloth, 1 reading lamp, 1 ordinary lamp, 1 - 2 gallon coal oil can, 1 double boiler, 1 small coffee pot, 1 small roast pan, 1 inexpensive mat for bedroom floor, 1 coal scuttle, 15 pair knitting needles, size 8, 6 skeins assorted yarn, 3 yards white cotton and 1 broom.

The teacher has also requested that 1 storm door, 5 storm windows, 6 panes glass, 10"x12", and 5 locks for windows be supplied. If you consider that the storm doors and windows and locks for windows are necessary, you may arrange to have same supplied.

The teacher also requests that 2 tons of coal be supplied for use in the residence. You should arrange for the purchase and delivery of this quantity of a satisfactory type of coal.

The purchase of the above authorized supplies should be made from firms on the list to receive consideration, in accordance with departmental instructions. The Department will rely on you to see that no unnecessary expenditure is incurred in the purchase.

Please forward itemized accounts, in duplicate, properly certified, covering the expenditure incurred.

Your obedient servant,

T. R. L. MacInnes

Original on File 22-8-6.

Mosquitoes and black flies are so numerous that it is most difficult to carry on class in the afternoons. The windows have to be kept closed and it certainly isn't healthy. The mesh of the galvanized screen supplied a few years ago is too large to keep black flies out and even mosquitoes. Would you send this teacher 16 yds. of cheese cloth and it can be of use now and in September.

Sir,-

In his report regarding his visit to the Maganetawan Indian Day School on the 13th ultimo, Inspector Bennett states that a whole new set of pipes are needed for the stove, that they should be fitted properly and that the chimney should be cleaned. The teacher, Miss O'Meara, visited the Department yesterday and advised that the above were absolutely necessary. Please arrange for the purchase and installation of the pipes and, also, have the chimney cleaned.

 MEMORANDUM

C.

August 16th, 1932.

Mr. Williams.

Re the painting of the
Magnetawan and Moose Deer Point Indian
Day Schools, referred to in your memorandum
of June 1st, kindly instruct the Agent to
arrange for this work to be done, provided
he is able to secure a satisfactory quotation.

Ottawa, August 18, 1932.

Sir:

With reference to previous correspondence regarding the painting of the Magnetawan Indian Day School building, I have to say that you may arrange to have this work carried out at as early a date as possible, provided you are able to secure a satisfactory quotation, covering the cost of the paint and other materials and for the labour. If you consider it would be more advantageous and cheaper for you to purchase the paint and other materials required and arrange for the labour, you may have the work done in this manner. However, if you are of the opinion that it would be cheaper to accept the lowest quotation which you received for the work, of approximately \$180, you may accept same. The Department will leave the matter of the painting of this building in your hands, to have the work performed at the lowest possible cost.

It is understood that the painting required includes two coats to the outside of the school, two coats on the inside of the teacher's house and that the toilets are to be painted. In your letter of May 12th, last, you estimated the cost to be \$125. You should see that the work is satisfactorily performed and that a good grade of paint is used. After the painting has been completed, please forward accounts, in triplicate, properly certified, covering the expenditure incurred. If the work is done by day labour, you should keep proper time sheets, in triplicate, for the labour employed. These should be signed by the individual labourers, certified by yourself and forwarded for payment. It is hoped that you can have the painting at this school completed at an early date.

All accounts should be kept separately, covering the cost of the work at each of the schools which you have been authorized to have painted.

Your obedient servant,

A. F. MacKenzie,
Secretary.

Ottawa, December 30, 1932.

Sir:

I have to acknowledge receipt of a requisition which you forwarded from the teacher of the Maganetawan Indian Day School for supplies for the use of the school and teacher's living quarters.

In reply I have to say that you may arrange for the purchase and delivery at the school of the following: 1 wash basin, 1 dipper, 1 galv. pail, 1 kettle, 1 clothes line, 2 lifters for stove, 1 mop with wringer, 2 blankets, 2 sheets, 2 pillow cases, 6 bread and butter plates, 3 water glasses, 2 brooms, 1 mantle and chimney for Aladdin lamp, 2 yards cretonne and 1 sheet of tin to place behind stove to protect wall. You should obtain itemized accounts, in triplicate, covering the cost of the above supplies. These you should attach to proper voucher forms, certify in the usual manner and forward for payment. The purchase and delivery of the above supplies should receive your early attention.

The teacher visited the Department yesterday and requested that outside windows and a storm door be provided for the residence part of the school building. She stated that five storm windows and one storm door are required. In this connection I would refer you to official letter of January 5, 1932. It is thought that the supplying and installing of the storm windows and door would not entail a large expenditure, and would add to the comfort and warmth of the teacher's living quarters. I would, therefore, request that you arrange to have same installed, keeping the expense for the purpose as low as possible. After the work has been completed, you should forward an account, in triplicate, properly certified, covering the cost.

The building is sinking in the centre of the classroom. Evidently, the timbers underneath the centre floor have decayed. The slope to the centre of the classroom and in the kitchen is considerable. Even the chimney has dropped. I feel it is a dangerous situation. This school is only up 8 years and why it is collapsing in the middle is hard to understand.

Sir:

The Separate School Inspector, in a report on his recent inspection of the Magnetawan Indian Day School, has drawn attention to the condition of the school building. He states as follows:-

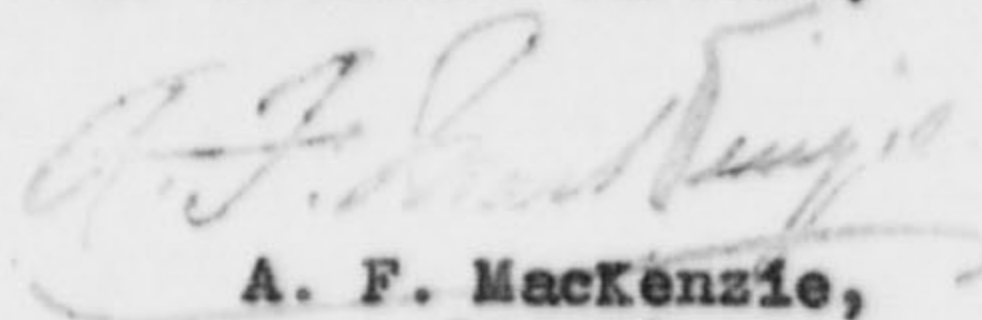

"The building is sinking in the centre of the classroom. Evidently, the timbers underneath the centre floor have decayed. The slope to the centre of the classroom and in the kitchen is considerable. Even the chimney has dropped. I feel it is a dangerous situation. This school is only up 8 years and why it is collapsing in the middle is hard to understand."

The Department would like to have a report from you, regarding the present condition of the building. As no funds have been provided for repairs to this school during the present fiscal year, it is doubtful if we could authorize any extensive work. However, I shall be pleased if you will state what is required to have the foundation of the building placed in good condition and the approximate cost of the necessary material and labour.

The Secretary,
Department of Indian Affairs,

Sir;

Replying to yours of June 28th 22-8-5
re the condition of the foundations of the Magnetawan
Indian Day School, the building is sinking, and
on the repairs recently done on the one side of the
building, it was found that the foundations are
in quicksand. I do not think that the situation
is at all dangerous, and I would have made requisition
to have the building fixed, but I was marking time until
such times as there would be more funds available.

It will be necessary to have the floor torn up and
have new joists and some flooring. Some of the joists
there can be used over again, but some have to be replaced.
This is a job that I cannot state just exactly how much
it will cost, because I do not know how many joists and
how much flooring will be required, until the flooring
is taken up. When the building was being built
there were vent holes put in for the preservation of
the joisting and flooring, but it appears this was not
sufficient.

I can get labour on the reserve and a man to do
this work. I do not think there is anything dangerous
about the situation. It is very inconvenient and very
annoying to me to see the building going as it is. I think
the best way to do is to put the two men that I have in
view on the job to tear up the floor and then I will
have a better idea of what has to be done. What I can
guarantee is that there never was a better time to get
work done than right now.

I wish to state emphatically that I do not agree with the Inspector's remark that there is anything dangerous about the situation. I am very proud of the schools and the condition they are in, and quite annoyed about this school, however with quicksand even the wisest people can be deceived.

I would suggest to the Department that they give me permission to go ahead and take a section of the floor up then it can be seen what is required. I can give instructions to save the flooring as much as possible and will keep down the costs. Until the flooring is taken up I cannot estimate just exactly what the repairs would cost. This work can be done during the vacation.

A reply from the Department at their earliest will be very much appreciated.

Sir:

I have your letter of the 30th ultimo, regarding the condition of the foundation of the Magnetawan Indian Day School. It is noted you do not consider that the situation is dangerous. As it would involve considerable expense to have new joists put in and the flooring replaced, it is thought that, unless urgent, the repairing of the foundation of this building could stand over until next year. Our funds are extremely limited, and, unless you believe the work should be done at once, the Department will not be prepared to authorize the expenditure. However, if you consider it is necessary that the repairs should be made to the foundation this summer, you may have the flooring taken up, in order to ascertain what new joists and work to the foundation would be required. After this has been done, it will, no doubt, be possible for you to furnish an estimate as to the material required and the cost of the labour in having the foundation placed in good condition and any repairs necessary to the flooring completed.

The Department will await your further report, giving an estimate of the cost, before deciding whether funds for the purpose can be provided.

Sir:

Replying to yours of July 4th, 22-8-5 , I have been to the Magnetawan Indian Day School and went thoroughly into the situation and I find that the foundation of the school is all right. The cause of the trouble there is a dry rot on the joists.

I have explained the situation to the caretaker and his grandson and they will be able to handle the situation, and do all the repairs that are necessary. This will save bringing a carpenter in there. Enclosed find a rough sketch of what I think is necessary for the preservation of the joists. There was a vent hold in the foundation but it was not sufficient and I find that at the back of the building where the teachers house is, there is a certain dampness. The enclosed sketch is what I think is necessary to preserve the timbers from rotting in the future or at least to preserve them for a much longer time.

When the flooring is up a ditch will be dug the whole length of the school and two cross ditches, and they will be arranged so that the water will run into one of the ditches running across, out to the side of the school, and will be an outlet for any water that might happen to collect. In this way there will be a through current of air both ways. This can be done when the floor is taken up, and at very little cost. The cost will be the time of the labour. I have explained all this to the caretaker and his grandson and they understand what is required. At the vents in the foundation, I have arranged for the caretaker to have flat stones put across the opening resting on two stones which will prevent the foundation from cracking.

This, on paper, might appear to be a big job, but it is not a big job. I think it is absolutely necessary to do this to prevent the same thing occurring again because dry rot seems to be quite prevalent in that section of the country. I have noticed at Byng Inlet and Britt where the houses are built on low foundations on flat ground that they have all sunk more or less.

I am getting prices on the lumber, and nails required, and will forward them in the next mail. I think this is a suitable time to have this work done because labour can be got cheap, 35 cents an hour for the man and 30 cents an hour for the young man. It might be necessary to have another man but his wages would be 30 cents an hour.

I will give an estimate of the time I think it will take to get this work done, when I get the prices of the lumber and the nails. I would strongly recommend that this work be done at the present time as it can be done much cheaper now than later on.

Sir:

Replying to yours of July 30th, 22-8-4 referring to the requisition for the Magnetawan Indian Day School, and eighteen panes of glass required, some of the panes of glass are cracked and it would appear to me that the teacher should know something about it, but my experience with the teachers from your section of the country is that they look upon the Department as a pretty good milk cow and they are milking it just as hard as they can.

It seems strange to me that there are eighteen panes of glass broken and the teacher not know anything about them being broken, and there should be some explanation.

Should the Department arrange to have the repairs done on the Magnetawan Indian Day School, I will look over the glass situation, when the lumber is taken up there. I intend to stay for a few days to superintend the repairs as I am satisfied that I would have to be there to see that it is done right.

I quite agree with the Department not to incur any expenditure for cretonne. When I look around about me in this section of the country and compare the teachers in the reserves with their salaries, accommodation, and comfort that they have, I am sure that they are pretty well fixed for the service they give. I agree with the Department in cutting down the expense for the personal needs of the teachers. According to the ability of the teachers that I have, here, they have been pretty well

Sir:

Following mine of July 12th, T-5229 with enclosure of estimate of approximate cost of lumber, material, and labour, for repairs to the Magnetawan Indian Day School, I have to state that in reviewing the estimate before filing, I notice that there is a mistake in the cost of labour for two men, which I have placed at \$62.40. This should read \$72.00 and make the total of \$187.87.

I am sorry at making this mistake and respectfully request that the officials of the Department will alter this when considering the estimate of the whole.

Please try and let me know this week if I can arrange to go ahead with this work.

Ottawa, July 29, 1933.

Sir:

I have to acknowledge receipt of your letters of the 11th, 12th, 13th and 15th instant, regarding the repairs required to the foundation, joists and flooring of the Magnetawan Indian Day School and giving an estimate of the cost of the material and labour necessary.

In this connection I have to inform you that the Department will approve of you arranging to carry out the work in the digging of ditches and replacing of any joists and flooring required, as mentioned in your letter of the 11th instant. It is noted you estimate the cost of this work for lumber and material to be \$115.87 and for the labour, \$72.00. The Department notes that you can arrange with the caretaker and his grandson to perform the necessary work. The Department will leave this matter in your hands, and I would request that you will supervise the activity and see that it is satisfactorily carried out.

I enclose encumbrance certificate authorizing an expenditure to the amount of \$190. This should be sufficient to include the replacing of the broken glass in the windows. Please obtain itemized accounts, in triplicate, covering the cost of all material and proper time sheets, in triplicate, should be kept for the labour employed. These accounts and labour returns should be certified by you. Please state on each copy that the expenditure was incurred under authority of E. R. No. 822.

I would request that you arrange to have the repairs completed before the school re-opens after the present summer holidays.

Sir

I have to report that after tearing up the floor in the School House we found that all the joints were rotten under the Teachers house. There is nothing left for me to do but tear up the flooring under the Teachers house and put new joints in place. It is hard to understand why all the joints should rot but it appears to me there was not enough of air space.

I am making sure there will be lots of air space this time as I have trenches dug two across the building and two lengthwise.

I have put two more men on and will have to send more flooring and more joints. We will need about 600 ft more flooring and 6 pieces 2x8x14. I am doing all I can to get this job finished before school opens. I do not think I can finish the job according to the estimate because of the condition of the joints & flooring in the Teachers House. I will keep all costs down as low as is possible and I am giving the job all the time I can spare. It just so happens that the girl

in my office is on holiday and I find it not so easy to attend to the office but look after the field work as well but this job is important and I will stay with it until I am sure no mistakes can happen I cannot get back to Parry Sound until tomorrow so am sending this letter out tonight so that the Department will understand I am up against something I could not force and being there I am doing the best I can to get the work done as good and as cheap as possible

There will be extra for labour and lumber but I will keep it as close to the estimate as possible I should state that the chimney that the Inspector reported dangerous has been jacked into position and a rock foundation but underneath

Trusting that the Department approves of my action in this matter there is no other way I can see and the men I have are cheap and good but I am taking no chances hence ~~the~~ being here looking the situation over and seeing the work is done satisfactory

Ottawa, August 18, 1933.

Sir:

I have your letter of the 15th instant, regarding the repairs which you are having carried out to the foundation, joists, and flooring of the Magnetawan Indian Day School. In this connection it is noted you found that new joists would be required under the teacher's residence portion, which will necessitate extra expenditure, for both material and labour.

The Department hopes that you will be able to complete the work in a satisfactory manner, for an amount not greatly in excess of the sum authorized by E. R. No. 822. In any event, you should see that these repairs are properly carried out and at the lowest cost.

Your obedient servant,

Enclosed please find pay sheets for repairs to the school at Magnetawan Reserve. I have kept the costs down as low as possible and I think I have got a job done that will last for some considerable time, at any rate, lots of air will get in to the joists now, and there should not be any rotting of them from this on. I have some flooring left which I expect to get about \$10.00 for.

Please send a cheque to cover this at your very earliest convenience as they are gasping for the money.

Dear Mr. Daly;

I received some of the
requisition that was sent in
at Christmas but was very
disappointed indeed for some
of the most necessary articles
were omitted.

For the past three terms
I have ordered pie-plates and
I see once again they are not
among the things sent. I
also ordered a dozen size
patly-pan and five yards
of heavy cretonne to cover

the couch in the living room. The present cover on the couch is a disgrace. I have ordered this just five times. There was a garbage pail ordered to hold water, as I'm always out of water and you know the well is half a mile from the house. If I had this pail I can always get the children to fill it up as it holds about four pails of water.

In the school requisition there was no lifter or dustpan sent, things also very necessary.

I really cannot understand this as all things ordered are needed. I do not order things unless they are needed and consequently expect

The Secretary,

Sir,

Enclosed please find correspondence received from Miss Gertrude E. O'Meara, School Teacher at the Magnetawan Indian Day School, Byng Inlet, C.P.R. Ont. I am sending the correspondence along to the Department so that they will know just how the teachers feel when their requisitions are not supplied.

The part of the requisition that was sent forward was 5 bars of soap, 1 wash basin, 1 pail, 2 lamp burners, 2 yds of lamp wicking, and 2 tons of coal.

I am writing to Miss O'Meara informing her that the Department at Ottawa has the say as to what part of the requisition will be supplied for the teacher's house.

After reading Miss O'Meara's letter will the Department please say if they can do anything about sending the supplies as ordered through the requisition. I am afraid Miss O'Meara thinks that I am refusing to supply the things she asks for.

The consideration of the Department at their earliest will be very much appreciated.

Sir:

I have your letter of the 16th instant, enclosing a communication which you received from the teacher of the Magnetawan Indian Day School, regarding the non-receipt by her of supplies for which she requisitioned on December 21st, last. In this connection I have to say that in official letter to you, dated December 30th, you were authorized to purchase the following:-

5 bars of soap,	2 lamp burners,
1 wash basin,	2 yards lamp wicking,
1 pail,	2 tons of coal,

for the teacher's residence. It may be that you did not receive this letter. I would request that you arrange for the purchase of the above supplies and have them delivered at the school as soon as possible. Please obtain itemized accounts, in triplicate, covering the cost, which you should attach to proper voucher forms, certify in the usual manner and forward for payment.

Besides the above mentioned articles, it is noted in the teacher's letter that she requests pie plates, a dozen size patty pan and 5 yards of heavy cretonne to cover the couch in the living room, a garbage pail, a stove lifter and a dustpan. If you consider these supplies are also required, you may purchase same, forwarding properly certified vouchers, in triplicate, covering cost.

EXTRACT FROM INSPECTOR J. M. BENNETT'S REPORT
ON THE MAGANETAWAN INDIAN DAY SCHOOL.

Date of Inspection - October 10, 1934.

stop

I suppose it is useless to ask for storm windows on the 5 classroom windows. They face the west and get the full force of the cold weather.

Schoolhouse bell needs fixing - the revolving wheel is off and it is a man's job to fix it. It is also badly cracked. There is no sound to it.

School porch is falling away from the building and is leaking badly.

Sir:

The Public School Inspector, in a report on his recent inspection of the Magnetawan Indian Day School, recommends that storm windows be installed on five classroom windows. He states these windows face the west and are exposed to the full force of the cold weather. He states, further, that repairs are required to the bell - the revolving wheel is off and it is also badly cracked. He states, also, that the school porch is falling away from the building and is leaking badly.

I shall be pleased to have a report from you, regarding the need for storm windows and the approximate cost and also the cost of the repairs required to the bell and school porch.

The Secretary,

Ottawa, Ontario,

Sir;

Replying to yours of October 30th,
22-8-5, re public school inspector's report of
his recent visit of inspection to the Magnetawan
Indian Day School, I expect to be up at Magnetawan
School in a day or so, and will look the situation
over.

*Answer
further report*

The teacher has been asking me for storm
windows for the last two years. I explained to the
teacher, the lack of funds, but she wants the windows.
Re the bell being cracked, that is the first I knew
about it. As for the porch falling away from the
building and leaking badly, I knew about the porch
being a little heaved, but I do not think it is half
as bad as he has reported. If so, it has happened
in the last two months.

The school would be much more comfortable
if we had storm windows, but if we cannot get them
there is no reason why the school cannot be kept
comfortable, as it is. However, I will report
on the situation by the end of the week.

Trusting this will be satisfactory in the
meantime.

Received on Saturday a

I am still waiting for
the six bars of lifebuoy soap

I would like to know why
such necessary articles as
a can opener, butcher knife
and bed spread are not being
sent. These can all be purchased
for about two dollars. I am

surprised at the Dept. cancelling such a trivial amount. There is a bed spread here that has been here since the school was built eight years ago. I am afraid to wash it for fear it falls to pieces.

Has any provision been made for the shipment of the three tons of coal? There is not a bit left from last year and in fact I did not have enough to see the winter through. Hoping this will be looked after before the cold weather sets in for I froze for two months last year before the coal was delivered.

Trusting you will look after these affairs.

Nov. 3. 1934,

The Secretary,
Department of Indian Affairs,
Ottawa, Ontario,

Sir;

Replying to yours of October 30th,
28-8-5, re the Public School Inspector's report
of the Magnetawan Indian Day School, and the need
for storm windows, I have been to the Magnetawan
School, and made an inspection, and would recommend
that storm windows be supplied. Following are
the prices received here for the school windows,-
For schoolroom:
5 windows 6'7 $\frac{1}{2}$ " x 2' 10 $\frac{1}{2}$ " (6 lights) @ 4.50 -22.50
For cloak room:
2 windows 6 $\frac{1}{2}$ ' x 2 $\frac{1}{2}$ ' (4 lights) @ 2.75 5.50
Freight on storm windows to Syng Inlet (approx.) 1.00
Cartage from Syng Inlet Station to School " 1.00
Fitting storm windows on. " 2.00

Total:- 32.00

Re the bell, it has been cracked for some
considerable time, but still gives out enough sound to
call the children, all that is required for the wheel
is two screws which I can get here in town.

The school porch is the same as it was the
last time I was there, and I cannot see why the
Inspector should say it was leaking badly. It is not
leaking at all. The last time I was there I instructed
the caretaker to put a strip on the floor opposite the
door. This he has done and I cannot see why it cannot
last in this condition for a number of years. I would
not advise that anything be done to the porch at the
present time.

Owing to the vents being put in the foundation during the last repairs the cold will get in the floor, and this might make the floor a little colder. It is a double floor with heavy building paper between.

My observation since I came here, is that when a teacher has put in three years in the schools in this section that it is time for a change.

The soup plates granted to Miss O'Meara on her last requisition were supplied to her. I sent up two nice soup plates, but they do not match the plates she has and she sent them back with me. I am trying to have the plates matched up with the dishes she has. The brick that she ordered for the stove was not required. It is little fussy things like this that show how the wind is blowing and how for the teacher's benefit she should have a change.

Mr. Moore the School Inspector here informs me that there are 600 qualified teachers in Ontario who would be glad to get a job. I think Miss O'Meara is a good girl, but too long in the one position. I have heard that she does not intend to teach after next June. Miss O'Toole, whom the Department sent to Christian Island, must have heard the same because she has written to me asking me if, when the school becomes vacant and Miss O'Meara leaves, she get first consideration for the school. Miss O'Toole's home is about two miles from the school at Britt, across the river.

Re the coal for Miss O'Meara, -she has a very hazy idea of costs and thinks her demands should be attended to right away. I tried to explain to her last night, when she suggested that we could get the coal by freight, that it would cost too much for loading the coal unloading it, and hauling it to the Reserve. This did not seem to worry her in any way, all she wanted was the coal. There is no need for her being cold as she has always had lots of wood, and the coal will be delivered as soon as the ice is strong enough on the River to haul it across.

If Miss O'Meara were a man, I would say she was "bushed" and would be improved by having a change from Magnetawan Reserve. Enclosed please find a letter sent to me by Miss O'Meara.

I explained to Miss O'Meara that the coal would be delivered to her as soon as the ice was strong enough to stand the transportation of it across the River. It is a short distance across the river to Britt, but it would cost almost as much as the price of the coal to have it sent by freight, because of the handling.

As Miss O'Meara is impatient about getting the storm windows would the Department please reply at their earliest.

Trusting this is the information required.

Sir:

I have your letter of the third instant, with reference to the supplying of storm windows for use on the classroom and cloakroom windows at the Magnetawan Indian Day School.

In reply I have to say that the Department will approve of you incurring an expenditure of approximately \$32.00 in supplying the windows, of the dimensions required, and having them shipped to the school. Please forward an account, in triplicate, properly certified, covering the expenditure incurred. You should attach receipts for the freight and cartage charges.

In view of your report, the Department is not prepared to authorize any expenditure in connection with the bell or the school porch.

Regarding the supplying of the coal, it is noted that you will have this delivered as soon as the ice is strong enough to stand the transportation of it across. In the meantime, the teacher can use wood for heating purposes.

Dear Sir:

With reference to your requisition of the 26th ultimo you may purchase for use at the Magnetawan Day School 5 lbs. of cocoa, 2 cases of milk and 20 lbs. of sugar.

Regarding the request for paint, is it the intention of the teacher to do the painting herself if the Department supplies the material?

If not, you should let me know what it would cost to employ someone to do the painting.

Extract from Inspector Bennett's report on the Magnetawan Indian Day School visited on May 20, 1941.

RECOMMENDATIONS:

1. Toilets need repairing. In the wind storm last fall they were blown over.
2. The front porch is pulling away from the building. This school was built in low-lying land. Water remains under it even in the summertime. It will never be right until it is moved to higher ground.

Dear Sir:

In reporting on his inspection of the Magnetawan Indian Day School on May 20 Inspector Bennett writes:

"Toilets need repairing. In the wind storm last fall they were blown over.

"The front porch is pulling away from the building. This school was built in low-lying land. Water remains under it even in the summertime. It will never be right until it is moved to higher ground."

I am aware of conditions at this school and I presume that it would be difficult to make any permanent improvement without spending a very large sum of money which, at the present moment, is not available.

However, I should appreciate receiving another report from you regarding this building indicating what improvements you consider might be made.

Yours truly,

Philip Phelan,
Chief, Training Division.

Dear Sir:

Reference: Letter, July 4, 22-8-5.

I am in receipt of the above letter re the condition of the Magnetawan Indian Day School. There is no doubt that, due to the selection of a poor site when this school was built, it requires repairs and adjustments practically every year. However, I think that the repairs made to it last year will hold it for some little time without any major expenditure. There are some things which can be done this year and which I plan to have done during the summer holidays and will advise you later as to the extent and probable cost of the repairs.

Yours truly,

Samuel Devlin

Both toilets are so placed in low land that
in wet weather it is difficult to approach them,
as I found out, without getting one's feet wet.
One of the toilets needs cleaning. (Urgent)
The gates are off the fence enclosing the
property. The roofs are leaking in the porch
and pupils' cloakroom. So is the woodshed roof.
This teacher is not residing here now, boards
elsewhere. Night prowlers had made living
conditions rather trying on the nerves.

In reporting on his inspection of the Magnetawan School Inspector Bennett writes as follows:

"Boys' toilet so insecurely set up that it has been blown over by strong winds. Couldn't these toilets be set on higher grounds? Every spring when I come they are surrounded with water.

"School house needs painting inside and outside. The classroom is not very attractive inside."

Please let me have an estimate of the cost of painting the interior of this school.

It is difficult to understand why something could not be done to the toilets. I wrote to you along similar lines in a letter dated June 15, 1942, to which you did not reply. I should appreciate your giving immediate consideration to the matter and letting me know what can be done.

A.

Acknowledging receipt of your letter of the 3rd. Inst., I beg to submit the following with regard to the situation at the Magnetawan School.

I inspected the toilets there last summer and had any necessary work done. The site chosen for this school in the first place was not ideal, but I cannot see that there can be very much done about it now. The site of the school and its surroundings are low ground and in wet weather it does get very muddy. I will have in mind the situation of the toilets and will see if it is possible to have these moved to a more suitable location.

With regard to painting the school house, I would not recommend this at this time as, in my opinion, the building does not require this for several years at least. I have seen schoolhouses throughout the country which have a much worse appearance than our school on the Magnetawan Reserve.

You will observe that following your letter of June last I had all the work that was necessary done on the toilets.

Samuel Devlin,
Indian Agent.

FILE _____

Parry Sound, Ont.,
July 24, 1943.

Indian Affairs Branch, Ottawa, Ontario.

On November 20, 1942 authority was granted, File No. 22-8-5, for repairs to the Magnetawan Indian Day School, which involved principally the building of a cement chimney on the teacher's residence. The chimney was purchased and shipped to the school, but I was unable to get the work done before winter set in and had to put off the job until now. As the man I was relying on has now left that neighborhood, I will be obliged to send a man from town to do the work. I find also that I was misled as to the number of cement blocks necessary to build the chimney and that I will require about eight more sections. A recent inspection also reveals some other small items of repairs and the revised bill will be as follows.

8 sections cement chimney	8.00
1 window sash, 20x25, 4 lt.	1.45
20 ft. V-joint	1.14
2 pcs. 2x4-12'	.90
1 pc. 1x3-16'	.44
Nails	.25
Freight	2.00
Labour	15.00
	29.18

It is a little difficult just now to obtain labour but I have the opportunity to get a man next week who can do this job and will proceed to order the material for which I hope to have your authority.

Mr. S. Devlin, Indian Agent, Parry Sound, Ont.

I have your letter of the 24th instant, in which you state that the material and labour for repairs to the Magnetawan Indian Day School will cost \$29.18, instead of the estimated \$26.45 mentioned in your letter of November 14 last. Authority is granted for proceeding with these repairs at the amount quoted in your recent letter.

Ottawa, June 1st, 1927.

Sir,-

The Department understands that all the Indians of the Maganetawan band are Roman Catholics (Reference your letter of June 13th, 1926), and there is a Catholic teacher at this school.

I note that the school has been inspected by the Public School Inspector. It is our practice to have Roman Catholic schools inspected by Separate School Inspectors, and I should be pleased if you would inform me whether there is any reason why the same procedure should not be followed at Maganetawan as at other Catholic Indian schools.

The Secretary,
Dept. Indian Affairs,
Ottawa, Ont.

Sir:

Replying to yours of June 1, 22-816, re--
inspection of Maganetawan Indian Day School,
I should state that there is no reason that I
know of why this school should not be inspected
by a separate school inspector, in fact, I
should rather like it for my teacher there would
be liable to get more credit for her work.

Perhaps it is not known to the Dept. but
it is a fact that all the teachers in this
Agency are asked by me to take an interest
in the spiritual welfare of the children and
in justice to the teachers, I must say they all
do. I have arranged with the Parish Priest
to supply catechisms and with the teachers to
take sufficient time to instruct the children
in same. The same applies to the Protestant
children. I really think it would be the pro-
per thing to have this school inspected by a
separate school inspector.

Trusting that this is the information
required,

I have the honour to be.

Sir,-

As the teacher and pupils of the Maganetawan Indian Day School are Roman Catholics, it is desired that this school be inspected, in future, by a Separate School Inspector.

It has previously been inspected by Mr. J.L. Moore, Public School Inspector, Parry Sound, Ontario. Please advise him that it will not be necessary for him to visit this school in future. I would also appreciate if you would arrange to have it inspected by Mr. J.M. Bennett. His first visit to the school should be made during the Fall term as Mr. Moore has inspected this school on April 8th last.

The attendance of the Indian pupils on the whole has been satisfactory. The children of two white families are very irregular, and interfere with the good progress of the school. BUILDINGS AND PREMISES

Inspector will please mention the number of buildings, indicate their ownership and comment on their condition.
Buildings and premises are in first class condition. The grounds are neat and well fenced. The buildings present a neat appearance. The closets, however, should be cleaned regularly, or steps taken to prevent odors.

The greatest need at the present time is an adequate supply of good drinking water on the premises. There is no supply at all on the property, and the water used is taken from an inconvenient source, and one that would be very subject to contamination.

GENERAL REMARKS

Under this heading the Inspector should report upon the general management of the school and offer any suggestions for improvement he may wish to make.

The school is well conducted and a pleasant tone exists. The credit is Miss McCarthy's.

In general I believe the course is too academic in character to suit the Indian Disposition. More practical work should be done, such as agriculture, manual training, domestic science, art, etc. These subjects should have a definite allotment of time on the time-table.

Dear Sir:

In reply to your letter 22-8-6 of June 25th, 1928, I beg to submit my account in duplicate.

In reference to the charge for one day's hotel bill at Sudbury, I might say that I consider the charge a legitimate one against the Department of Indian Affairs, as the inspection of the Byng Inlet School involves staying one night in Sudbury, or 2 in Parry Sound. This could hardly be charged to the Ontario Department of Education, until there is some agreement with the Ontario Department to bear some share of the expenses of Indian Education. As to the fact that the previous Inspector did not make such a charge, I have no comment to make other than to state that I believe he should have for the inspection of the said school certainly involved staying one day longer in Sudbury than his ordinary departmental work required.

I did not secure a receipt for the said hotel bill, for I did not notice any mention of such a requirement on the Expense form. However, I shall do so in the future. The items were: June 19th Supper, Bed & Bath, June 20th, Breakfast, Supper.

Hoping that this will prove satisfactory, I remain,

Yours sincerely,

ATTENDANCE PROBLEM, REMEDIES SUGGESTED, Etc.

The attendance of the Indian children is fairly satisfactory. However, a number of white children do not attend regularly. These pupils interfere with the progress of the school and should be refused admittance; they would then become subject to the Ontario School Attendance Act, and the Britt school would be obliged to furnish transformation, if necessary, to enable these pupils to attend their proper school; besides the Britt authorities would then have the responsibility of seeing that they did attend.

The following extra equipment would be very serviceable:

2. Football, bat & softball for organizing games for pupils.
3. Tooth brushes- that the teacher may be able to exact that the pupils clean their teeth regularly.

BUILDINGS AND PREMISES

Inspectors will please mention the number of buildings, indicate their ownership and comment on their condition.

The buildings, school, closets, and teacher's residence are in good condition. The grounds are also cared for properly. The water supply is inconvenient and liable to be contaminated.

GENERAL REMARKS

Under this heading the Inspector should report upon the general management of the school and offer any suggestions for improvement he may wish to make.

The apparent confusion existing as to the responsibility for educating the white children is a serious handicap to the efficiency of the school. The irregularity of some of these pupils impedes the progress of the other pupils, besides giving bad example to the Indian children. I am glad to note that the attendance of the latter is satisfactory.

The character of the work should be more practical.

Health habits should be cultivated, cleanliness of the teeth is a difficult habit to instill where proper cooperation is not obtained in the homes; consequently, I believe that if the pupils were supplied with tooth brushes, they would be more likely to acquire the habit of cleaning their teeth regularly.

Health.....appears good

Success.....This teacher did quite good work in Midland before coming here

Suggestions.....Owing to the large number of classes I am afraid this
teacher will find it impossible to give the 12 Primers the attention
they should get to produce a result in reading and language; conse-
quently she should have the Beacon Charts and (word and letter cards)
she knows how to use these.

REMARKS RELATIVE TO THE EXAMINATION OF THE PUPILS

2. A new mattress and kitchen utensils were provided by Mr. Daly
and everything quite satisfactory.

3. A new stove is being provided.

GENERAL REMARKS

Under this heading the Inspector should report upon the general management of the school and offer any suggestions for improvement he may wish to make.

1. I feel that the choice of Miss. O'Meara for this school is a satisfactory one. She has good control and is earnest and capable.
2. Mr. Daly has shown his active interest in this school and at Pickerel in various ways. Co-operation with the teachers on his part is much in evidence, a very commendable matter.
3. Owing to poor train service I had to spend all day in this locality.

Of the 14 white children, 8 are in regular attendance.

Nine of them live across the river and it is rather risky when ice is soft and when boats have to be used.

Of the 12 Indian children 8 are in regular attendance.

I don't know what to suggest to improve it but this teacher endeavours to make school attractive.

BUILDINGS AND PREMISES

Inspectors will please mention the number of buildings, indicate their ownership and comment on their condition

1. building contains classroom, Kitchen, bedroom and sitting room.

Also two outside toilets and woodshed. All in good condition except that the floor of the school house seems to be settling in the middle as if the centre beams were crumbling away. There is a very decided slant now from the side walls to the centre.

Mosquitoes and blackflies are so numerous that it is most difficult to carry on class in the afternoons. The windows have to be kept closed and it certainly isn't healthy. The mesh of the galvanized screen supplied a few years ago is too large to keep blackflies out and even mosquitoes. Would you send this teacher 16 yards of cheese cloth and it can be of use now and in September.

BUILDINGS AND PREMISES

Inspectors will please mention the number of buildings, indicate their ownership and comment on their condition

1. Schoolhouse - 2 Woodshed 3. Three toilets.

All buildings are in good condition except that it is quite approved that the school house is sinking to the ground ~~since~~ due maybe to the supporting timbers deteriorating.

2. All buildings have been painted inside and out this past summer. The work done appears quite good.

GENERAL REMARKS

Under this heading the Inspector should report upon the general management of the school and offer any suggestions for improvement he may wish to make.

1. The school is ably managed - discipline is good and the teacher reliable and conscientious.

2. Three pupils were in the Entrance class last year, two obtained entrance standing, one failed and returned. Since this boy was two years in the fourth and will most likely finish school next June I suggested that he retain the use of the Ontario Public School Fourth reader instead of the New Can. Cath. Fourth. He is already quite familiar with the other, and would therefore give him more time for his weaker subjects.

3. In accordance with your letter of Sept. 10 this teacher was instructed in the use of the new Readers and Flash Cards mentioned therein.

Insp ^{#5} will please mention the number of buildings, indicate their ownership and comment on their condition

The building is sinking in the centre of the classroom. Evidently the timbers underneath the centre floor have decayed. The slope to the centre of the classroom and in the kitchen is considerable. Even the chimney has dropped. I feel it is a dangerous situation. This school is only up 8 years and why it is collapsing in the middle is hard to understand.

1. Main building has classroom - Kitchen, sitting room and bedroom.
2. Woodshed - 3. 2 toilets in good condition.

Teachers quarters and outside of school painted last summer.
outside windows supplied last fall.

The 25 yds of fly screening sent this school has been used to good advantage on the classroom windows etc.

GENERAL REMARKS

Under this heading the Inspector should report upon the general management of the school and offer any suggestions for improvement he may wish to make.

This teacher appears to have good control of the school; the spirit shown by the pupils under her rule is a good one. Her general manner in management of classes and school plant is quite good.
No adverse criticism.

The capacity for learning of the Indian children here is not at all as high as at Pickerel River.

The new floors will be treated with oil soon.

GENERAL REMARKS

Under this heading the Inspector should report upon the general management of the school and offer any suggestions for improvement he may wish to make.

Miss O'Meara is managing these pupils in a satisfactory manner. Her only weakness is uncertainty in primary work. However, when we consider the weakness of these children in imagery and environment, one cannot expect too much. She uses the devices provided well enough. Some further advice and direction was given her at this visit.

By the way she has 12 primers but only 6 each of the "Joe and Ruth" work book and "Two Little Indian" were sent. Of course only 6 of these are Indians but I would say that it would be difficult to draw a distinction with Primary pupils in the use of these texts. I think that Joe and Ruth work book is advisable for development of school interest and child imagery.

GENERAL REMARKS

Under this heading the Inspector should report upon the general management of the school and offer any suggestions for improvement he may wish to make.

1. The janitor is paid \$50. a year and is responsible for the classroom fires and for opening the school daily. It is important that he be on time at 8:30 o'clock each morning at least. This should be demanded of him.

2. Real effort is being made at Primary Reading. The weakness of Second Book classes and below is in Reading and Spelling. I instructed the teacher as well as I could.

3. As far as discipline and management of classes is concerned there is no adverse criticism. This teacher is quite capable.

Madam:

The Department is in receipt of Inspector Bennett's report regarding his visit to the Maganetawan Indian Day School on the 10th instant. It is noted that he discussed with you various points of school procedure, including better methods in Reading and Spelling. It is also noted that he advised the increased use of the material supplied by the Department.

The Department trusts that you will carry out the Inspector's suggestions. To assist you in teaching the primary class, a copy of The Teacher's Omnibus is being forwarded to you.

4. Teacher's stove needs relining.

The school bell is cracked and has practically no sound. Have you a handbell for this teacher's use for calling school?

GENERAL REMARKS

Under this heading the Inspector should report upon the general management of the school and offer any suggestions for improvement he may wish to make.

Miss O'Meara is managing the school in a very good manner.

She has excellent discipline and holds this large school quite well.

There are so many classes and the difficulties of teaching backward children and Indians are so great that she deserves credit for what is accomplished.

Dampness has warped it and it is so glossy that the chalk doesn't register. It is also set so high on the front wall that the Primary children can write only on the very bottom of it. With so many pupils here in regular attendance there should be a new blackboard (about 15') and set it at the front. Then put the present one on the side wall for Primer use. GENERAL REMARKS

Under this heading the Inspector should report upon the general management of the school and offer any suggestions for improvement he may wish to make.

The New Course of Study of Ontario calls for reference books for pupils and teachers, as I said before. Would it be possible to determine upon a choice of these recommended books, as seen in the New Course for Grade 1 to VI, for all Indian Schools? I feel that with so many books listed someone should recommend a minimum list for immediate use in Indian Schools, for pupils and teachers. The New Course in Social Study and Natural Science demands that immediate aid be given these teachers especially in these two subjects. The new authorized Arithmetic for Grade III and IV is ready at 10 cents each.

General comment: In management in discipline, this teacher has done well. She knows her work and has produced good results. All classes were examined in Reading, Spelling, Arithmetic, Writing and Work Books. I gave special attention to those in the Entrance Class. Record Books in Social Studies and Natural Science were checked. I made a reasonable inspection and found most satisfactory work being done.

Through some misunderstanding, the New Junior Arithmetics authorized for Grades III and IV did not arrive. The matter of texts and their use was discussed with the teacher. New Course of Study was discussed.

General comment: This teacher attended Peterboro Normal last year and failed in Phy. Tr., and Elem. Science. She intends writing these next June. With so many qualified teachers without schools, it should be possible to get a qualified teacher.

I had some time with her on the New Course and its requirements. Particular direction was given to assure good results in fundamentals. There is a scarcity of text books in the school. I instructed the pupils to search their homes for last years Readers, Spellers, etc., Some new Readers, Arithmetics and Kitchen Utensils are needed. The usual inspection was given.

General comment:

1. I examined the classes in Arithmetic, Reading, Spelling, Literature, Art, Work Books, Writing, etc., and found quite satisfactory progress and proficiency.
2. Four pupils are listed for Grade VIII. One only is really of Entrance standard. Only two at the most should be encouraged for the Entrance examination.

General comment:

- (a) There are only seven Indians enrolled in this school: 3 in Grade VIII 2 in VI; 1 in III; and 1 in I. All of these were present.
- (b) The last teacher did not accomplish the results that she promised to do. It is rather difficult to find out how some teachers are performing their duties in these far settlements. Five pupils tried Entrance although I advised three only. All failed.
- (c) I left a number of instructions regarding the classes and aims to reach in different subjects. This teacher inspires confidence and appears quite conscientious. I am sure she will be a great improvement over the last teacher. I examined all classes in Reading, Language, Study, Spelling, Number Work; reviewed their work books and commented upon them individually.
- (d) There is not enough wood for the winter. It is to be hoped that what is sent will not be green., There is no coal. A requisition was sent in for some necessary books and supplies.

General comment:

1. Indians on roll - 5.
2. This teacher has applied for re-engagement. She has been most conscientious in her work and has made a real effort to make pupils proficient in the Grades. I recommend that she be given consideration. Her work is quite satisfactory. While she does not appear very strong yet she only lost two days from school due to illness.
3. I tested all classes in Reading, Spelling, Writing, Arithmetic. Also all work books were examined and commented upon. The higher grades were tested in Literature as well. Progress and proficiency is satisfactory.
4. There is an Entrance Class of three pupils. I have recommended intensive work with them until examination time in the four written subjects, because the youngest of these is already 14½ yrs. old.
5. The east wall seems to be slipping off the foundation.
6. There is quite a bit of water surrounding the outdoor toilets due to heavy rains, making it difficult for pupils to enter without getting wet feet. The door is broken off the toilet.
7. I spent over one hour instructing the teacher on essential matters besides inspection.

N.B. The pupils are well graded even though some are overage. This is due to the fact that most are below average in intellectual capacity.

General comment:

I examined all classes in Reading, Literature appreciation, Writing, Arithmetic and Spelling. It is evident that this teacher has made progress in developing a reasonable fluency in reading and word recognition and in seeking accuracy in Arithmetic. Writing can improve even with these pupils. On the whole, I consider that this teacher has given good service.

SUGGESTIONS: 1. If Clarence Hagonosh will work on his father's small acreage for the required 8 weeks and since he is 16½ years of age, I and the teacher will be willing to grant him standing if the Entrance Board will grant him Entrance Standing. (Insp. Moore, Parry Sound)
2. Since these pupils are so irresponsible, something should be done demanding attendance. On rainy days, practically none attend, as the records show.

3. If Aileen Gray returns to school next fall she should be given as much of the Grade IX work as possible.

4. The teacher needs to plan drill and seat work, if any real success is to be accomplished here.

RECOMMENDATIONS: 1. Toilets need repairing. In the wind storm last fall they were blown over.

2. The front porch is pulling away from the building. This school was built in low-lying land. Water remains under it even in the summertime. It will never be right until it is moved to higher ground.

3. Could you send one of the Government Maps of Canada to the school.

They have none. There is only a small map of the world and an old one of the British Isles, small size.

4. The school needs painting.

5. I was wondering if the authorized Ontario Arithmetics for Grades 3, 4, 5, and 6 (the Junior Arithmetic) could now be used here instead of the Canadian Problem and Practice Arithmetic.

6. For the four beginners, you should supply four more copies of the Joan and Ruth Work Books, which are based on the Pre-Primer "Two Little Indians".

General comment:

1. I examined all grades quite extensively. The fundamental tools of education, arithmetic, spelling, reading, handwriting, etc., and found the pupils doing their best and obtaining satisfactory results. The children appear anxious to learn.

2. Both toilets are so placed in low land that in wet weather it is difficult to approach them, as I found out, without getting ones feet wet. One of the toilets needs cleaning. (Urgent) The gates are off the fence enclosing the property. The roofs are leaking in the porch and pupils' cloakroom. So is the woodshed roof. This teacher is not residing here now, boards elsewhere. Night prowlers had made living conditions rather trying on the nerves.

3. Two families do not send their children at all regularly to school, one is the Boucher family (white) The Indian children attend well.

N.B. If this teacher should leave here, notify her successor to bring her own bedding. This teacher had some of her supplies stolen. Clayton, Clarence and Don Boucher attend poorly. Dorothy, Leonard and Leona Boucher do not attend much better. Billy Dube and Keven absent most of the time.

General comment:

1. One pupil for Entrance - Donald Grey, age 15 in October. Weak in Spelling but I would recommend that the Entrance Board give him every consideration when he writes.
2. Boys' Toilet so insecurely set up that it has been blown over by strong winds. Couldn't these toilets be set on higher grounds? Every spring when I come, they are surrounded with water.
3. School house needs painting inside and outside. The classroom is not very attractive inside. The caretaker is a boy of 16 who does not seem to have much sense of responsibility. He is not always on the job.
4. Some copies of Social Studies Texts are needed for Grades IV, V, VI. I suggest two copies "My Countries Story" for Grade V (J.M.Dent & Co.) Toronto.
5. All pupils were tested in Reading, Spelling, Hand-writing and Language. Note books in other subjects examined.
6. If a teacher is engaged for this school, who will be residing here, I would suggest that the Indian Agent call previously and have the teacher's quarters properly prepared because no one has been residing here for over two years. However, Mrs. Grey at the C.P.R. Station might provide a room for a teacher.

General comment:

All pupils were examined individually in reading and spelling ability and tested in elementary arithmetic. Work-books and work habits were noted. In general, I would say that this young lady did well enough. She had control of the pupils and had their co-operation. The only Grade VIII, Leonard Deshev, is not ready for the Entrance Examination this year. I would like the new Catholic Readers to be used in Grades V to VIII. Approximately, six of the Indians were in daily attendance all winter and nine in the finer weather. All the pupils were clean and neat in appearance. They all seemed to wish to want to learn. There is a family from Rutter named Venne, who commenced to attend but do not come at all regularly.

The whole appearance of this school, both inside and out is depressing. The place is not attractive in any way. The teacher's quarters have been vacant, have been broken into and almost everything stolen. Some repairing is need to toilets as well as the school. Exterior and interior painting should be done. Since this teacher was only a High School girl, I regret very much that I did not call in the fall term to give her direction. It might be better if the Inspectors can call only once a year, to use their judgement in a matter of this kind.

General Comment:

Toilets have been well repaired; roof over the porch fixed; a new front door put on; windows fixed and glass inserted. Indian Agent visits frequently. As I said before, the building needs painting. There will be two more Indian children in attendance in the fall. No matter how many children there are, the Indian School should be in operation, because outside of the school there are few educational influences, if any. The teacher is much above average and ideal for Indian schools. She would do fine work anywhere but actually she prefers these children, a Christmas concert and one on the 17th. of March attracts all the parents. Not many teachers would go to this trouble. What latent they have is fostered. I examined all work books, including those absent. They reflect good work habits. Reading ability is good. Spelling and arithmetic skills progressing. Drawing is encouraged. Religions instruction is well done. Written and oral language is satisfactory. The physical training of the children includes some folk and step dancing which the pupils enjoy and so did their parents at the concerts. A large Union Jack and other flags have been flown from the belfry.

If the interior is ever painted, paint with bright colors. The school needs attention.

of 17th May, 1909.

Lx'd.

Schools,— The Manitou Indians inform me that they wish to have their school re-opened, and to have Mr. Robert Gill, appointed as teacher, he taught this school in 1888, he understands their language and the whole band wish to have him as their teacher, I understand he taught school in England, and I would strongly recommend that he be appointed, as I think he will get a good attendance, I informed the Indians that unless they would guarantee an average attendance of at least eight pupils, I would not recommend the school to be opened, this they have promised to do, but they say that they do not want Mr. Fryer to have anything to do with their teacher or school, for if he did he would want to have their children taught religion, and they claim that is what broke up their school before, the teacher wanting to teach them religion. All the Indians of this band are pagans. They say that they never asked to have a big school on the Rainy River, they say Mr. Fryer made that up himself.

Sir,-

I have the honor to state that Mr. Robert Gill, teacher of the Manitou Rapids Indian Day School, has resigned his position as teacher of that school, owing to him having moved from his farm near the reserve, to Emo, he states the walk from Emo to the school is now too far.

As there does not seem any chance of the Seine River School being opened again, owing to the small number of children living on the reserve, I would suggest that Mr. Peter Spence, the former teacher of the Seine River School, be appointed teacher of the Manitou Rapids school pro tem., until we can get a better one.

If this is satisfactory, I would ask to be informed by wire, so that Mr. Spence could take charge at once.

OF CANADA

Form 2.

It is agreed between the sender of the following message and this Company, that said Company shall not be liable for damages arising from failure to transmit or deliver, or for any error in the transmission or delivery of an unrepeatable telegram, whether happening from negligence of its servants or otherwise, or for delays from interruptions in the working of its lines, for errors in cypher or obscure messages, or for errors from illegible writing, beyond the amount received for sending the same.

To guard against errors, the Company will repeat back any telegram for an extra payment of one-half the regular rate, and in that case it shall not be liable for damages beyond fifty times the amount received for sending and repeating.

Correctness in the transmission of messages can be insured by contract in writing, stating agreed amount of risk, and payment of premium thereon at the following rates, in addition to the usual charge for repeated messages, viz.: one per cent. for any distance not exceeding 1000 miles, and two per cent. for any greater distance.

This Company shall not be liable for the act or omission of any other Company, but will endeavor to forward the telegram by any other Telegraph Company necessary to reaching its destination, but only as the agent of the sender and without liability therefor. The Company shall not be responsible for messages until the same are presented and accepted at one of its transmitting offices; if a message is sent to such office by one of the Company's messengers, he acts for that purpose as the sender's agent; if by telephone, the person receiving the message acts therein as agent of the sender, being authorized to assent to these conditions for the sender. This Company shall not be liable in any case for damages, unless the same be claimed, in writing, within sixty days after receipt of the telegram for transmission.

Sir,-

Referring to your letter of 21st instant,

No. 116759/I, confirming telegram sent me that day, to appoint Spence teacher at Manitou Rapids, I beg to state that on the 24th instant Mr. Gill the former teacher wrote me stating that the time he sent me his resignation, he was in considerable trouble, his wife was sick in Winnipeg for three weeks, and about the same time one of his cows died, but if I had not appointed another teacher he would like to take the position back, that same day I visited the Manitou reserve, and explained the situation to the Indians regarding the teachers, and they stated they would prefer to have Mr. Gill come back, I therefore thought it best to re-appoint Mr. Gill teacher.

There are about 20 children available to this school, and all reside within a mile of the school.

The building is an old log building, and in fair repair, the equipment is fairly good.

The Chief of the Sein River band has just been here, and states that they want the school reopened, as those that lived on the reserve were all back for the winter, I saw Mr. Spence and he stated he would go back to this school next Monday, therefore the teachers of these schools will remain as they were.

I have the honor to be,

Mr. Pedley,-

Note - This was for Indian deputation

The following schools at one time or another have been in operation for the Fort Frances Indians:- Manitou Rapids, Little Forks, Stangecoming, Couchiching, Long Sault and Seine River Day Schools and the Fort Frances Boarding School. All the day schools with the exception of the one at Manitou Rapids have been closed. The Stangecoming and Couchiching Schools were closed on account of the opening of the boarding school at Fort Frances. The reason for the closing of the other schools was the absence of the Indians from the reserve for long periods at different seasons of the year and the irregular attendance of the pupils when on the reserve.

These Indians have a school at Manitou Rapids in charge of Mr. R. Gill. The Decemberquarter return has been received and we have had no intimation that the teacher intends to resign.

The last census return shows that there were 203 children of school age in the Fort Frances Agency, distributed by bands as follows:-

You will notice that some of the bands were schools have been established never had enough children to justify the Department in carrying on schools, even if they were constantly on the reserve and attended regularly, which is not the case. The Fort Frances, Kenora, Elkhorn and Cecilia Jeffrey Schools have ample accommodation for the children of these bands. Three-fourths of the Indians are given as Pagans and any of these schools, whether Protestant or Roman Catholic, would have the right to recruit among them.

Sir,—

I have the honor to enclose herewith the return of
Manitou Rapids Day School, for the quarter ended the
31st March last.

With reference to the last paragraph in the
remarks on the return, regarding an increase of salary,
I beg to state that in my opinion it would be advisable
to accept the teachers resignation, as the attendance
has been so poor during the past year, which is I think
partially the teachers fault, as he was frequently
absent attending to other business; he is clerk of the
Court at Emo, and lives there, so that he has to walk
at least three miles to school.

I have to acknowledge the receipt of your letter of the 9th instant in reference to the Manitou Rapids Day School.

In reply I beg to say that the Department is not prepared to grant any increase in salary to the present teacher, Mr. Gill.

Your remarks with regard to the fact that he is frequently absent attending to other business are noted. The Department thinks it would be in the best interests of the school if he would resign and if this resignation is forwarded it will be accepted. In any event if he is remain in charge the Department must insist upon the school being kept open the required number of days in each year. In further reference to official letter of the 29th of May, last, regarding the Manitou Rapids School I beg to say that a report has been received from Mr. Inspector Semmens which shows that the conditions at this school are in a most unsatisfactory state, so much so that the Department has decided ~~to~~ not to continue the school under Mr. Gill, the present teacher. With regard to the advisability of re-opening this school, I think that it would be useless to attempt doing anything further with this school until the amalgamation of the seven river bands is made, then when a good school building is put up, and a qualified teacher appointed, we may expect satisfactory results, and not before. With regard to consulting with the church authorities for securing a suitable teacher, I may say that as these Indians are nearly all pagans, they object to having any church having anything to do with their school.

Mr Alonzo Spencer of Big Forks, Ont., has, I understand, been recommended by the President of the Conservative Association, and the Conservative nominee, Mr J.T.Horne, as Farming Instructor for these Indians and in my opinion this appointment would meet with the approval of the Indians, as Mr Spencer is well known and is a sober and industrious man, and understands the Indian language, and his wife could be appointed teacher for the school. I saw Mr Spencer yesterday and he is willing to undertake the job and his wife would act as teacher.

REPORT OF INSPECTOR SEMMENS ON THE MANITOU RAPIDS DAY SCHOOL. 495027

The number on the roll during the quarter which preceded the summer holidays was 35 or 17 boys and 18 girls. The average attendance for the same period was 15 which was only fair considering the number of families brought together by the amalgamation of the Bands.

Since the holidays the number has been smaller still. At the time of my visit there were 11 boys and 5 girls present which was slightly above the present average, two boys being noted as visitors on this occasion.

The examination of the classes was fairly satisfactory.

Reading was good considering the short time which has elapsed since teaching was begun. Spelling was fair and writing was good. One or two of the boys show considerable ability in drawing. Behaviour in school appeared very good but the teacher reported that the boys were rather rough in their treatment of the girls out of doors and that all pupils seemed to regard all milder forms of punishment with stolid indifference.

Madam, -

In your annual report on the Manitou Rapids day school, it is noted that you state that no instruction in hygiene is given.

This subject should be placed on your time-table at once and a certain length of time should be given to this subject, each day.

The text-book, which you should use, is the "The Ontario Public School Hygiene". If you have not a copy of this book, you should forward a requisition for one, in the usual way.

The enclosed circular, - "Hints on the teaching of Hygiene", - is intended to assist you in teaching this subject, which is an especially important one in the case of Indian children.

Spencer, who is resigning on the appointment of her husband as Indian Agent, I beg to say it is noted that Miss Hayes is only eighteen years of age, and you have not stated whether she has any professional qualifications.

I may say that we would prefer a teacher having professional qualifications. However, it may not be possible owing to living conditions at this point to obtain a teacher of this type. I shall be pleased if you will state what living accommodation is provided for a teacher, or whether suitable boarding facilities can be obtained near the school. It is doubtful if the services of a young girl would prove satisfactory, but we will await further information from you or Mr. Spencer as to whether you consider Miss Hayes would prove satisfactory, or whether you would recommend that a qualified teacher be obtained. I may say that the salary allowed will depend upon the qualifications which the teacher secured possesses. Your early reply will oblige,

Referring to your letter of the 30th ultimo, relative to the appointment of Miss Olive C. Hayes to the position of teacher of the Manitou Rapids Indian Day School, I beg to state that Miss Hays qualification for teacher is only three years in High School, and I doubt very much if you could get a professional qualified teacher to take this School, as there is no place near that she could get to stay at, unless the Farm Instructor would take her in, and as Miss Hayes is a sister of the Farm Instructor, the question is settled as far as living accomidations go.

The Farm Instructor's house and the School room are combined in one building.

I consider that Miss Hays would prove a satisfactory teacher for this school and I spoke to Mr. Spencer and he is of the same opinion, in fact the young lady is now teaching this school, and has been doing so for the past month.

I have the honor to Recommend that the Manitou Rapid Indian Day School, be closed from the 1st Day of January, 1928, to 1st Day of April, 1928, For the reason that nearly every child will be away with their parents during trapping season, and secondly, The Teacher we now have is not giving satisfaction, and getting more careless, and when we reopen on the 1st of April, we could then engage a more competent teacher, to take the School, and we might have better success in education, with the children, the Indians will not make a complaint as I have asked them about the Teacher, a number of times but they will not say a word against her, but I have seen that she is not giving satisfaction, and the children are not progressing the way they should, and the children are doing just as they like and nearly running the School, so I think it would advisable to close for three Months, and reopen with a new Teacher,

I have the honor to be,

Sir.

Sir:

I have your letter of the 1st instant, in which you recommend that the Manitou Rapids Indian Day School be closed during the months of January, February and March, 1928, for the reason that nearly all the pupils will be away with their parents during that period.

In reply I beg to say that the Department concurs with you in your recommendation, and this school may, therefore remain closed during the period mentioned. Please advise Miss Hayes, the teacher, accordingly.

You should draw this matter to the attention of the Department early in March, next, and make a recommendation regarding the re-opening of the school, and state whether you would recommend that the services of Miss Hayes be continued or another teacher appointed.

In the meantime, all school material, etc., should be properly stored and the school building securely fastened in order to prevent any damage or loss.

I have your letter of the 5th instant, requesting authority to reopen the Manitou Rapids Indian Day School on the 1st proximo, and to secure the services of a new teacher, at the same salary as previously paid.

In reply I beg to say that the department will approve of this school being reopened on the date mentioned, provided you can obtain the services of a qualified teacher. Would you recommend the re-engagement of Miss Hayes? If not, please submit the name, qualifications and experience of the teacher secured by you to carry on the work at this school from the 1st of April, next, until the end of the present school year. We would allow salary at the same rate as was previously paid, viz. \$65 per teaching month. However, if the services of a teacher having professional qualifications are secured, the Department might be prepared to allow a slightly higher salary. You should give this matter your early attention and endeavour to obtain the services of a teacher.

EXTRACT FROM REPORT OF MR. INSPECTOR EWERS,
dated March 7th, 1929, on his inspection
of the MANITOU RAPIDS Indian Day School.

Original on File 124-3-6.

Evelyn Alderson

Attended Barwick Consolidated School about two
years after passing High School Entrance - Only
qualification.

Success not good, but fair considering teacher's
qualification.

It may be difficult to secure a qualified teacher
but no real success can be expected till a
qualified teacher who is a real teacher possessing
considerable tact and judgment be placed in charge
of the school.

Too great and rapid improvement cannot be expected
but some should surely be made. The great hindrance
is the home-life of the children.

A real live and suitable teacher could, no doubt,
work wonders in the school but the difficulty is to
induce such a teacher to accept the principalship
of an Indian School.

About half the Indians connected with the school are
Anglican and the remainder (the Manitou Tribe) are
Pagan. This is my first inspection of this school
and I have endeavoured to confine myself to general
conditions and advancement of pupils, but at the
next visit I shall be able to give an account of the
progress made. I am confident proper inspection of the
school will tend toward greater efficiency.

Sir:

The Public School Inspector, in a report on his recent inspection of the Manitou Rapids Indian Day School, has drawn attention to the work being performed by Evelyn E. Alderson in the classroom. He states she has no professional qualifications and that the success being achieved in the work is not good. He also states that no real success can be expected until a qualified teacher, possessing tact and judgment, is placed in charge of the school, and that a real live and suitable teacher could, no doubt, work wonders in the school.

When Miss Alderson was engaged, it was on the understanding that her services, if not satisfactory, would be dispensed with at the end of the present school year, viz., June 30th, next. The Department would be prepared to pay a higher salary if the services of a teacher having second class professional qualifications were secured. You should, in due time, endeavour to nominate the services of a qualified teacher for this school for the next school year, stating the name, qualifications and experience of the teacher whom you recommend for the position. When we have this information, consideration will then be given to the rate of salary we can allow. When replying, you should also furnish full information as to the boarding accommodation available for a teacher.

Please inform Miss Alderson in due time that her services will not be required after the end of the present school year.

I consulted with Mr Ewers, School Inspector in regard to accepting her and out of 25 Applications we accepted Miss McArdle, who comes with good recommendation. School opened on the 3rd of September, and I visited the School yesterday, and find that Miss McArdle is stepping into the harness, right at the start, and think she will make good, as she seems to take an interest in the Indian Children. We swore in a Police the 1st of this Month, and he is marching the children to School, and seeing that they attend. The Teacher is taking wonderful pains with the children, and they are progressing wonderfully. And I would like very much to retain the present Teacher, but afraid that she will not stay on the Salary that we are paying, and would Recommend that she be given \$900.00. per Year, and try and induce her to remain another Year. The trouble is that she can get more money to go elsewhere, were there is more enjoyment than with the Indians, and on a Reserve, and pretty hard to hold a good Teacher.

Sir:

I have your letter of the 3rd instant, enclosing the September quarter return of the Manitou Rapids Indian Day School. It is noted that Miss Abbott, who was appointed teacher by official letter to you of August 15th, last, did not accept the position and that you have secured the services of Miss Minnie Wheeler, who holds a second class certificate. The Department will approve of the appointment of Miss Wheeler, with salary at the rate of \$80 per teaching month. It is noted, from the remarks on the quarterly return, that Miss Wheeler did not begin duties until the 25th ultimo, teaching only four days during the above quarter, for which she will be paid one quarter of her monthly salary. A cheque will be forwarded in due course.

Dear Sir,

I hereby apply for the position of teacher in Manitou Rapids Day School on Manitou Reserve No. 11. In this connection I submit the following pertinent information.

I received my Public and Lower School education at La Vallee, Ontario, passing my Entrance with honours. In the Fort Frances High and Vocational School, under the principalship of Mr. J. R. Townshend, I completed my High School course and also received a certificate for successfully completing the Special Commercial course which includes Bookkeeping.

During the last term, I attended North Bay Normal School and now hold a First Class Interim Teachers Certificate. I also hold a Grade B Strathcona Certificate for Physical Culture and a certificate for four Sunday School Teachers' Training units. In addition to the regular Normal School course in Music, I have had one year's music instruction in piano.

Ottawa, November 8, 1924.

Sir:

I have to acknowledge receipt of a letter from the late Indian Agent, Mr. J. P. Wright, dated the 3rd instant, regarding the appointment of Miss Olive C. Hayes to the position as teacher of the Manitou Rapids Indian Day School.

In reply I beg to say in view of ^{his} ~~your~~ recommendation and the difficulty in obtaining living accommodation, the Department will approve of the appointment of Miss Hayes. As she has no professional qualifications, the salary allowed for her services will be at the rate of \$500 per annum, supplemented by the bonus provided by law. Payment of both salary and bonus is based on ten teaching months in the year. Please inform Miss Hayes of her appointment.

I shall be pleased if you will state the date on which Miss Hayes began duties.

Your obedient servant,

J. D. McLEAN

J. D. McLean,
Asst. Deputy and Secretary.

Ottawa, December 6, 1927

Sir:

I have your letter of the 1st instant, in which you recommend that the Manitou Rapids Indian Day School be closed during the months of January, February and March, 1928, for the reason that nearly all the pupils will be away with their parents during that period.

In reply I beg to say that the Department concurs with you in your recommendation, and this school may, therefore remain closed during the period mentioned. Please advise Miss Hayes, the teacher, accordingly.

You should draw this matter to the attention of the Department early in March, next, and make a recommendation regarding the re-opening of the school, and state whether you would recommend that the services of Miss Hayes be continued or another teacher appointed.

In the meantime, all school material, etc., should be properly stored and the school building securely fastened in order to prevent any damage or loss.

Your obedient servant,

T. R. L. MacInnes

Ottawa, April 7th, 1928.

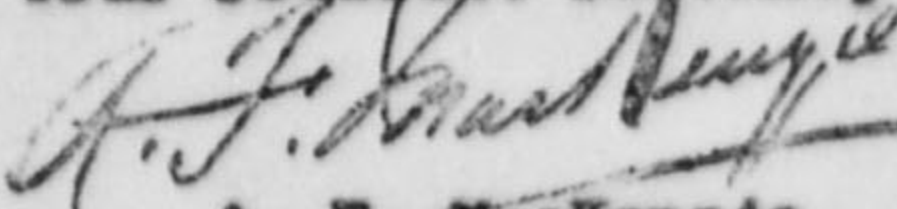

Sir:

I have your letter of the 2nd instant, informing the Department that you have engaged the services of Evelyn E. Alderson, temporarily, as teacher of the Manitou Rapids Indian Day School, and stating the qualifications which she possesses.

In reply I beg to say that the Department will approve of the temporary appointment of Miss Alderson for the balance of the present school year, to June 30th, next. Her retention in the position will depend upon the success which she meets in her work during the balance of the present school year. When the school closes for the summer holidays, you should forward a full report regarding the success which she has met with in the work, and also state whether you would recommend that she be re-engaged. The salary we will allow her will be at the rate of \$65 per teaching month.

I shall be pleased to be informed of the date on which Miss Alderson commences duties.

Sir:

I have your letter of the 30th ultimo, requesting that cheque in payment of salary due Miss E. E. Alderson for the June quarter, last, be sent her.

In this connection I have to say that, through error owing to similarity of names, this cheque was sent addressed to her, Berwick, Ont., instead of Barwick. We are writing the postmaster at Berwick to re-address the letter and forward it to Miss Alderson as soon as possible. The delay occasioned Miss Alderson in the receipt of her salary cheque is regretted, and it is hoped that it will reach her in the course of the next few days. I shall be pleased to hear later as to whether she receives her cheque or not.

I have to acknowledge receipt of your letter of the 30th ultimo, enclosing your report on your visit to the Manitou Rapids Indian Day School during the month of April.

In this connection the Department notes the improvement both in the children and in the attendance since the present teacher, Miss McArdle, began duties. The Department will be pleased to continue the services of Miss McArdle, and, in view of the recommendation of yourself and the public school inspector, will allow her an increase in salary of \$5 per month from the 1st instant. This will make her salary from that date at the rate of \$85 per teaching month. Please advise her accordingly.

Dear sir, -

I have commenced my work at the Manitow Rapids School and expect to like it very much. However I have a request to make. Would it be possible for me to get my cheque every month instead of quarterly. I am not asking this idly as there is real necessity for it. I am financing my brother and sister in college and they have heavy fees to pay before I should have anything to send them if I didn't get my salary monthly.

I hope you will be able to arrange this as it would relieve my mind considerably.

Dear sir, -

In accordance with your instructions I wish to make application for an advance on my salary.

My reason for making this request is that I am financing the college education of my brother and sister. Their tuition fees which have to be paid before Christmas could not be nearly paid with my first check and there are other expenses beside their fees. As I am their sole support financially it is really necessary that I should secure this advance.

Hoping my application will meet with your approval I remain,

Mrs. Russell T. Ferrier,
Board of Indian Education, Ottawa, Ont.

Dear sir, -

Would it be possible to forward part of this quarter's salary to me here before school closes? I believe that Mr. Spencer has written concerning it but I don't know whether or not he made it clear that I need it very much.

I have been financing my brother and sister in their college work and have to send nearly everything I receive each quarter. As a result I have no money to pay my fare home and if I wait until the middle of July to receive money I shall lose two weeks of my vacation. Not only that but I should have to cancel arrangements made to go home by car and this would cause considerable inconvenience.

If you could oblige me in this way I should be very grateful.

Sincerely,

Florence E. Calford.

Gentlemen:

I would be very grateful if your Department could give me some assistance.

I am a teacher applying for my superannuation with the Ontario Department of Education. I have taught for thirty-three years under the Department of Education of Ontario, but I taught for two years for the Department of Indian Affairs in the District of Rainy River in the province of Ontario.

These years were (a) from September 1936 to June 1937, and (b) from September 1937 to June 1938. I was at Manitou Rapids Indian Day School, near Emo, Ontario. The superintendent of the reserve was Mr. William Hayes. My salary was ninety dollars a month.

What I require is a statement from your Department indicating these two years of service, and that no superannuation

Dear Mr. Badarai:

I am writing you as one of your constituents whom you do not know personally. I am a teacher at Port William Collegiate, and am retiring from the profession this June. I have completed thirty-three years of teaching in the province of Ontario and am applying to the Ontario Superannuation Commission for my pension. But I also spent two years teaching Indians in an Indian Day School run by federal government, where I paid no superannuation of any kind. The Superannuation Commission of Ontario wrote to say they would consider this, but that I must have a statement from the Department of Indian Affairs in Ottawa as to my service, salary, and the fact that no superannuation had been paid. I wrote over a month ago to the Department of Indian Affairs in Ottawa, and have not even received an acknowledgment of my letter. Dear Miss Pratt:

Further to our letter dated April 30, 1970 we regret that we are unable to confirm the number of years of your employment with this Department.

During the years of your employment, Superannuation was not deducted for School Teachers, therefore you were not subject to a pension plan.

Yours sincerely,

D.C. Mackay,
Program Personnel Advisor,
(Indian and Eskimo Affairs).

Sir.

I have the honor to report that on a late visit to Manitowish Reserve, I found the school building in a decayed state, the walls are old, and the roof is covered with bark, it is not worth repairing. An Indian of the Reserve named Napa-Kokka has a good house nearly new 22 x 18 feet, 14 feet high flatbed top, shingled roof, floored below and above. cellar 12 x 12 with under ground drain. a death occurred in the building, and he built another house, he wants \$100.00 for the house and will give an acre of ground with it. I think \$25.00 would put it in good shape for a school, as the inside walls need some paper and linen lining, also a porch to the door.

This Indian is a good worker, has a good field and garden, and in the latter, is over 200 cartages.

Although results at this school appear to have been rather unsatisfactory, I think it ought to be continued, as there are eighteen children on the roll. If funds can be provided, I think the house mentioned might be purchased and put in order for a new school-house.

Sir,-

With reference to accounts for the cleaning of the Indian Schools, I beg to point out that on the 7th October, you forwarded for payment Voucher No. 929 for \$3.75, in favour of Langstaff Mercantile Co., Emon, which contained the following item:- "August 31st. Paid order scrubbing School \$1.25". This item was paid by cheque No. 3688 in favour Langstaff Mercantile Co., on the 20th October.

On December 4th You submitted Voucher No. 948 in favour of this firm. It contained the following item:- "Oct. 12th., 1931, Goods supplied Mrs. A. Medicine on order of Wm. Hayes \$2.50." Payment in this case was made by cheque No. 4392 on November the 18th.

On December the 15th the Department received Voucher No. 1004 in your favour for the cost of the scrubbing of the Manitou Rapids School from June 1930 to October 1931 viz:- \$27.25. Each of the items referred to above, for which the firm of Langstaff Mercantile Co., received payment were included in Voucher No. 1004 in your favour. Kindly refer in this connection to Receipt No. 10 for \$1.25 and Receipt No 12 for \$2.50. The duplicate charges were not at once observed and the Voucher was paid by cheque No. 5510. This made an over-payment of \$3.75, which amount should be refunded without delay, and explanation furnished.

In future you should not have accounts for cleaning of school paid by Langstaff Mercantile Co. You should submit them direct to the Department, in order to avoid mistakes such as referred to above.

Your obedient servant.

EX D
OFFICE OF
INDIAN AGENT

FORT FRANCES, AGENCY,

MARCH, 1st, 1932,

No. 4915.

Sir.

No. 124-3-5A,

Inclosed,

I have the honor to acknowledge receipt of your letter of the 16th Ultimo; -In which you have drawn my attention to two items, that have been duplicated in account, for scrubbing of Manitou Rapids Indian Day School, And as requested enclosed you will find Deposit Receipt and Draft, in favor of the Receiver General of Canada, for the sum of \$3.75. refund for overpayment of account of scrubbing of School. In regard to the scrubbing of the Manitou School, Mr Hayes the Farm Instructor of Manitou Reserve, has ## always been paying for the scrubbing of the School, getting Receipt for same and sending them on to me for to be forwarded to the Department for payment, in this I had done the same as in the past, took his Receipts made out Account and forwarded it to the Department, not knowing that he had taken a Receipt from Mrs Medicine and given her an order on Langstaff Co for Mdse, and they in turn charged it up to the Department, No doubt but Hayes intended to pay Langstaff Co, when he received Cheque for scrubbing of School, because as soon as I receive a Cheque for scrubbing I simply sign it and forward it to Mr Hayes, for advance made for scrubbing. In future you may rest assured that I will see that there are no duplicated accounts goes into the Department if I can help it,

I have the honor to be,

Sir.

Your obedient servant,

Sir:

I have your letter of the 31st ultimo, requesting that 500 lbs. of Eskimo biscuits be supplied for use at the Manitou Rapids Indian Day School.

In reply I have to say that an order is being placed with the Independent Biscuit Company, Calgary, Alta., who have the contract for the yearly supply of biscuits, to ship the above quantity, addressed to Wm. J. Hayes, Emo, Ont. The price charged is \$7.45 per cwt., f. o. b. point of delivery. The above company have been requested to forward their account, covering the cost of the biscuits, to you, in triplicate. When you are assured that they have been received, you should certify the account in the usual manner and forward to the Department for payment.

Your obedient servant,

Attention A. F. MacKenzie, Sec'y.

Gentlemen:

We have your request of June 6th for a shipment of Eskimo Biscuit direct to Wm. J. Hayes, Emo, Ontario, at the delivered price of \$7.45 per Cwt.

C.N.R.
Fint. L.C.L.
264 per cent.

We would like very much to oblige you in this respect, but when we tell you that the price quoted at the time the quotation was tendered showed us less than $\frac{1}{8}$ per pound profit, and, with the advances in all raw materials in the meantime, you will readily understand why, if we do accept this order, it will show us an absolute loss.

The order that we quoted you on was for a fixed amount for specific deliveries, all of which have been cleaned up. However, if it is agreeable to you, we will be willing to accept this order at \$7.45 per Cwt. f.o.b. Calgary, and which is the best price we can make under the circumstances.

I have your letter of the 9th instant, with reference to our request of the 6th instant to supply 500 lbs. of Eskimo Biscuits, to be shipped to Wm. J. Hayes, Emo, Ont. In this connection I have to say it is noted that you will supply the above quantity of biscuits at \$7.45 per cwt., f. o. b. Calgary. This price is satisfactory, and I would request that you ship the biscuits as soon as possible, by freight, prepaying the charges.

Please forward your account, in triplicate, to Mr. A. Spencer, Indian Agent, Fort Frances, Ont., including the amount of the freight charges, and attach thereto the receipt covering payment of same.

Memo. Mr. Sutherland.

Ottawa, Sept. 29th. 1933. 193.....

Manitou School Caretaker.

At my recent visit to the Manitou Reserve the Chief and Council complained that the allowance for caretaking of the school there was mis-appropriated in that although, as they understood, \$15 per month was allowed for this service only \$2.00 was actually spent, as this sum was given to an Indian woman for scrubbing work each month.

They also complained that the school children had no play ground as the ground set aside for this purpose was used for a pasture lot for cows and chickens belonging to the farm instructor.

Apparently some fencing should be done, in such a way that the children during recess had a playground for themselves, and from an inspection of the premises made at the time of my visit, this could be done at small cost.

Mr. Hayes. please consider this matter.

5. During hunting season great number of white men comes to our reserve to kill deer and take it away. If this keeps up, we are afraid that they will be no meat left for us.

6. We understood that \$15.00 was to be deposited towards the care of our school - The school is only scrubbed once a month which is done by one of our Indian women. She receives \$2.00 in trade for that one cleaning period. Where is the balance of the \$13.00? As far as we know ~~\$15.00 is all~~ only \$2.00 is used each month to keep the school in order. 7. During school year, Mrs William Hayes has her school children do all the sweeping etc to keep the school in order. If that can be done by our own children, why should we put ~~\$45.00~~ out \$15.00 a month to keep this school in order. At recess, our children are sent out of the school's yard because she keeps her dog, cows and chickens in that supposed to be a school yard. Please look in to this matter. Sir:

When Mr. Bury visited the Manitou Rapids Reserve recently, he was informed by the Chief and Council that an allowance of \$15 a month is made for caretaking services and that only \$2 of this amount is paid to Indians.

You should inform the Chief and Council that the Department does not allow \$15 a month for caretaking services at the Manitou Rapids School. Your voucher No. 381 of March 10th, amounting to \$14, covered the cost of scrubbing and cleaning the Manitou Rapids School for the calendar year 1932 and, according to that voucher, all the money expended for the purpose was paid to Indians.

The Indians also complained to Mr. Bury that the school children have no playground, as the ground set aside for this purpose is used as a pasture by Mrs. Wm. Hayes. Please let me have a complete report regarding the latter complaint and advise if you consider any action should be taken in the matter.

No.689.

Sir.

No.124-3-5.

I have the honor to acknowledge receipt of your letter of the 29th Ultimo;-In regard to complaint of Manitou Rapids Indians to H.J.Bury,in regard to School Children and Play Ground,

And in reply to same,I have to report that there is Three Acres of ground in the School Lot,and on this lot there is a combined School and Farm Inst'r Residence,an Implement shed and a stable,there is no seperate ground fenced off for the children,and they have access to the whole Three Acres, the Farm Inst'r has a cow and no doubt but the cow grazes on the School lot,

We have a lot of Machinery at the Machinery shed and as the children will not keep away form the machinery,Mrs Hayes tries to keep them away,and for this reason the Indians are verry sore at her,

There is a little fault on both sides,Mrs Hayes has no place to hang her clothes when she washes,and the children run all amoung her clothes,because she has to hang them in the School yard,and she gets verry angry at them,and when she scolds them they go home and tell their parents, to save all this trouble,I would Recommend that a portion of this Ground be fenced off for the School Children,so that the children would know where they should be,as we cannot have them fooling with machineryand around the stable, as it is so late this fall,it could not be done,but it should be done the first thing in the spring,and by doing this I think we could avoid all trouble between the parents and Mrs Hayes,

I have the honor to be,

Sir:

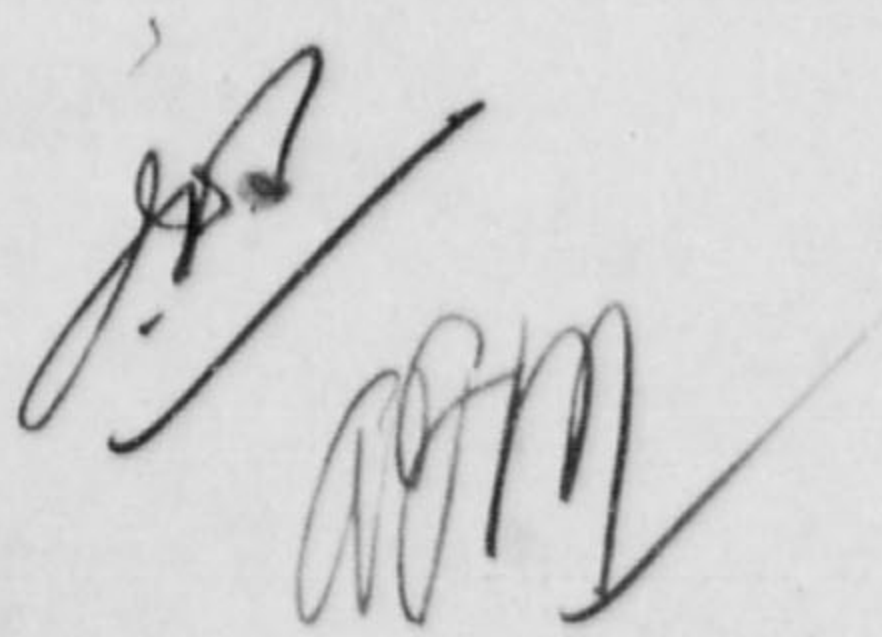

I have your letter of the 19th instant, with reference to playground facilities for the children at the Manitou Rapids Indian Day School.

In this connection I have to say it is considered that, if tact is used by Mrs. Hayes and yourself, it would be easy to have sufficient space allotted for playgrounds on the lot surrounding the school. The question of fencing a portion of the lot for a playground might be considered next spring. I would request that you bear this matter in mind and, early next spring, forward an estimate of the cost of material and labour for the purpose of fencing a sufficient portion of the lot for playgrounds. There are no funds available at the present time to carry out this work.

Sir,-

The Department is in receipt of your Voucher No. 631, for \$7.60, covering midday meal supplies purchased for the Manitou Rapids Indian Day School. Please let me know the date of the authority for the purchase of these supplies. You should, also, state for what length of time the articles purchased will last.

For your information I may say that, owing to lack of funds, the Department has only been authorizing very limited supplies for midday meal purposes and, in addition, has only been allowing midday meals from November 1st. In connection with the Manitou Rapids School, I would point out that a reasonable supply of biscuits has already been supplied the school.

Payment of the account will be withheld until your explanation is received.

EXTRACT FROM INSPECTOR EWERS' REPORT ON HIS
VISIT TO THE MANITOU RAPIDS INDIAN DAY SCHOOL
ON October 13th, 1933.

Original on File 124-3-6.

The steps leading to the Classroom should be repaired or new steps built, as the wood in the steps are practically decayed beyond repair. This matter should be attended to as soon as possible as the steps are really not safe. The steps are rather high and should any child fall from the steps, it is in danger of being more or less severely hurt.

I very strongly urge the Department to continue to supply sufficient soap for the children as one of the most difficult tasks of the teacher is to inculcate the habit of cleanliness in these children.

Sir:

The Public School Inspector, in a report on his inspection of the Manitou Rapids Indian Day School on October 13th, last, draws attention to the condition of the steps leading to the classroom. He recommends that they be repaired or new ones built. He states the wood in the steps is practically decayed beyond repair and that the steps are really not safe.

I have therefore to request that you will arrange to have these steps repaired and placed in a good, strong condition, at the earliest possible date. All expense for the purpose should be kept as low as possible. When the work is completed, you should forward an account, in triplicate, properly certified, covering the expenditure incurred.

The Inspector recommends, further, that the Department continue to supply sufficient soap for use by the children. You may therefore arrange for the purchase and delivery at the school of the quantity of toilet soap considered by you to be absolutely necessary. Please forward a certified account, in triplicate, covering the cost.

FORT FRANCES, ONT.,
NOVEMBER 28th., 1933.

No. 762

Sir;

No. 124-3-5.

I have the honour to acknowledge receipt of your letter of the 22inst:- in regard to supplying midday meals for the Manitou Rapids Day School.

In reply to the same I have to report that on August 6th., 1933, letter No. 124-3-5, I was authorized to purchase cocoa and milk for midday meals at the Manitou Day School. Since that date the School children have been receiving a midday meal consisting of biscuits and cocoa, and as I was never requested to cease doing so the children have been receiving these meals at noon.

The children at the Manitou School have a long way to come to School, some as far as three miles. Often when there is nothing to eat at home their only meal is the biscuits and cocoa received at the school. It is hard to state how long the cocoa and milk will last, as it all depends on how many children attend School. The last purchase was on February 3rd. 1933, but the present purchase should last for about six months.

I may have been at fault for not sending in a Requisition for purchase of these articles, but I was not aware of the purchase of the same until I received the bill. The Teacher notified the Farm Instructor that they were out of cocoa and milk for the midday meal and he at once purchased the cocoa and milk for the School.

I have the honour to be,

Sir.

Sir:

I beg to acknowledge receipt of your letter of the 28th ultimo, with reference to supplying a midday meal at the Manitou Rapids Indian Day School. It has been decided to pay the account which you submitted.

I note that you refer to letter of August 6, 1933, as authorizing you to purchase cocoa and milk for midday meals at the Manitou Rapids School. This is apparently a mistake, as the letter referred to was written on August 6, 1931. In this connection I would point out that circular letters which have been forwarded to you indicate that new authority should be obtained for expenditure such as this at the beginning of each fiscal year. Expenditure should not be incurred on the strength of authority issued a year or more ago.

You may authorize the teacher to continue serving cocoa at the Manitou Rapids Indian Day School until the end of March, 1934.

Sir:

The Department is in receipt of Inspector Ewers' report regarding his visit to the Manitou Rapids Indian Day School on the 16th ultimo. He states that the steps leading to the doors of the classroom are in a dangerous condition and require repairing. As this will likely involve only a small expenditure, you should arrange to have these steps repaired as soon as possible.

The Inspector reports, further, that the teacher is handicapped in endeavouring to train the children in cleanliness and tidiness, owing to no soap being provided. You should provide the soap that is necessary at this school and forward an account covering its cost.

OFFICE OF
INDIAN AGENT

FORT FRANCES AGENCY,
OCTOBER 18th., 1934.

No. 1084.

Sir.

I have the honour to report that the Manicou Rapids Indian Day School furnace is in very bad condition. It is cracked so badly that they are smoked out when a fire is put on in the furnace.

I have seen Mr. Tompkins of Emo, Ontario and he informs me that it can be fixed by taking it out and patching the crack but it would only crack again. This is because all the cold air goes in on the one side of the furnace and to stop it from cracking there would have to be two cold air pipes put in on the other side of the furnace which would cost about \$100.00.

I would requisition the Department for authority to have this alteration done so the School could be heated to better advantage. Mr. Tompkins claims that it would be a saving on fuel and the School could be heated no matter what direction the wind blows. At present it cannot be heated when the wind is from the west.

I have the honour to be,

Sir.

Memorandum:

The Honourable the Superintendent General,-

Mr. A. Spencer, Indian Agent, Fort Frances agency, reports the necessity of having repairs made to the furnace in the Manitou Rapids Indian Day School, Emo P. O., Ont. (Reserve No. 11 - federal district of Kenora-Rainy River). It would require an expenditure of approximately \$100.00 to have the furnace repaired and two cold air pipes installed, to provide sufficient heating facilities for the school.

Funds for the purpose are available in the Appropriation for Indian Education for the current fiscal year. I should be pleased to be advised of the name of the firm who should carry out the repairs.

Ottawa, March 22nd, 1935.

Sir,-

I beg to acknowledge the receipt of your voucher No. 1036, covering the cost of scrubbing and cleaning the Manitou Rapids Indian Day School from May, 1934, to March, 1935.

In order to facilitate the work, it has been decided to allow the teacher the sum of \$2.00 a teaching month for scrubbing and cleaning the school. You should therefore issue a voucher at the end of each quarter in the teacher's favour for this service at the rate mentioned. This means that, at the end of June, December and March, a voucher for \$6.00 will be issued and, at the end of September, a voucher for \$2.00. This will avoid the necessity of keeping receipts. The Department will expect, of course, that you will see that the school is scrubbed regularly and kept in a cleanly condition.

EXTRACT FROM REPORT OF MR. A. G. HAMILTON,
INSPECTOR OF INDIAN AGENCIES, ON HIS INSPECTION
OF THE MANITOU RAPIDS INDIAN DAY SCHOOL DURING
THE MONTH OF APRIL, 1935.

Original on No. 124-3-6.

The front steps are badly rotted and should be rebuilt. The building has not been painted outside for years and this work should be carried out this year, if possible.

The furnace was repaired last year, but is over 20 years old and operates very unsatisfactorily. A new large furnace should be provided as the two buildings contain a large air space.

Sir:

In a report regarding his inspection of the Manitou Rapids Indian Day School during the month of April, Inspector Hamilton states that the front steps are badly rotted and should be rebuilt. Please let me have an estimate of the cost of repairing these steps.

Mr. Hamilton also states that the furnace does not operate satisfactorily. Would it be possible to repair the present furnace or do you think a new furnace is required? In either case, please let me have an estimate of the cost.

Sir.

No. I24-3-5,

I have the honor to acknowledge receipt of your letter of the 13th of May, 1935, In regard to repair to Indian Day School. as recommended by Inspector Hamilton, And as requested by your letter, You will find estimate for the porches of the School, the estimate is \$52.76, In regard to the Furnace of the School, we repaired this Furnace last fall, which was of some help, but the furnace is so badly craked, that it cannot be repaired, and will need a new furnace, the estimates you will find enclosed, The Calomining of the interior of the School, and the painting of the ceiling would cost \$50.00. that is the estimate I received from Mr Prior of Emo, Ont, This School should be re-decorated as it is verry dirty, and has not been calsomined since it was built 20 Years Ago, I would recommend that this work be done during vacation so that it would not disturb the School work,

I have the honor to be,
Sir.

Ottawa, June 29, 1935.

Sir:

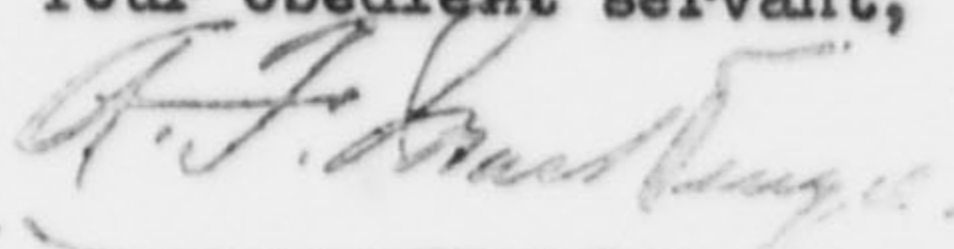

I have your letter of the 21st instant, regarding the repairs and the new furnace required at the Manitou Rapids Indian Day School.

In reply I have to say that you may incur an expenditure, to the amount of \$52.76 - the estimate which you submitted - in supplying the materials and labour for the purpose of repairing the front steps and porches of the school. You may also incur an expenditure, not exceeding the sum of \$50.00, in kalsomining the interior of the school and painting the ceiling.

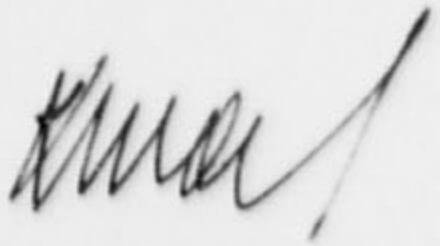

Further, the Department will approve of the installation of a new furnace, and you may place the order with the Wells Hardware Company, Limited, to move the old furnace, and to set up a new cast iron furnace, of a suitable size; reset the brick-work, putting in new brick where necessary and cover the two hot air pipes in the wood-room with asbestos covering, for the amount quoted by them, viz.: \$176.00.

I enclose encumbrance certificate, providing an amount of \$280 for the purpose of carrying out the above mentioned repairs and for supplying and installing the new furnace. The work should be done during the coming summer holidays, and, when completed to your satisfaction, you should forward itemized accounts, in triplicate, properly certified, covering the expenditure incurred in the purchase of the materials, and accounts, in triplicate, properly certified, covering the expenditure incurred in the labour. You should state definitely the number of days or hours employed and the rate paid. Please state, on each copy of the voucher, that the expenditure was incurred under authority of E. R. No. 3409.

Your obedient servant,

A. F. MacKenzie,
Secretary.

Requisition for School Material

Date October 8th 1935

For Manitou Rapids School Fort Frances Agency

NOTE:—Teachers should secure from the Department of Education, of the Province in which the Indian School is located, a list of the text books authorized for use in the white schools. In ordering text books only those authorized in this list should be requested.

To avoid delay, teachers should give full particulars regarding each article required.

The name, series, number of grade, and name of author and publisher of all books required should be given as fully as possible.

When ordering kindergarten material, the catalogue number of some well known firm should be given for each article required.

Only one item should be specified on each line of this requisition and no entry should be made under heading "No. Authorized."

ARTICLES	No. ON HAND	DATE OF LAST RECEIPT	No. REQUIRED	No. AUTHORIZED	REMARKS

Dear Sir:

When Mr. Hamilton and I were going over the Residential and Day Schools respectively at the Fort Frances Agency yesterday, several matters were brought to our attention involving moderate expenditures in the way of painting, etc.

In the afternoon we paid a visit to the Day School on the Manitou Reserve, near Emo; this building requires repairs to the roof of the residence portion; the whole building is greatly in need of painting and the general appearance of the grounds would be wonderfully improved by a new paling fence properly painted.

Yours truly,

Dear Sir,-

The Deputy Superintendent General has reported to the Department regarding his recent inspection of the Manitou Rapids Indian Day School.

Please let me have an estimate of the cost of the following repairs:-

- (1) Roof of the residence portion of the building.
- (2) Painting the exterior of the school.
- (3) Erection of a new fence around the school grounds.

On receipt of your reply, the Department will be in a position to decide if funds can be provided for the above purposes.

Yours truly,

T. R. L. MacInnes

No. 5-729,

FORT FRANCES, AGENCY,
AUGUST, 14th, 1936,

Sir.

No. I24-3-5.

I have the honor to acknowledge receipt of your letter of the 29th of July;- In which you request the Estimate of Painting the Manitou Rapids Indian Day School, Shingleing the Roof of the Residence for Farm Instructor and the erection of a Fence around the School.

And as requested enclosed you will find Estimate for the Shingling of Residence and Fence and Repairs to Porches, on Residence, The Estimate for the Work and Material complete would be \$ 177.96, ✓

The Estimate for the Painting and Repairs to Indian Day School were Estimated by Mr Prior last fall, he Reported that he would Repair the Sideing which is all loose and some fallen off and paint the School and Residence for the Sum of \$ 225.00. which is verry reasonable, as when we painted this School in 1925, it cost us \$275.00. and it is verry bad repair at present,

I have the honor to be,
Sir.

Ottawa, September 11, 1936.

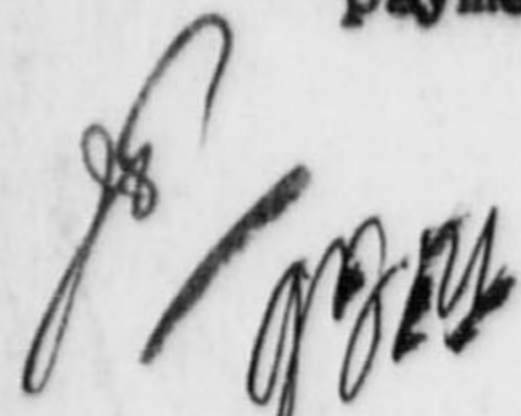

Dear Sir:

I have your letter of the 14th ultimo, giving an estimate of the cost of painting the Manitou Rapids Indian Day School, shingling the roof of the residence, repairing porches at entrance and erecting a fence around the grounds.

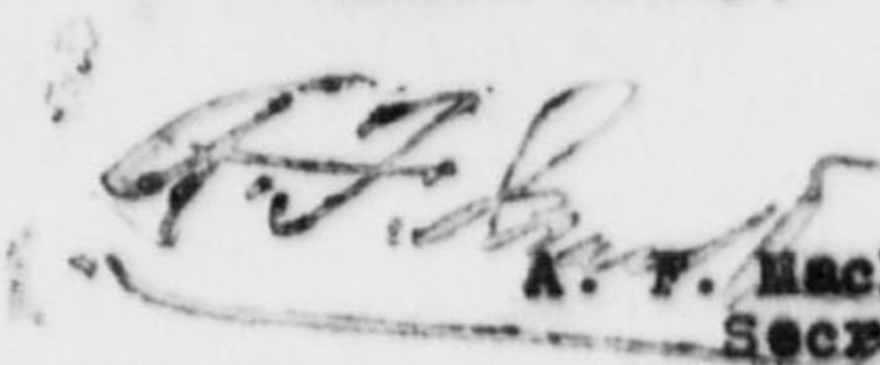

The Department will approve of the expenditure required in having the above work carried out. It is noted that you estimate the total cost for material and labour to be approximately \$405. This amount should not be exceeded. You may arrange for the purchase of the materials required from Tomkins Hardware, Emo, Ont., and Mr. Thomas Geary, R. R. No. 2, Emo, Ont., may be employed to do the carpentry work necessary. If possible, any other labour should be carried out by Indians, under Mr. Geary's supervision. I would request that you have the repairs, etc., carried out at an early date.

Please obtain itemized accounts, in triplicate, covering the cost of all materials, and proper time sheets, in triplicate, should be kept for the labour employed. The number of days or hours employed and the rate paid should be definitely stated. These accounts should be attached to proper voucher forms, certified by you and forwarded for payment.

Yours truly,

Dear Sir,-

It is necessary to return the accounts which you submitted for the material and labour in repairing the residence in which the teacher of the Manitou Rapids Indian Day School resides.

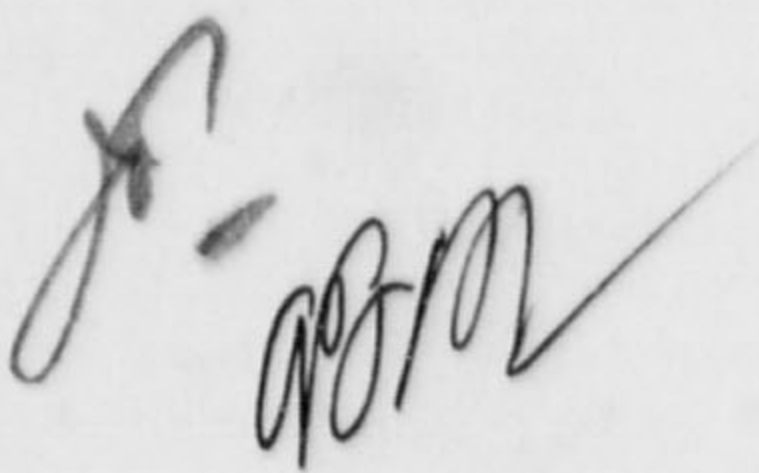

The account of Tompkins Hardware contains a charge covering 218 hours' labour at 40¢ an hour. Besides, there are labour returns in payment of the services of two carpenters for the weeks ended September 26th and October 3rd. You should state whether the labour charged in the Tompkins Hardware account includes the services of the two carpenters as shown by the labour returns. If not, you should prepare a voucher, in triplicate, in favour of each of the carpenters and attach the labour returns, certify same and return to the Department.

I would request that you give this matter your early attention and return the accounts as requested.

Yours truly,

FORT FRANCES, AGENCY,

DECEMBER, 28th, 1936,

Sir.

I have the honor to acknowledge receipt of your letter of the 21st Inst; -with enclosure of Tompkins Hardware Account Voucher No. 571, of December, 7th ,

And in reply to your letter of December 21st, I have to report, that the Labor Returns enclosed were included in the Tompkins Hardware Account, as requested by Department letter of the 11th of September, No. 124-3-5, in which it was requested that itemized accounts in triplicate, and proper time sheets in triplicate should be kept for all labor, but on which I should of reported them to be included in Tompkins Hardware account,

I have the honor to now return the Account of Tompkins Hardware and trust that it will be satisfactory,

I have the honor to be,

Sir

About the 24th ultimo I received an Official letter from your Department that I have mislaid, and assume it was dated about the 21st ultimo and no. about 153814 relative to the proper Form of School return for the Fort William Girls School; was not used last Dec^r Quarter, ~~have to state~~ and that the numbering of the pupils, should commence from No. 1 upwards and the same numbers in Register should always be the same for the same pupil, Have to state that I wrote the Rev^d Mother Superior in Charge of this School on the above subjects, and enclose her reply, stating they have not any other Form furnished by me, also will give attention to the Register numbers being kept in accordance with your request - And as these are not the proper Forms required, Have asked in another letter of to day, to be furnished with a dozen of the required kind.

At a meeting of the Dep. Sch. Board held here to-night the following resolution was passed:

"Moved by Mr. L. Laporte and seconded by Dr. M. James that the Secretary write Mr. L. A. McLeod M.P. asking him to try to secure any increase in the annual Indian grant for our school."

I may say that we have been receiving a grant of \$100 per annum, but as we understand that the grant is being materially increased in many other places, the trustees feel that something additional might be allotted to Mattawa.

Memorandum: Mr. Benson,--

Mrs. Catherine Bernard, of Mattawa, called at the Department to-day, and claims that she left Oka about fifty-two years ago and that she has taken charge of four grandchildren, whose father died a couple of years ago. These four children's ages range from 10 to 18. The oldest of the four provides for himself, and the grandmother looks after the three others.

There are four younger children in the family, whose ages range from 3 to 8 years; they are with their mother - her daughter - who scrubs for a living.

Mrs. Bernard would like if we could put some of these children in the Wikwemikong boarding school. *to grant her some assistance to enable her to support them under her care*
Possibly we had better write the H. B. Co's officer at Mattawa and verify the facts.

Rev. Sir,-

Mrs. Catherine Bernard, of Mattawa, called at the Department to-day in company with her daughter and asked that her grandchildren be taken care of by the Department. There are four children of her son and four of her daughter, who is a widow. The oldest boy, who is eighteen, is able to provide for himself, but the remaining seven require assistance from the Department, so she states.

As we have no knowledge of the facts, I should be glad if you would be good enough to state the circumstances. One boy is said to be a cripple and he is attending the Mattawa school, while the others are all under fourteen years of age. The Department would also like to know whether provision could be made for four of the children by the Sisters of Mattawa, if necessary, on their being paid for their maintenance and on what terms.

The Rev. Father Laniel, who also was at the Department to-day, has promised to speak to you on this subject.

MATTAWA, Ont. *July 1st* 1907N^o 154234/1, June 29, 1907To the Secretary of the Dept of Indian Affairs, *Attawa,**Schools*

Dear Sir,

The statement made at your Dept. by Mrs Catherine Bernard, as to her grandchildren, is correct. The Sisters of Mattawa are at the head of a hospital and no accommodation could be found here for young children. In my opinion St Patrick's Orphan's Home, or an industrial school would be the right place for the grandchildren of the old lady. Perhaps the four children of the widow of W. Legros, who are all under ten years of age are too young yet for an industrial school, and the Orphan's home is the only place that would suit them. These four and the boy who is a cripple are the only ones, I think, that would need assistance from the Indian Dept.

Hoping, dear Sir, you will find this information sufficient to act upon.

I am

yours respectfully

Dear Sir:

I regret, very much,
the delay in giving you an
answer to the application sent
in for the admission of three
Indian children; but, there
eight applications from the

were obliged to admit, and to make place for them we prevailed on a few of the relatives of children who were here, to take them to their own homes.

Last Friday a Meeting of the Committee for the admission of inmates was held, it was decided that the Indian children cannot be taken in as we are over crowded. One of the gentlemen had an application for two other children, but it was put aside until there is a vacancy.

Our Asylum is really not large enough for the accommodation of all who would like to come, or rather should be here.

Madam,-

I should be glad to know whether your institution would be willing to receive three Indian children, two girls and one boy, whose father is dead and the mother in destitute circumstances. Their ages range from five to eight years.

The Department is anxious to obtain a suitable home for these children, and would like to know upon what terms you would receive them.

Your obedient Servant,

Dear Sir:

Replying to your letter No. 154234/1, of August 27, I desire to say; we will, for the scholastic year beginning Sept. 1907, accept the Indian children in question for the usual sum given by the Dept: \$50 for each child, but this will not include any medical attendance, medicine or travelling expenses to have the children brought to Ottawa. We would also ask a contribution towards their clothing and school books.

The Deputy Superintendent General,-

At the end of June, last, Mrs. Catherine Bernard called at the Department to see if some of her grandchildren, whose fathers are dead, could be placed in an industrial or boarding school.

There are four young children whose ages run from three to eight years. They are too young to be placed in Wikwemikong, and there is no other school available. Rev. Father Nelles, of Mattawa, was asked for a report regarding these children and he corroborates the grandmother's statement and hopes that the Department will be able to provide for them.

I called at St. Patrick's Orphanage and asked on what terms they would receive them. The Sister Superior wrote stating that they had no vacancies. I also called at St. Joseph's Orphanage and asked the same question and a reply has been received from the Sister Superior of that institution, stating that they will take them for the usual per capita grant allowed boarding schools in Ontario. If funds could be spared I know of no more suitable home for these children. They have some 200 children of about the same ages, who are well looked after and have every comfort and care that an institution of this kind can afford.

I beg to acknowledge receipt of your letter in reference to the Mattawa Separate School. I beg to report that I visited the school on the 15th inst. and found 32 half-breed children present and the school register shows a total attendance of 36 of these children. The parents of these children are half-breeds who live mostly in the town of Mattawa and their occupations are chiefly acting as guides river-driving and working in the adjacent lumber camps. A number of these children are illegitimate and I find they are taken care of by the Sisters in charge of the school. I also beg to report that 6 of the families pay a total amount of \$40 in taxes considering the attendance at this school. I think the board are showing good results in return for the annual grant of \$200.00 which is made for the institution by the Department.

The Deputy Superintendent General,-

In reply to your memorandum of the 13th inst. I beg to say that in November, 1874, the Rev. Father peitiras, Missionary at Mattawa, applied for a grant to assist the new school he had established there, stating that there were about thirty Indian families in the neighborhood, with fifty children of school age. The department agreed to contribute \$100 a year after July 1, 1875, and ~~xx~~ has paid the grant ever since then. The grant was increased to \$300 from January 1, 1907, in view of the large attendance at the school, and this is the rate at which it is paid now.

The attendance at this school has always been very regular and shows an average of over 35 for the past three years, while December quarter had an enrolment of 36 with an average of 29.

Mr. Agent Cockburn, who visited this school on January 13, last, reported that the reister showed an attendance of 36 and there were 32 present the day he visited the school. His report is turned out herewith, and shows that the school is doing good work.

Indian Department,
Ottawa,
Dear Sirs,

I am a member of Separate School Board of Mattawa, Ont. I am writing you in an effort to secure an increase in the grant from the Indian Dept. for our school here.

At the present we have nearly three hundred children in our school. Many of these Indians and a great number of them half-breeds, very difficult to say whether they are half-breeds or not. We are educating these children for almost nothing since it costs us about \$30 per child each year. We have not the taxes from the public utilities. In many cases the Indians are not paying taxes, merely squatting. These are facts and for the confirmation of the above I refer you to Mr. George Coburn, Indian Agent at Thompson Falls. He knows the work is being done here ^{by us} as he was here a week ago.

Trusting this appeal will receive your consideration and a satisfactory response. I remain

Sir,

I beg to acknowledge receipt of your letter No-43-2-1, of the 24th instant with reference to request from the Rev. Father Hegan of Mattawa, for an increase in the grant paid by the Department for the tuition of the Indian children who attend the Mattawa Separate School.

I beg to report that I visited the school yesterday and report that the school register shows an attendance of 56 children of this number there are 12 considered Indians the balance being half-breeds.

the parents of the Indian children reside adjacent to the town limits in the township of Papineau and do not pay taxes, the majority of the half breed families reside in the town of Mattawa are assessed and pay taxes to the school.

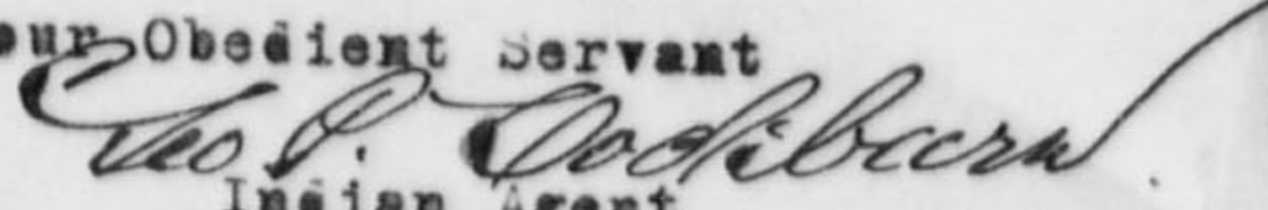

during the summer months a small number of Indian families reside in tents adjacent to the town when their children attend school, the Rev Father Hegan states that the Department should pay for the salary of a teacher namely \$800.00 per annum, in view of the conditions I beg to recommend that the grant be increased \$100.00 per annum.

I have to acknowledge receipt of your letter of the 3rd instant, with reference to the request of the Rev. Father Hogan for an increase in the grant, paid by this Department for the tuition of the Indian children who attend the Mattawa Separate School.

In reply I beg to say that the Department is under no obligation for the education of the half-breed children. We note that the majority of the half-breed families reside in the town of Mattawa and are assessed and pay school taxes. As there are only 12 bona fide Indian children who attend regularly, and in view of the excellent reports received, regarding the work of this school, the Department will allow an increase of \$100 per annum in the grant, from the first of September, last, the beginning of the present school year. This will make the grant allowed from that date at the rate of \$350 per annum, which is considered ample remuneration for the number of Indian children who attend. I shall be pleased if you will inform the Rev. Father Hogan and the school authorities accordingly.

In preparing the quarterly returns, only the names of the bona fide Indian children who attend should be included and no half-breed children should be mentioned.

Dear Sir;

With reference to your letter of August 21st, concerning grant to Mattawa Combined School, I have to advise you that at present there are no Indian children, for whom the Indian Department is responsible, attending school in Mattawa.

The only family on the Nipissing list with children of an age to attend school are the Michel Antoinet, No. 122, living in Mattawan Township, and they do not go to school. Moreover, under the 18 months regulation, the Department does not assume responsibility in any way for this family as they are living in organized territory.

Will you kindly advise me if I should still advise the Mattawa School Board of the grant.

Dear Sir:

I desire to refer to your letter of August 24 and my reply of August 27 in connection with the grant which has been made for several years to the Mattawa Separate School.

The September return of this school has just been received and I am enclosing it with this letter. Please indicate the children who are recognized as Indians. From the information contained in your letter of August 24 I presume that none of the children shown on the return reside on an Indian reserve but that all of them have for some years been squatting on land in the vicinity of Mattawa. In view of the fact that this grant has been allowed for several years it may be difficult to discontinue it immediately.

Sturgeon Falls, October 22nd, 1940

Dear Sir;

In reply to your letter of October 16th with reference to attached September return from Mattawa Separate School, I have to advise you that there is only one recognized Indian child on this list.

Sister Jean Wilford

Doris Antoine, Aged 8 years, daughter of Michel Antoine, No. 122, Nipissing Robinson Treaty list. This family live in Mattawan Township and Doris should be attending the Township school. Although relief was paid to this family for years, the Department discontinued all relief to them last May and they were the responsibility of the Township of Mattawan. Since that time, the father, Michel Antoine has joined the veteran's Home Guards.

None of the rest of the children on this list are the responsibility of Mattawa on account of the 18 months regulation, because they are not recognized as Indian.

Yours truly,

J. A. Marleau

Dear Madam:

I have recently reviewed the September quarter return showing the names of children who are presumed to be Indians and are attending the Mattawa Separate School. This list has been carefully reviewed and it is found that only Doris Antoine is a member of a recognized Indian band. The other names mentioned on the return are not recognized as Indians by this Department.

Very definite regulations have recently been made which only permit our allowing payment for recognized Indian children. Under these circumstances it will be necessary to discontinue the grant to the Mattawa Separate School. However, in order that you may have sufficient time to make any plans which you consider necessary we will continue to pay the usual grant until June 30, 1941.

Yours truly,

R.A. Hoey,
Supt. of Welfare & Training.

At a meeting of the Sep. Sch. Board held here to-night the following resolution was passed:

"Moved by Geo. Laporte and seconded by Dr. McFarlane, that the Secretary write Mr. L.A. McLeod M.P. asking him to try to secure an increase in the annual Indian grant for our school."

I may say that we have been receiving a grant of \$100 per annum, but as we understand that the grant is being materially increased in many other places, the trustees feel that something additional might be allotted to Mattawa.

Mrs. Catherine Bernard, of Mattawa, called at the Department to-day, and claims that she left Oka about fifty-two years ago and that she has taken charge of four grandchildren, whose father died a couple of years ago. These four children's ages range from 10 to 18. The oldest of the four provides for himself, and the grandmother looks after the three others.

There are four younger children in the family, whose ages range from 3 to 8 years; they are with their mother - her daughter - who scrubs for a living.

Mrs. Bernard would like if we could put some of these children in the Wikwemikong boarding school. *I grant her some assistance & enable her to support them under her care*
Possibly we had better write the H. B. Co's officer at Mattawa and verify the facts.

Rev. Sir,-

Mrs. Catherine Bernard, of Mattawa, called at the Department to-day in company with her daughter and asked that her grandchildren be taken care of by the Department. There are four children of her son and four of her daughter, who is a widow. The oldest boy, who is eighteen, is able to provide for himself, but the remaining seven require assistance from the Department, so she states.

*Lab

As we have no knowledge of the facts, I should be glad if you would be good enough to state the circumstances. One boy is said to be a cripple and he is attending the Mattawa school, while the others are all under fourteen years of age. The Department would also like to know whether provision could be made for four of the children by the Sisters of Mattawa, if necessary, on their being paid for their maintenance and on what terms.

The Rev. Father Laniel, who also was at the Department to-day, has promised to speak to you on this subject.

MATTAWA, Ont. *July 1st* 1907N^o 154234/1, June 29, 1907To the Secretary of the Dept of Indian Affairs, *Attawa,**School*

Dear Sir,

The statement made at your Dept. by Mrs Catherine Bernard, as to her grandchildren, is correct. The Sisters of Mattawa are at the head of a hospital and no accommodation could be found here for young children. In my opinion St Patrick's Orphan's Home, or an industrial school would be the right place for the grandchildren of the old lady. Perhaps the four children of the widow of W. Leyros, who are all under ten years of age are too young yet for an industrial school, and the Orphan's home is the only place that would suit them. These four and the boy who is a cripple are the only ones, I think, that would need assistance from the Indian Dept.

Hoping, dear Sir, you will find this information sufficient to act upon.

Indian children in question for the usual sum
given by the Dept: \$60 for each child, but this will
not include any medical attendance, medicine or

The Deputy Superintendent General,-

At the end of June, last, Mrs. Catherine Bernard called at the Department to see if some of her grandchildren, whose fathers are dead, could be placed in an industrial or boarding school.

There are four young children whose ages run from three to eight years. They are too young to be placed in Wikwemikong, and there is no other school available. Rev. Father Neales, of Mattawa, was asked for a report regarding these children and he corroborates the grandmother's statement and hopes that the Department will be able to provide for them.

I called at St. Patrick's Orphanage and asked on what terms they would receive them. The Sister Superior wrote stating that they had no vacancies. I also called at St. Joseph's Orphanage and asked the same question and a reply has been received from the Sister Superior of that institution, stating that they will take them for the usual per capita grant allowed boarding schools in Ontario. If funds could be spared I know of no more suitable home for these children. They have some 200 children of about the same ages, who are well looked after and have every comfort and care that an institution of this kind can afford.

Madam,-

I have to acknowledge the receipt of your letter of August 30, last, stating that you will receive the ~~three~~ Indian children from Mattawa, about whom you were written to on the 27th of that month, at the rate of \$60.00 each per annum.

In reply I beg to say that the Department will accept your offer, and the Rev. Father Nelles, of Mattawa, will be requested to have these children sent to you at once.

Payment will be made quarterly, on receipt of a certificate from you that they are in attendance.

The Deputy Superintendent General,-

In reply to your memorandum of the 13th inst. I beg to say that in November, 1874, the Rev. Father peitiras, Missionary at Mattawa, applied for a grant to assist the new school he had established there, stating that there were about thirty Indian families in the neighborhood, with fifty children of school age. The department agreed to contribute \$100 a year after July 1, 1875, and ~~as~~ has paid the grant ever since then. The grant was increased to \$200 from January 1, 1907, in view of the large attendance at the school, and this is the rate at which it is Paid now.

The attendance at this school has always been very regular and shows an average of over 35 for the past three years, while December quarter had an enrolment of 36 with an average of 29.

Mr. Agent Cockburn, who visited this school on January 13, last, reported that the reister sh^owed an attendance of 36 and there were 32 present the day he visited the school. His report is turned out herewith, and shows that the school is doing good work.

Indian Department,
Dear Sirs, Ottawa,

I am a member of Separate School Board of Mattawa, Ont I am writing you in an effort to secure an increase in the grant from the Indian Dept. for our School here.

At the present we have nearly three hundred children in our School. Many of those Indians and a great number of them half-breeds, very difficult to say whether they are half-breeds or not. We are educating these children for almost nothing since it costs us about \$30 per child each year. We have not the taxes from the public utilities. In many cases the Indians are not paying taxes, merely squatting. These are facts and for the confirmation of the above I refer you to Mr. George Coburn, Indian Agent at Sturgeon Falls. He knows the work is being done here ^{by us} as he was here a week ago.

Trusting this appeal will receive your consideration and a satisfactory response I remain

I beg to report that I visited the school yesterday and report that the school register shows an attendance of 56 children of this number there are 12 considered Indians the balance being half-breeds,

the parents of the Indian children reside adjacent to the town limits in the township of Papineau and do not pay taxes, the majority of the half breed families reside in the town of Mattawa are assessed and pay taxes to the school,

during the summer months a small number of Indian families reside in tents adjacent to the town when their children attend school, the Rev Father Hegan states that the Department should pay for the salary of a teacher namely \$800.00 per annum, in view of the conditions I beg to recommend that the grant be increased \$100.00 per annum,

I have to acknowledge receipt of your letter of the 3rd instant, with reference to the request of the Rev. Father Hogan for an increase in the grant, paid by this Department for the tuition of the Indian children who attend the Mattawa Separate School.

In reply I beg to say that the Department is under no obligation for the education of the half-breed children. We note that the majority of the half-breed families reside in the town of Mattawa and are assessed and pay school taxes. As there are only 12 bona fide Indian children who attend regularly, and in view of the excellent reports received, regarding the work of this school, the Department will allow an increase of \$100 per annum in the grant, from the first of September, last, the beginning of the present school year. This will make the grant allowed from that date at the rate of \$350 per annum, which is considered ample remuneration for the number of Indian children who attend. I shall be pleased if you will inform the Rev. Father Hogan and the school authorities accordingly.

In preparing the quarterly returns, only the names of the bona fide Indian children who attend should be included and no half-breed children should be mentioned.

Dear Sir;

With reference to your letter of August 21st, concerning grant to Mattawa Combined School, I have to advise you that at present there are no Indian children, for whom the Indian Department is responsible, attending school in Mattawa.

The only family on the Nipissing list with children of an age to attend school are the Michel Antoinnes, No. 122, living in Mattawan Township, and they do not go to school. Moreover, under the 18 months regulation, the Department does not assume responsibility in any way for this family as they are living in organized territory.

I desire to refer to your letter of August 24 and my reply of August 27 in connection with the grant which has been made for several years to the Mattawa Separate School.

The September return of this school has just been received and I am enclosing it with this letter. Please indicate the children who are recognized as Indians. From the information contained in your letter of August 24 I presume that none of the children shown on the return reside on an Indian reserve but that all of them have for some years been squatting on land in the vicinity of Mattawa. In view of the fact that this grant has been allowed for several years it may be difficult to discontinue it immediately.

Yours truly,

R.A. Hoey,
Supt. of Welfare & Training.

Sturgeon Falls, October 22nd, 1940

Dear Sir;

Sister Jean Wilford
In reply to your letter of October 16th with reference to attached September return from Mattawa Separate School, I have to advise you that there is only one recognized Indian child on this list.

Doris Antoine, Aged 8 years, daughter of Michel Antoine, No. 122, Nipissing Robinson Treaty list. This family live in Mattawan Township and Doris should be attending the Township school. Although relief was paid to this family for years, the Department discontinued all relief to them last May and they were the responsibility of the Township of Mattawan. Since that time, the father, Michel Antoine has joined the veteran's Home Guards.

None of the rest of the children on this list are the responsibility of Mattawa on account of the 18 months regulation, because they are not recognized as Indian.

Yours truly,

J. A. Marleau

Dear Madam:

I have recently reviewed the September quarter return showing the names of children who are presumed to be Indians and are attending the Mattawa Separate School. This list has been carefully reviewed and it is found that only Doris Antoine is a member of a recognized Indian band. The other names mentioned on the return are not recognized as Indians by this Department.

Very definite regulations have recently been made which only permit our allowing payment for recognized Indian children. Under these circumstances it will be necessary to discontinue the grant to the Mattawa Separate School. However, in order that you may have sufficient time to make any plans which you consider necessary we will continue to pay the usual grant until June 30, 1941.

Yours truly,

Memorandum: Mr. Benson, -

Mrs. Catherine Bernard, of Mattawa, called at the Department to-day, and claims that she left Oka about fifty-two years ago and that she has taken charge of four grandchildren, whose father died a couple of years ago. These four children's ages range from 10 to 18. The oldest of the four provides for himself, and the grandmother looks after the three others.

There are four younger children in the family, whose ages range from 3 to 8 years; they are with their mother - her daughter - who scrubs for a living.

Mrs. Bernard would like if we could put some of these children in the Wikwemikong boarding school. *& grant her some assistance to enable her to support them under her care*
Possibly we had better write the H. B. Col's officer at Mattawa and verify the facts.

Rev. Sir,-

Mrs. Catherine Bernard, of Mattawa, called at the Department to-day in company with her daughter and asked that her grandchildren be taken care of by the Department. There are four children of her son and four of her daughter, who is a widow. The oldest boy, who is eighteen, is able to provide for himself, but the remaining seven require assistance from the Department, so she states.

*for

As we have no knowledge of the facts, I should be glad if you would be good enough to state the circumstances. One boy is said to be a cripple and he is attending the Mattawa school, while the others are all under fourteen years of age. The Department would also like to know whether provision could be made for four of the children by the Sisters of Mattawa, if necessary, on their being paid for their maintenance and on what terms.

The Rev. Father Laniel, who also was at the Department to-day, has promised to speak to you on this subject.

To the Secretary of the Dept of Indian Affairs, Ottawa,

School

Dear Sir,

The statement made at your Dept. by Mrs Catherine Bernard, as to her grandchildren, is correct. The Sisters of Mattawa are at the head of a hospital and no accommodation could be found here for young children. In my opinion St Patrick's Orphan's Home, or an industrial school would be the right place for the grandchildren of the old lady. Perhaps the four children of the widow of W. Legros, who are all under ten years of age are too young yet for an industrial school, and the Orphan's home is the only place that would suit them. These four and the boy who is a cripple are the only ones, I think, that would need assistance from the Indian Dept.

Hoping, dear Sir, you will find this information sufficient to act upon.

I am

yours respectfully

Madam,-

At the suggestion of the Rev. Father Helles, of Mattawa, I should be glad to know whether your institution would be willing to receive three Indian children, two girls and one boy, whose father is dead and the mother in destitute circumstances. Their ages range from five to eight years.

The Department is anxious to obtain a suitable home for these children, and would like to know upon what terms you would receive them.

Dear Sir:

In replying to your letter No. 154234/1, of August 27, I desire to say; we will, for the scholastic year beginning Sept. 1907, accept the Indian children in question for the usual sum given by the Dept. \$60 for each child, but this will not include any medical attendance, medicine or travelling expenses to have the children brought to Ottawa. We would also ask a contribution towards their clothing and school books.

The Deputy Superintendent General,-

At the end of June, last, Mrs. Catherine Bernard called at the Department to see if some of her grandchildren, whose fathers are dead, could be placed in an industrial or boarding school.

There are four young children whose ages run from three to eight years. They are too young to be placed in Wikwemikong, and there is no other school available. Rev. Father Neiles, of Mattawa, was asked for a report regarding these children and he corroborates the grandmother's statement and hopes that the Department will be able to provide for them.

I called at St. Patrick's Orphanage and asked on what terms they would receive them. The Sister Superior wrote stating that they had no vacancies. I also called at St. Joseph's Orphanage and asked the same question and a reply has been received from the Sister Superior of that institution, stating that they will take them for the usual per capita grant allowed boarding schools in Ontario. If funds could be spared I know of no more suitable home for these children. They have some 200 children of about the same ages, who are well looked after and have every comfort and care that an institution of this kind can afford.

I beg to acknowledge receipt of your letter in reference to the Mattawa Separate School. I have been to the school and found 32 half-breed children present and the school register shows a total attendance of 36. The parents of these children are half-breeds who live mostly in the town of Mattawa and their occupations are chiefly acting as guided river-drivers and working in the adjacent lumber camps. A number of these children are illegitimate and I find they are taken care of by the Sisters in charge of the school. I also beg to report that 6 of the families pay a total amount of \$40 in taxes considering the attendance at this school. I think the Board are showing good results in return for the annual grant of \$200.00 which is made to the Institution by the Department.

The Deputy Superintendent General,-

In reply to your memorandum of the 13th inst. I beg to say that in November, 1874, the Rev. Father poitiras, Missionary at Mattawa, applied for a grant to assist the new school he had established there, stating that there were about thirty Indian families in the neighborhood, with fifty children of school age. The department agreed to contribute \$100 a year after July 1, 1875, and ~~xx~~ has paid the grant ever since then. The grant was increased to \$300 from January 1, 1907, in view of the large attendance at the school, and this is the rate at which it is Paid now.

The attendance at this school has always been very regular and shows an average of over 25 for the past three years, while December quarter had an enrolment of 36 with an average of 29.

Mr. Agent Cockburn, who visited this school on January 13, last, reported that the reister sh^owed an attendance of 36 and there were 32 present the day he visited the school. His report is turned out herewith, and shows that the school is doing good work.

Indian Department,
Dear Sirs, Ottawa,

I am a member of Separate School Board of Mattawa, Ont. I am writing you in an effort to secure an increase in the grant from the Indian Dept. for our School here.

At the present we have nearly three hundred children in our School. Many of these Indians and a great number of them half-breeds, very difficult to say whether they are half-breeds or not. We are educating these children for almost nothing since it costs us about \$30 per child each year. We have not the taxes from the public utilities. In many cases the Indians are not paying taxes, merely squatting. These are facts and for the confirmation of the above I refer you to Mr. George Coburn, Indian Agent at Sturgeon Falls. He knows the work is being done here ^{by us} as he was here a week ago.

Trusting this appeal will receive your consideration and a satisfactory response. I remain

I beg to report that I visited the school yesterday and report that the school register shows an attendance of 56 children of this number there are 12 considered Indians the balance being half-breeds.

the parents of the Indian children reside adjacent to the town limits in the township of Papineau and do not pay taxes, the majority of the half breed families reside in the town of Mattawa are assessed and pay taxes to the school.

during the summer months a small number of Indian families reside in tents adjacent to the town when their children attend school, the Rev Father Hegan states that the Department should pay for the salary of a teacher namely \$800.00 per annum, in view of the conditions I beg to recommend that the grant be increased \$100.00 per annum.

I have to acknowledge receipt of your letter of the 3rd instant, with reference to the request of the Rev. Father Hogan for an increase in the grant, paid by this Department for the tuition of the Indian children who attend the Mattawa Separate School.

In reply I beg to say that the Department is under no obligation for the education of the half-breed children. We note that the majority of the half-breed families reside in the town of Mattawa and are assessed and pay school taxes. As there are only 12 bona fide Indian children who attend regularly, and in view of the excellent reports received, regarding the work of this school, the Department will allow an increase of \$100 per annum in the grant, from the first of September, last, the beginning of the present school year. This will make the grant allowed from that date at the rate of \$350 per annum, which is considered ample remuneration for the number of Indian children who attend. I shall be pleased if you will inform the Rev. Father Hogan and the school authorities accordingly.

In preparing the quarterly returns, only the names of the bona fide Indian children who attend should be included and no half-breed children should be mentioned.

When I was in the Nipissing agency in May, I enquired if our grant of \$350.00 was sufficient towards the cost of the Mattawa combined White and Indian Day School. Mr. Cockburn informed me that there were really only 4 or 5 families of Treaty Indians and that this grant was sufficient.

Sturgeon Falls, August 24th, 1940

Dear Sir;

With reference to your letter of August 21st, concerning grant to Mattawa Combined School, I have to advise you that at present there are no Indian children, for whom the Indian Department is responsible, attending school in Mattawa.

The only family on the Nipissing list with children of an age to attend school are the Michel Antoinnes, No. 122, living in Mattawan Township, and they do not go to school. Moreover, under the 18 months regulation, the Department does not assume responsibility in any way for this family as they are living in organized territory.

Will you kindly advise me if I should still advise the Mattawa School Board of the grant.

Yours truly,

Dear Sir:

I desire to refer to your letter of August 24 and my reply of August 27 in connection with the grant which has been made for several years to the Mattawa Separate School.

The September return of this school has just been received and I am enclosing it with this letter. Please indicate the children who are recognized as Indians. From the information contained in your letter of August 24 I presume that none of the children shown on the return reside on an Indian reserve but that all of them have for some years been squatting on land in the vicinity of Mattawa. In view of the fact that this grant has been allowed for several years it may be difficult to discontinue it immediately.

Yours truly,

R.A. Hoey,

Sturgeon Falls, October 22nd, 1940

Dear Sir;

Sister Jean Wilford
In reply to your letter of October 16th with reference to attached September return from Mattawa Separate School, I have to advise you that there is only one recognized Indian child on this list.

Doris Antoine, Aged 8 years, daughter of Michel Antoine, No. 122, Nipissing Robinson Treaty list. This family live in Mattawan Township and Doris should be attending the Township school. Although relief was paid to this family for years, the Department discontinued all relief to them last May and they were the responsibility of the Township of Mattawan. Since that time, the father, Michel Antoine has joined the veteran's Home Guards.

None of the rest of the children on this list are the responsibility of Mattawa on account of the 18 months regulation, because they are not recognized as Indian.

Yours truly,

Dear Madam:

I have recently reviewed the September quarter return showing the names of children who are presumed to be Indians and are attending the Mattawa Separate School. This list has been carefully reviewed and it is found that only Doris Antoine is a member of a recognized Indian band. The other names mentioned on the return are not recognized as Indians by this Department.

Very definite regulations have recently been made which only permit our allowing payment for recognized Indian children. Under these circumstances it will be necessary to discontinue the grant to the Mattawa Separate School. However, in order that you may have sufficient time to make any plans which you consider necessary we will continue to pay the usual grant until June 30, 1941.

Yours truly,

Sir

The Sisters Teaching the Indian day school on the Fort William Reserve asks to have the water closet that was moved last fall from the Village School ^{house}, that was done away with; into their present day school ^{yard} for the Boys, was placed on the ground without any hole being dug consequently filled up, and requires the building to be raised up on blocks and a hole dug 6 x 8 feet and ~~about~~ 4 feet deep and banded around it, to keep the earth from caving in - this work I can get done for ten dollars by Moses Mc Kay and Service Deschamps the two Councillors of the Band (who will do it properly) for ten dollars and will ^{also} furnish the lumber to line it with ~~also~~ in this \$10⁰⁰ - is a case of necessity and requires to be done soon - the ground is not frozen much, as there is so much snow this winter and can be done for this price

Sir,

Mr Inspector Prendergast in his report on the Fort William day school calls attention to the lack of accommodation the present building affords, which he says is old and not in good repair. He also says that the room for the lowest pupils is too small for the attendance.

The Department would like you to report on this matter suggesting any improvements you think might be made. It is understood that the day and boarding school pupils are taught as a graded school in the one building.

Regarding the Port William day school, I beg to report that the building is not large enough for the present attendance, and is also in a very bad state of repairs, in conversation with a number of the head men who had examined the building it was considered that it would be necessary to erect a larger structure, it was thought the necessary repairs to the old building and an addition to give the necessary extra space would occasion an outlay so great that it would be more advisable to erect a new one, this is also my opinion.

The day and boarding school pupils are taught as a graded school in the same building.

Sir:-

I have to acknowledge the receipt of your letter of 15th instant, with further reference to the condition of the Port William Day School building, in which you state that in conversation with the headmen of the band who have examined the building, it was considered that it would be necessary to erect a larger structure as the repairs and enlargement of the old building would cost almost as much as to put up a new one.

Howe A communication on the subject has ^{also} been received upon the subject from Chief Joseph McCoy. As the Indians are so anxious to have a new school the Department would like to know whether they would be willing to have the amount necessary taken from the capital funds of the band for this purpose. As no estimate has been furnished with regard to the probable cost of repairs or of the new building but in submitting the question to the Band, it would be well for you to ask them to consent to a sum sufficient to put up a modern structure suitable for the requirements of the Day and Boarding School pupils.

As the season for building is growing late I would be glad if you will attend to this matter at once.

At a meeting of the Port William Band called for the purpose of considering the advisability of repairing the old school building or erecting a new one the enclosed resolution was passed.

I have made a rough sketch of what was thought would be acceptable and enclose it herewith so that plans can be drawn, or probably the Department can furnish something better; it is the desire to have the building of wood on a stone foundation and heated by a furnace burning wood, the meeting had no idea of the probable cost of proposed building but were willing to have it erected and paid for from their funds, and would like the work performed as soon as possible, if plans and specifications can be furnished by the Department at an early date there will be some possibility of completing the work this fall.

MEMORANDUM.

Ottawa, 20th October, 1902-

To the Asst. Secretary-

A School building erected in accordance with the sketch forwarded with Agent Hodder's letter of the 14th Instant, would be expensive and unsightly. It would also be difficult and expensive to keep it warm. I think it altogether objectionable, and would advise that it be not approved.

A two story building giving the same space, could have a very pleasing outward appearance, and be commodiously arranged inside. The cost of erection would be at least one fifth less, and the heating arrangement would involve less immediate and future expense. The cost of such a building should not exceed \$2600.00. That is to say, it is to be a frame building erected on a stone foundation.

It is proposed that the building should be heated with a wood furnace. This involves the construction of a furnace pit, and necessarily a drain therefrom. The point should be settled whether the site on which the building is to be erected is a favourable one for the construction of a drain.

In the event of it being so, I would recommend that as the extra cost would not be very great (less than \$200.00) that the entire basement be excavated. This will add to the warmth of the building, a room for the storage of wood, and a play room for the boys, besides

the necessary furnace room.

With regard to preparing Plans and Specifications I beg to state that I would be glad to prepare them in my Office, as we have occasionally done heretofore, but we have so much work on hand that we positively cannot undertake this, without dropping other work equally urgent.

In addition to the foregoing, an Architect residing at or near the place, would be more competent because better locally informed, to draw up the Plans and Specifications for a suitable building. In any case, if the Plans and Specifications were made here, it would be desirable to employ a local Architect to oversee the work. I therefore beg to recommend that a local Architect be employed to get up the necessary Plans and Specifications, and to superintend the work.

EXD

Ottawa, 21st October, 1902.

Sir:-

I have to acknowledge the receipt of your letter of the 14th inst., inclosing a resolution of the Port William Band consenting to funds being taken from their capital for the erection of a new school-house, together with a rough sketch of such a building as the Band desire to have put up; and in reply I beg to inform you that before the Department can obtain the necessary authority from His Excellency the Governor General in Council it will require to be furnished with an approximate estimate of the cost of the proposed new school, as a specific amount has to be included in the memorandum that is prepared for Council.

In order that you may arrive at the probable cost of a suitable building you may consult the local builder as to the amount which it would be necessary to provide.

In regard to the sketch furnished, the Department considers that a two-storey building would be more economical and would suit the requirements better than one of the dimensions furnished, for the reason that it would be more easily heated and would separate the class-rooms to better advantage.

I have seen all the principal builders and they say that there is no possibility of their undertaking any more work this fall, the building of Elevators in the two Towns and great number of houses under construction has put them behind in their contracts, it not being possible to secure sufficient labor, they would also like to see a plan before making a figure.

To give the Indians all the benefit possible from the building of the school house I think it would be advisable to have it constructed of stone, which could be taken out this winter, thus giving them employment for some time when they have little chance to get employment, the cost I am informed would be nearly equal, if the Department has not plans under way they could be made out here by a competent Architect who would oversee the construction of the building, and every thing could be arranged to make an early start next spring.

Sir,

I have to acknowledge the receipt of your letter of the 25th ulto. with reference to the proposed erection of a new schoolhouse on the Fort William reserve; and in reply I beg to say that as you were previously advised, it will be necessary for the Department to have a rough estimate of the probable cost of the building the Band wish to have put up, as a definite sum must be stated in the memorandum submitted to Council. As soon as this information is received, the Department will be in a position deal with your suggestion that the Indians should be allowed to take out stone during the winter for the building. The Department would like to know how much a tonne the stone would cost laid down at the site, as well as what a local architect would likely charge for preparing the plans and superintending the work of construction. The Department has no knowledge of the cost of material in this locality and there should be no difficulty in getting the estimate asked for.

Department of Indian Affairs:-

OTTAWA, 31st December, 1902

The Deputy Superintendent General:-

Re proposed erection of a new schoolhouse
on the Fort William Reserve.

Mr Separate School Inspector Prendergast in his report on the Fort William schools made in May last called the Department's attention to the lack of proper accommodation, stating that the building was old and not in good repair and that the room for the younger pupils was too small for the attendance. He strongly recommended the erection of a new building without delay as it would be poor economy to patch up so unsuitable a building as the old one. (Report on 153815----6 herewith)

In addition to the day pupils on the reserve who are attending this school, the children from the Orphanage are also taught there, all being classified together as a graded school with two teachers. There are about 70 children of school age on the reserve, and 36 in the Orphanage, and of these 72 are enrolled with an average attendance of 47 for last year.

Mr Agent Hodder's attention was called to the Inspector's remarks and he was asked for a report thereon making suggestions as to any improvements he thought might be made. He replied stating that the building is not large enough for the present attendance and is in a very bad state of repair, and that in his opinion it would be advisable to erect a new one. A resolution was passed by the Band for the erection of a modern school building to be paid for

out of their funds. A sketch of the building it was proposed to put up was forwarded, which provided for a one-story structure but no estimate of the cost was given. The Department informed the Agent that it was considered a two-story building would be more suitable and economical and asked him to furnish a rough estimate of the probable cost, as such information was required before a memorandum could be submitted to Council.

The Agent now forwards a resolution of the Band asking that the sum of \$5000.00 be set aside from their funds for a new schoolhouse, which they would prefer to have built of stone.

As the capital funds of the Band are less than \$9000.00 I think it would be well to have a report from the Accountant before submitted the matter to Council as a stone building such as they want would, when finished and properly equipped, leave a very small balance to their credit.

It is some years since I saw the present building when then appeared to be substantial and capable of enlargement. The Mission buildings are all first class stone structures and it is no doubt the desire of the missionary and the Indians to have a school in keeping with them.

In reply to your Memorandum of the 1st instant,
I beg to say that it would be impossible for the Fort William
Band to spend \$5,000.00 from Capital on the erection of a
Day School on the Reserve. Between the 1st July 1900
and the 30th June 1902 the Capital fell from \$10,470.53
to \$8,909.69, the diminution having occurred by reason of
expenditure on roads. The Capital only bears interest at 3%
which gives a revenue of little less than \$300.00. From this
amount the following fixed charges have to be paid:-

Constable.....\$50.00

School Inspec-
tion..... 18.60

Medical a/cs...232.00

\$300.60 This was the expenditure for
last year. The account receives some assistance from liquor

to meet current charges.

OTTAWA, 26th July, 1904:-

The Deputy Superintendent General:-

Mr Agent Bonin, in his report on the Ft. William day school, says that the building is in very poor condition, it being small, old and in his estimation, not worth repairing.

The question of supplying a new school for this reserve was under consideration last year, when was decided that the funds of the Band would not stand the expense of erecting a new schoolhouse as elaborate as the one proposed which would cost in the neighborhood of \$5000.00 and was to be built of stone. The capital funds of the Band only amount to about \$9000.00. Mr Hodder, the last Agent, was asked for an estimate of the cost of putting the building into a serviceable condition, but he made no report and nothing has been done since. It might be well to ask the Agent to furnish an estimate for a less expensive building constructed of wood.

Sir,

With regard to your remarks in your last month's report on the Ft. William day school, that the building is in very poor condition and not worth repairing, I beg to say that the question of supplying a new building for this reserve was under consideration last year, when it was decided that the funds of the Band could not stand the expense of a stone building. The last Agent was asked for an estimate of the cost of putting the present building into a suitable state of repair, but he made no report. As you are of opinion that the old building is not worth repairing, the Department would like to be furnished with an estimate of wooden building which would accommodate the pupils.

Schools
Memorandum :-

At the conclusion of the annuity payments at Fort William I visited the Indian Day School, which, however, was not then in session.

With regard to the school building I desire to report that it is in a very bad condition. The building is a frame one and the outside boards are so rotten in many places that they will not hold together. The foundation also has given way so that the building has sunk and in consequence there are large openings at the tops of the doors which must let in a great deal of cold in winter. The floors too are badly worn, and, in fact, the whole building is, in my opinion, unfit for use as a school.

In addition to the fact that the building is in such a bad state of repair I have also to say that it is altogether too small to accommodate the number of pupils, between 70 and 80, who attend.

The seats are so close together that it must be very uncomfortable for the children to sit in them. The box-stove also which is used to heat the building almost fills up the width of the hall and must add to the discomfort of the pupils whose seats are in its vicinity.

Sir,

The estimate given me by contractor Hamer of this town
on a two story ^{building} at the Fort William Mission as follows;

Wooden Building 30 by 30 with stone foundation , 7feet
Basement, Furnace , Hard-Wood Flooring, one class room
on each floor \$2650.00

Wooden Building 30 by 30 with no basement and no stone
foundation \$2000.00

I think that if I were to ball for Tenders the building
might be built at a little less cost than this estimate.

With regard to the building of this school there is
considerable dissatisfaction that exists among the members
of the Band; They say that a good number of the children
who attend the school are children from other bands, and
that if the building is built it should be paid not all
out of their funds. They even go so far as to say
that rather than have it built all out of their fund,
they would rather not have it built at all.

The Deputy Superintendent General:-

The day school building on the Ft William reserve is in very bad condition and from reports received from the Agent, the Inspector and Mr Stewart of this Department (who was lately there) it would appear that a new building is absolutely necessary.

The Ft. William Band two years ago wished to expend the sum of \$5000.00 out of their capital funds for the purpose of providing a new schoolhouse. The Accountant pointed out in his memo. of 5th Jan. 1903, that their capital would not stand this outlay as they had only about \$9,000.00 to their credit, which produced a revenue of a little less than \$300.00

Mr Agent Bonin who was lately asked to furnish an estimate for a new wooden building, instead of one of stone, and he states that, with a stone foundation and suitable basement, it would cost \$2,650.00 and without a basement \$2,000.00. He says that the Indians are now not satisfied to take even this amount from their capital, claiming that a number of the children who attend this school come from other Bands.

There is no doubt that a new schoolhouse is required. The children in the Orphanage all attend this school which has also to provide for the day pupils on the reserve and it is just a question of how much the band should be asked to contribute.. I

would certainly recommend that the building have a basement and stone foundation. Mr. Scott informs me that the Band is not in a position to contribute anything and that the money will have to be voted. This will entail a delay of a year at least.

The Fort William Orphanage is a very useful institution, and is the only Roman Catholic School between Rat Portage and Wikwimikong, while the Indians between these points are Roman Catholic with a few exceptions.

Hon. C. Sifton M.P.

Sir

As I have lately visited the School house on the Indian Reserve at Port William, Ontario, I desire to place before you a few facts to show the necessity of providing a new building. The present building, which is of wood, is so long built and the sills and joists are so decayed that it would be too costly to repair it. There are only two rooms, one of which is 20' x 20'-6" and into that space are crowded from fifty three to sixty junior pupils. The other room is 20' x 23', and there is usually in it from thirty to thirty eight senior pupils. Last winter there was an epidemic of typhoid fever amongst the children, so much so that the Sisters were obliged to close the school and send the boarders home to their parents. Considering the unsanitary condition & the size of the school rooms I am not surprised that sickness prevailed and I fear it may happen again notwithstanding the precautions adopted by the Sisters. Trusting that you will be pleased to order the erection of a new School house

I remain yours truly

At the time that Mr Keefer was acting for the Indians, The Chief of the Fort William Band was into Mr Keefer's Office and asked Mr Keefer to get authority from the Indian Agent to have the work done. Mr Keefer ordered the work and intended getting authority immediately but overlooked it.

REPORT OF INSPECTOR FINN# ON THE MATTAWA SCHOOL.

The accomodations,- Very good except for water closets and heating. The heating of the north rooms is defective. The Board has been advised to install a suitable system of water closets. If the Department would withhold the grant for a time it would assist me in getting a new closet system put in the school. The outdoor closets will never be satisfactory. Water under pressure can be quite easily secured as it is already in the hospital and church.

Date of Inspection,-NOVEMBER 14th and 15th.

In a recent report on the Mattawa school, Inspector Finn states that new closets are required and that he has advised having a suitable system of closets installed.

The Department agrees with Inspector Finn that suitable closets are absolutely necessary at any school, and it is hoped that the School Board will have such installed at an early date.

Schools

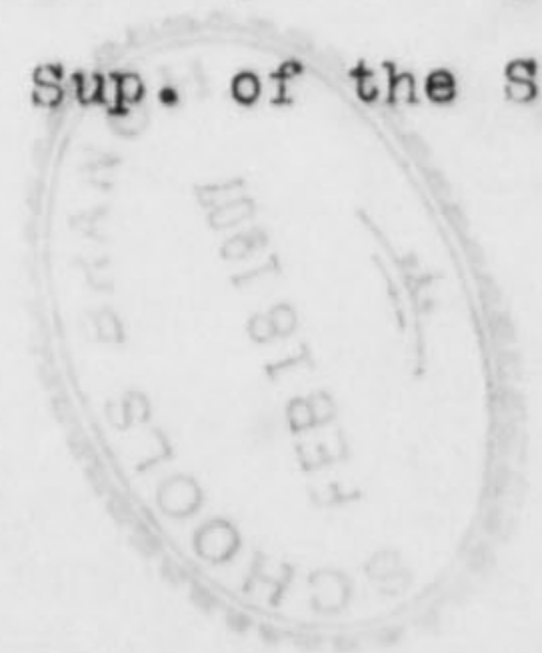

Dear Sir : -

x x x x

Another point that requires the attention of the Dept. is the building of the new schools, one for the Indians at Squaw Bay and another one, I suppose, will be provided for the Indians established at the Mountain. The school at Squaw Bay should be large enough to accommodate the pupils of the Boarding School as it now exists. \$500.00 was the evaluation placed on the present school building, if I remember well. Price of lumber is going up all the time, and we expect that there will be a great jump in March as the building prospect is very great, and lumber very scarce. Just now there is only the Pigeon River Lumber Co. in Fort William that can supply lumber in large quantity and deliver at Squaw Bay. They are hauling just now for our residence, church, etc., and soon for the Boarding School.

Sir,-

The Rev. Father Lamarche has written the Department with reference to the establishment of day schools for the Fort William band at Squaw Bay and the Mountain, and he says that a new building will be required at Squaw Bay to accommodate day pupils and the children in attendance at the Orphanage and that one will also be needed at the Mountain for the Indians who are settled there.

The Department would like you to make enquiries with a view to ascertaining what size of school-house would be needed at Squaw Bay and also whether a sufficient number of children of school age will be at the Mountain to justify the Department in putting up a building there. Your report should state the probable number of pupils that would be in attendance at each place. The Department would also like you to obtain prices for the following building material for May delivery, as well as the cost of labour for the different trades:-

2x4 10 and 12 studding.
 2x6 " " " " and rafters.
 2x8 joists, all lengths.

In further reference to the proposed establishment of day schools for the Fort William band at their new locations I beg to say that, after April 1, next, the beginning of the new fiscal year, the grant now paid to the two teachers at the Fort William Orphanage will cease, and the money now voted for these teachers will be paid to the teachers of the day schools at Squaw Bay and the Mountain when established.

As there is a temporary school in operation at present at Squaw Bay, one teacher's salary only will be paid at Fort William and this will be continued at Squaw Bay, and if a school is established at the Mountain, the other salary will be used to pay a teacher there.

In boarding schools under the per capita grant system no allowance is made for teachers' salaries, and the Department's only reason for continuing the grant is that day pupils are in attendance and it is willing to allow the salary of one teacher for instructing these pupils.

Dear Sir,

I see that the schools to be built at Mission Bay and at the Mountain for the Indians of this Reserve will not be ready for opening at the usual time. Will this delay affect the salary of the teachers.

I had secured the services of one teacher early in June for the Mountain school. She would have accepted another position if she thought that the salary would be less than \$300.00.

I would like to have an answer from the Dept. about the salary before I make any agreement for the Mission Bay school.

The Indians of that place would like to have a man teacher, but we could not get a man teacher for the ordinary salary of \$300.00.

We may obtain, take on, some of the ladies who conduct the Wicksvennikong Girls' school, if the Sisters of Saint Joseph do not decide after all to build at Mission Bay, but I could not say when we could obtain those ladies.

I met Mr. Ogilvie, Architect of the Dept., last week, at Mission Bay and he told me that a separate

Dear Sir:-

I would like to get an answer to that part of my last letter of August ^{the} 12th., inquiring about the salary of the teachers for the new schools to be built very soon, I hope, at Mission Bay and at the Mountain Road for the Indians of those two places. I wanted to know if the salaries of the teachers would be diminished on account of the delay to build the schools. I received an answer but not to the purpose. Early in June I ^{had} retained the services of one teacher for the Mountain school, and she refused an offer of \$300.00 with boarding for the Wikwemikong Girls' school, because she preferred to remain near ~~her~~ sister at Fort William, if the salary was the same, viz: \$300.00. I have to look for another teacher for the Mission Bay and would like to know what salary can be offered for the rest of the year.

I think that it would be hard to obtain a teacher for less than \$300.00, even considering that the first quarter will soon be over.

The Council of the Indian Band on the Mountain road reserve wants your attention towards this letter in regards towards hiring a school teacher for this place. They all agree and are satisfied that Mr Dominico Desharm. should have the position and we all ready have closed the bargain with him that he should have the teaching of the school at the Mountain road. I am sure he would fill the place as he don't do any thing else. And he is leaving his position where he is just because we were sure of giving him sure promise of teaching here. And the Band of this place will be greatly dissatisfied if the Indian Department. Hoping you will favour us and I know with a little help from you we will be sure he will be granted the position. As Mr Desharm is an old resident of this reserve we don't see why he should not be granted the position. Wishing your honor you will give us help and an answer soon as you can. From the Council.

There has been no school at Mission Bay since last spring. Rev. Father Dugas in his letter attached recommends Mr. Jerry Alire as teacher at Mission Bay and that Mrs. Alex. If the Dept. did not wish to open the school at the Mountain till spring I do not see why any of the children could not attend the Mission school which is only half a mile away. Dear Sir,

In a letter addressed to the Indian Agent by you I see that the Department desires to have further information in regard to the qualifications of M^r Perry Alie for the position of school teacher at Mission Bay. First I must say that if I had not known the man to be well qualified for the position I would not have recommended him, for if any one is anxious to have a competent school teacher for the children of this Mission you may be sure that I am very anxious to have a good school teacher if possible.

Now I must say that M^r J. Alie holds no school teacher's certificate, but that he has made a complete commercial course of studies in one of the best schools in Quebec, moreover he has been for two years in the employ of the Canadian Pacific Railway Co as book keeper & otherwise in offices. I beg to say that you may have all the references needed from the following C.P.R. officers: James Caughlin, Roadmaster on Schreiber division, A. G. McCall, Chief accountant

at White River, W. B. Way, Grain master at White River,
 G. S. Kent chief clerk to the Superintendent also at White

Beside these men, who could give recommendations
 as to the capacity of Mr. Alie, I beg to say that I know
 him personally for nearly three years, and from ^{what} I
 can judge I am positive that Mr. Alie is far
 better qualified to fill the position of school teacher
 than any of those who have heretofore been
 appointed by the Department to be teachers in any
 of the Indian schools of the numerous missions
 that I was in charge of for over nine years.

I hope Mr. the secretary that this will be enough to
 induce the Dept. to place Mr. Alie in charge of this school
 notwithstanding what the Indians may have or may write
 contrary to my statement. I humbly think that I am
 a better judge than them in the matter.

I send this letter directly to the Dept. because I am afraid
 the Agent neglects to do so, and I can see by the dates on
 the letter received by him from the Dept. I wrote to him
 first on 25th of January, and I see on your letter that he

Dear Sir

In reply to yours of the 15th inst. just received, I beg to say that I recommended Mr. Jerry Ellis for the position of school teacher at Mission Bay, because I know him personally for nearly three years, moreover I know that he made a good commercial course of studies in one of the best commercial colleges in Quebec. As the man was working for us yet this winter, I tried to induce him to teach school here, for a long time he refused but at last consented to accept the position, it is then that I recommended him because I am very anxious to have the best teacher possible for our school, and I think it would be hard to find anyone better qualified for the position than he is. Mr. J. Ellis has been for two years in the employ of the C.P.R. as book keeper and otherwise in offices. You may have all the references needed from the following offices: James Coughlin, Roadmaster Schreiber, A. G. McCall, Chief accountant at White River, W. B. Way, Train Master, White River, L. E. Kent Chief clerk to the Superintendent White River, and also L. E. Deperre, Agent White River. By these you can see that Mr. Ellis

is well known by people who can judge of his capacity as a scholar, far better than some Indians who may write or have written contrary to my statement.

As to the school at the foot of the Mountain, I do not see any need of opening before the sisters close their own school, but I would like to have Dominic Ducharme appointed for that school so that he could begin to teach as soon as the sisters close their school. No matter what the old Binesi says I am afraid that there will be very few children attending that school, and I say that because experience of nine years has taught me that nearly none of the children now residing at the Mountain have ever attended school, but I am very willing to give them a fair trial and if they want to go to school I will be very, very glad.

Please Mr. the Agent, try to have Mr. Hie appointed for Mission Bay school as soon as possible, ~~at the~~ same time he will continue to teach and I will pay him myself if the Dept. refuses, which I am sure the Dept. will not do.

Mission Bay, Fort William August 8th 1908

M^r McLean Sec
Dept. Indian Affairs.

Dear Sir,

M^r Simique Ducharme has been teaching school on the mountain road for a month by the order of M^r W. McDougall Ind. Agent and from the 14th of June to the 31st of July here at the Bay also with the approval of the Indian Agent. Now the Agent told M^r Ducharme that he could not be paid for his teaching, that seems to me very strange, when the Agent told M^r Ducharme to teach he promised him that he would be paid alright for his teaching. I wish that you would try to do something to have justice done in favor of M^r Ducharme.

On June the 12th M^r McDougall wrote to me that M^r Ducharme could teach here if I wanted him as the Agent did not approve of the school being open on the mountain road. I had M^r Ducharme to teach here at once, and went to Port Arthur to see M^r McDougall, but as usual he was not in his office (I made at least seven trips to Port Arthur to see your Agent and could never find him) I wrote to him about the 20th of June notifying that M^r Ducharme was teaching here, and to please arrange with the Dept. to have him duly appointed

but I never had any answer from him. Mr. Ducharme went several times to see the Agent when he was lucky enough to see him. Mr. McDougall always told him to continue teaching, now the man should be paid by all means.

I wish also to tell the Dept. that the Agent does not seem to care at all about the school buildings here at the Bay and on the mountain road none of those buildings is finished and the chimney in the teachers house here at the Bay is about to fall down, the bricks are all loose at the base in the cellar. Mr. McDougall if he has any interest for the Indians should see that those houses be finished and the chimneys rebuilt at once.

The road from the old mission to here is in a very bad condition, Mr. the Agent does seem to be willing to do anything to finish that road. As you know we will have to move the corps from the old to the new cemetery this fall, and it is pretty near impossible to carry those coffins in a road like the one we have. In the spring the bridges were spoiled by the frost, Mr. McDougall had them repaired at last, and allowed five men to work in the road for 6 days repairing bridges and putting sand over the stones in the road. I wish the Dept. would grant again at least ~~two~~ two or three weeks work to be done in the road before the fall that would enable us to transport the bodies from the old to the new grave-yard without breaking everything and the Dept. would by so doing keep the promise that was made to the Indians that they would have a good road.

Hoping that you will do your best in the interest of our poor Indians, I remain Yours truly
L. N. Dugas S. J.

I beg to enclose herewith, accounts for Teacher's Salary for Mission Bay School, Fort William reserve, for the Quarter ending March 31st last.

The teacher, D. Ducharme is doing very good work at this school, and ought to receive a better salary, as he ^{can} scarcely live at the salary now being paid to him viz: \$300.00 per annum.

In view of the fact that the teacher at Mountain School is receiving \$400.00 per annum it would appear that the teacher at Mission Bay should receive a salary equal to that to enable him to live respectably.

Dear Sir,

Miss Rose Chaput the teacher of Roman
Cat. School at Mission Bay - begs for an
increase of salary - of Fifty Dollars per annum,
for she can hardly make ends meet when her board
and travelling ticket are paid.

The young lady has taken much interest in
her work and devoted herself throughout the year
for her pupils. With a good deal of common sense
she won partly at least the affection of the
children and the confidence of the parents.

It will be very hard to find an other
teacher for mission Bay when she goes. This
mission being so far from town and obliged
to board with the Indians paying as high a fare
as in town for her board.

Sir,--

I have to acknowledge the receipt of your letter of the 1st instant informing the Department that Mrs. Xavier McLaren has applied for the position of teacher of the Mission Bay Indian Day School and recommending that she be engaged.

In reply I beg to say that the Department will consent to the appointment of Mrs. McLaren as teacher of this school, to begin duties on or about the first of September, next, on the re-opening of the school after the summer holidays. She will be paid a salary at the rate of \$500.00 per annum.

It is noted that the Pic School, to which Mrs. McLaren was appointed for the summer months, will not be re-opened, as the Indians will be away from the reserve.

You will be good enough to inform Mrs. McLaren of her appointment, and inform the Department of the date on which she begins duties.

Sir, -

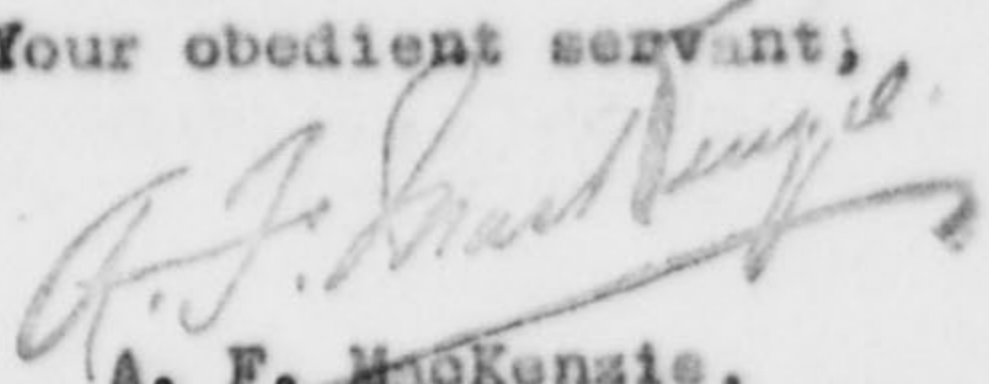

I have to acknowledge the receipt of your letter of the 29th ultimo, enclosing a communication from the Chief of the Fort William Band requesting that the Mountain Road Indian Day School be closed and a school at Mission Bay be opened, for the reason that the larger number of children now reside near the latter school.

In this connection I would point out that the school building at Mission Bay was destroyed by fire this summer, and, no doubt, it would be necessary to make extensive alterations in order to provide sufficient class room accommodation in the teacher's residence; also desks, black-boards, etc., would have to be supplied. The Department cannot approve of the re-opening of a school in the teacher's residence at Mission Bay until full particulars are received as to the accommodation that could be provided, and the cost of fitting up the class room.

The Department would like to receive full particulars regarding the providing of educational facilities for the children at Mountain Road, if it was decided to close that school. You state they could attend a separate school in West Fort providing street railway fares were paid. I may say that this arrangement does not meet with approval, as the Department does not consider it advisable to have children travelling to and fro each day on the street railway. Full particulars should be given before the Department can come to a decision regarding the request submitted by you.

I beg to refer you to your letter of August 2nd, reporting the destruction by fire of the Mission Bay School and stating that you were taking up with the Insurance Company the matter of the collection of the insurance on this building, which amounted to \$1,000. I have to request that you will state when payment of this insurance may be expected.

Sir, -

I have to acknowledge the receipt of your letter of recent date in which you recommend that the Mountain Road Indian Day School be closed at the end of the present school year, viz: June 30th, next, and that a school be opened in the teacher's residence at Mission Bay.

In reply I beg to say that it is considered the teacher's residence at Mission Bay would not be suitable for school purposes. If it were used as a classroom there would be no accommodation for a teacher. Besides, it is considered that it would be necessary to still conduct the school at Mountain Road to provide educational facilities for the children residing on that part of the Reserve. The Department recognizes the need of a school at Mission Bay, as Mr. Bennett, the Separate School Inspector, in a report on his recent inspection of the Mountain Village school stated that there were 20 children at Mission Bay for whom school facilities should be provided.

At the present time we have no funds available for the erection of a new school building at Mission Bay and until such is available, the question of erecting a building and providing educational facilities at this point will have to remain in abeyance.

Sir,-

I have to acknowledge the receipt of your letter of the 15th instant, enclosing a letter from Rev. Father Renaud regarding the re-opening of the day school at Squaw (Mission) Bay.

As you were informed by official letter of the 19th ultimo, the Department recognizes the need of a school at this point but, it is considered that the building at present there would not provide adequate accommodation for both the class-room and teacher's residence.

I would request you to prepare, at once, a pencil sketch of a suitable addition to the building now at Squaw Bay. You should then obtain quotations, shewing the cost of the erection of a suitable building and submit same for the Department's consideration.

Provided that the cost of this new building will not exceed \$1,500.00, we will be prepared to recommend to the minister that a new building be erected this summer.

Kindly give this matter your immediate attention and furnish the information required at as early a date as possible.

I do not consider it necessary or advisable to build a new school there. The present school residence would be suitable for school purposes with very little alteration. There are several vacant houses which might be secured for a residence if necessary.

It should not cost over \$200.00 to fit the present residence for school purposes.

Sir, -

I have to acknowledge the receipt of your letter of the 22nd instant, regarding the re-opening of the day school at Mission Bay.

In reply I beg to say that we have carefully considered your suggestion that the present school residence could, with very little alterations, be made suitable for school purposes, and that a house, at present vacant, could be obtained as a residence for a teacher, if necessary. This arrangement is, no doubt, feasible, and would save the expense involved in the erection of a new school building.

The Department will, therefore, approve of your suggestion to have the present school residence fitted up for classroom purposes, and you may arrange to have the necessary alterations made to the building. The Department will leave this matter in your hands to carry out the alterations which you consider necessary in order to provide sufficient classroom accommodation. The expenditure involved should not exceed your estimate, namely, \$200, and you may arrange with a competent contractor, or the Indians, if they are competent to do the work, to make the necessary alterations.

If any material is required, it will be necessary to obtain competitive prices before the purchase is made, or you may call for tenders, which should include all material and labour, and give the contract to the person quoting you the lowest price.

The accounts, when received, will be paid from the money received for the insurance on the former school building.

This work should be undertaken as soon as possible in order that the building will be ready for occupation after the present summer holidays on or about September 1, next.

As you were informed, the school at Mountain Village is to be closed at the end of the present school year, and the school furniture, desks, etc., should be removed from that school to fit up the school at Mission Bay.

It will be necessary to rent a house as a teacher's residence, and your suggestion that one of the vacant houses be

obtained is approved. You should arrange for the rental of one of these houses as a teacher's residence, and this should be obtained at as low a rental as possible. You should obtain and forward a lease of this house from the 1st of September, next.

In fitting up this residence, the furniture and other supplies should be moved from the residence at present occupied by the teacher at Mountain Village.

The Department hopes that you will be able to complete all arrangements for the re-opening of the school at Mission Bay, and for the necessary alterations to the teacher's residence, and also be able to rent another residence and have it ready for the teacher by the 1st of September, next.

In reply I have to request that you will endeavour to obtain the services of a suitable teacher for this school. It would be advisable for you to consult the resident priest, who may be able to recommend a suitable person. The name, qualifications and experience of any applicant secured should be forwarded immediately for the approval of the Department. If a teacher can be secured, having at least a Second Class Certificate, we would be prepared to provide a higher salary than that mentioned in official letter of June 12th. The salary allowed will depend on the qualifications of the teacher you are able to secure.

Kindly give this matter your prompt attention, in order that a teacher can be obtained in time to re-open the school on or about the 5th of September. It is considered that a woman teacher would be best for this school, as it might be possible for her to get boarding accommodation near the school. If not, quarters will have to be fitted up for her in the building in which it is intended to carry on the school work.

You will also be good enough to see that this building is ready for classroom work in due time. Any supplies, in the way of desks, etc., could be taken from the Mountain School. The Department will rely on you to see that the building is ready in time for classroom purposes and that every effort will be made to obtain a suitable teacher. In reply I beg to say that we have no applications here from which to select a suitable teacher. If Father Renaud is unable to obtain a teacher, it may be necessary for you to advertise in a local paper in Fort William for a qualified teacher.

If a teacher with the necessary qualifications is obtained, the Department will allow salary at the rate of \$600 per annum, plus any bonus provided by law. No. children of school age on Reserve - 30

No. pupils present - 5

I understand that some families intend moving away from here to the Mountain Road Village. The children at this Mission Bay School could easily be made to attend some boarding school.

On analysing the situation I think it would be useless to rebuild a school here. The present upstairs room in the teacher's residence is good enough for the number of children who attend.

Dear Sir

I herewith enclose an application for the indian school at Mission Bay. This application was accompanied by a recommendation from Father Porcheron, stating that Mrs Ladouceur had been teaching 3 years at Garden Village, Kipissing, and 2 years at White Fish. I think that the lady must be qualified to teach at Mission Bay, and therefore I am sending you her name for approbation.

Yours very sincerely

Rev. Sir:

I have to acknowledge receipt of your letter and post card dated the 14th instant, regarding the application made by Mrs. A. Ladouceur for the position as teacher of the Mission Bay Indian Day School.

In reply I beg to say that we have received no intimation that the present teacher, Miss Flanagan, intends to give up duties. We could not approve of the appointment of Mrs. Ladouceur. She taught the Whitefish Lake Indian Day School and, while there, acted in a very strange manner, keeping herself locked in the school and giving no service to the Department or to the Indian Band. It was necessary for us to have our Agent remove her from the school. In view of our experience with her at Whitefish Lake, we consider that she would be entirely unsuitable as teacher in an Indian school.

We are writing Mr. Agent Burk, Port Arthur, and requesting him, if Miss Flanagan gives up her duties, to endeavour to obtain the services of a suitable teacher. I shall be pleased if you will forward any other applications you may have to the Agent.

Your obedient servant,

A. F. MacKenzie,

Sir:

Rev. Father Renaud has forwarded an application for the position as teacher of the Mission Bay Indian Day School, on the Fort William Reserve, for the next school year. We have received no intimation that it is the intention of Miss Flanagan to give up duties. I have to request that you will state, as soon as possible, whether Miss Flanagan intends to resume her duties when the school re-opens after the present summer holidays or not. If she does not, you should endeavour to obtain the services of a teacher having the necessary qualifications to succeed her. It might be well for you to consult the Rev. Father Renaud in the matter. If Miss Flanagan gives up duties, you should obtain her written resignation and forward same to the Department.

This matter should receive your early attention.

I have to acknowledge receipt of your letter of the 9th instant, enclosing the resignation of Miss Kathleen Flanagan as teacher of the Mission Bay Indian Day School, on the Fort William Reserve. In reply I beg to say that the resignation of Miss Flanagan is accepted from the end of July, last.

I have also to acknowledge receipt of the application from Miss C. M. Lavelle for the vacancy caused by Miss Flanagan's resignation, together with a testimonial from the Secretary of the Separate School Board, Fort William. The Department will approve of the appointment of Miss Lavelle, to begin duties October 1st, next. This school is closed during the month of August and September for summer holidays, and Miss Lavelle should arrange to re-open the school on the 1st of October. The salary allowed her will be at the rate of \$600 per annum, supplemented by the bonus provided by law.

Cheques for the amount of salary and bonus due Miss Flanagan for the period she taught during the month of July, last, have been sent to her.

Kindly state whether Miss Lavelle will accept the position as teacher, and if she will be prepared to begin duties on the 1st of October, next.

Sir,

I beg to make application for an increase in the salary of Miss Lavelle, teacher in charge of the Mission Bay Day School, Fort William Reserve.

Miss Lavelle has been on this Reserve for four years and during that time has been a most faithful and successful teacher. Her work includes a great deal of missionary work among the Indians and Saturdays and Sundays are often spent on the Reserve. The school is most isolated in the winter season and she, being the only white person living on the Reserve cannot get into town for weeks at a time.

As I have watched her work with much interest and appreciate her difficulties I take pleasure in applying for this increase in salary.

Recommendation Letter.

Ottawa, June, 29.

Miss Nellie Whelan has been on the staff of St. Joseph's Separate School for the past three years. She came here with a very good recommendation and certainly has lived up to our greatest expectations.

Her deep personal interest in each child has pleased the parents and has resulted in each child making the utmost progress of which he was capable. Her spirit of order and good discipline has been combined with a ready and gentle sympathy for each individual's difficulties. She has been punctual and regular in attendance and ready at any time to do any extra work for the benefit of the School. Certainly it is only doing Miss Whelan justice to say that her work and influence have been of the highest possible order.

Sir:

I beg to acknowledge receipt of your letter of the 15th inst., 9-2-1, regarding an application received from Miss Nellie Whelan of Ottawa, for an appointment as teacher in this Agency, and in reply I beg to advise I have so far been unable to secure a teacher for the Fort William or Gull Bay Schools. Consequently I advertised in the Toronto Globe for teachers.

The Fort William Indian Day School is situated at Squaw Bay, Fort William Reserve, a distance of 4 miles from the City of Fort William.

The school residence is comfortably furnished. The teacher can always arrange, when visiting Port Arthur or Fort William, to come in with one of the Indians who are constantly going in to the City with their automobiles.

The Gull Bay School is situated on the west side of Lake Nipigon, approximately 75 miles from the C. N. R. railway station at Orient Bay. This school will be furnished and equipped by the end of November.

Madam:

With reference to your application of the 9th instant and to your interview yesterday with Mr. Ferrier, I have to inform you that you are appointed teacher of the Mission Bay Indian Day School, near Fort William. Salary at the rate of \$95 per teaching month will be allowed. It is understood that you will leave Ottawa on the C. P. R., early Sunday morning, November 3rd (1.10 A.M.), and will detrain at Port Arthur, reporting to Mr. Indian Agent J. G. Burk, of that city, at 9 o'clock Monday morning, at his office, which is near the railway station.

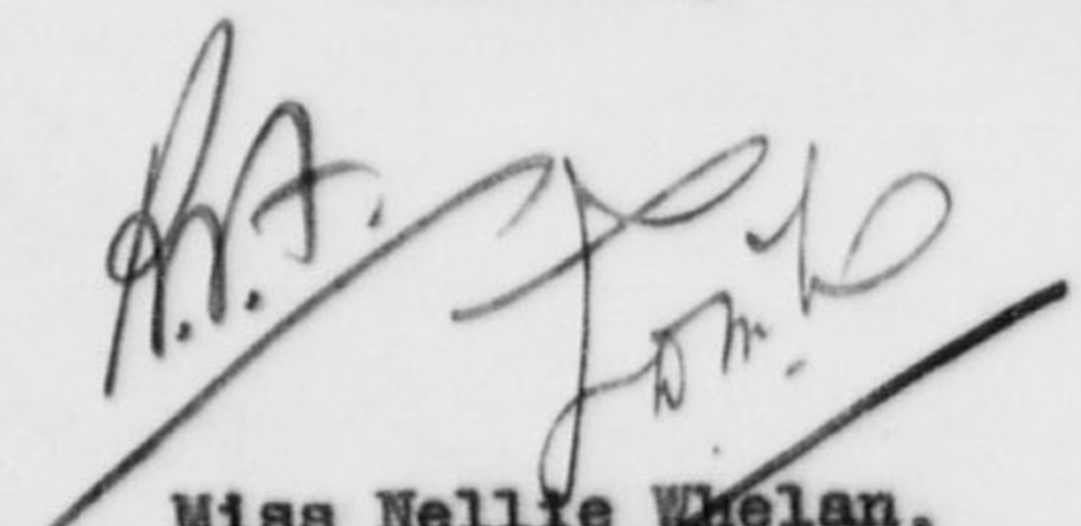

The Mission Bay Indian Day School is controlled entirely by this Department but is inspected semi-annually, at our request, by Separate School Inspector F. J. McDonald. Mr. Burk will draw your attention to the regulations, as contained on the classroom register and the quarterly returns. Anything that you require in your work should be brought to the attention of Mr. Burk, to whom you will look for advice concerning the conduct of the school.

Please acknowledge this letter, accepting the post and confirming the arrangement. Later, before leaving for the West, you should telephone Queen-3000, Local 297, for an appointment with Mr. Ferrier, for the purpose of receiving final instructions.

Sir:

I have your 210-8A of the 19th instant, and, in reply, I wish to inform you that the Department has appointed Miss Nellie Whelan to the position of teacher of the Mission Bay Indian Day School. Miss Whelan will leave Ottawa early Sunday morning, November 3rd, arriving in Port Arthur Monday morning, and will report to your office at 9 o'clock. Please take her out to the school and give her every possible assistance as she starts her new work. Salary at the rate of \$95 per teaching month will be allowed in her case. Miss Whelan is a second class professional, with several years' experience.

Your obedient servant,

Sir:

I beg to report last week the Fort William School Board approached Miss Whelan, teacher of the Mission Bay Indian Day School, Fort William Reserve, to ascertain if she would accept a vacancy in one of their schools. Miss Whelan informed the inspector if it would be possible to locate a teacher for the Mission Bay School she would be pleased to make the change as the Mission school was frightfully isolated and the life very lonely.

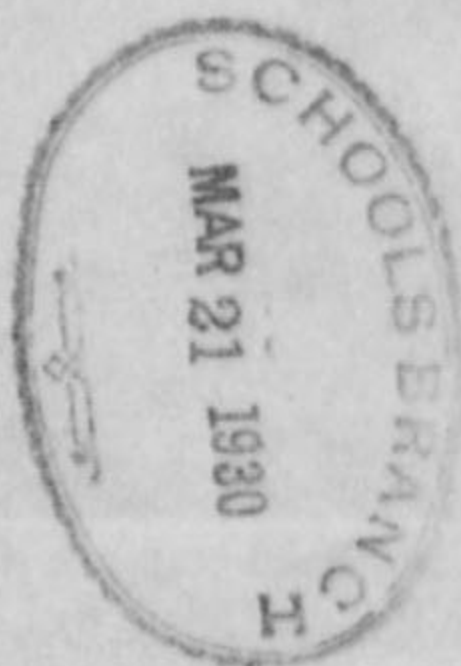

During the past 2 months, the former teacher at Squaw Bay, Miss Lavelle, who was appointed as Field Matron, has been feeling her duties much too strenuous. She consulted Dr. Gillie, our Indian physician, who advised her strongly to discontinue the Field Matron's work, and try and get back to teaching. Miss Lavelle resigned her position as Field Matron on Saturday, March 15th, and has been reinstated at the Mission Bay Indian School.

Miss Whelan resigned the same day to accept the new position in Fort William.

Sir:

I have your letter of the 17th instant, informing the Department that Miss Nellie Whelan has given up duties as teacher of the Mission Bay Indian Day School to accept a position as teacher in Fort William, and that you have arranged with Miss C. M. Lavelle, who formerly taught this school and who has recently been performing field matron's work, to again take up teaching duties after Miss Whelan's resignation. The Department will approve of the re-engagement of Miss Lavelle from the 15th instant, with salary at the rate of \$90 per teaching month, the same as was allowed her when she formerly taught this school.

Payment of the salary due both the above teachers will be made upon receipt of the usual quarterly returns. Any balance of salary due Miss Lavelle as field matron should be included in your pay list for the current month.

MEMO FOR FILE:

When in Fort William recently,
I saw Miss Lavelle, teacher of the Mission
Bay Indian Day School. She is badly run
down and wishes a year's rest. I told her
she had better resign and that, later, we
would see that she got a school. She
wishes a letter from the Department,
regarding her service.

Sir:

The Department understands that it is the intention of Miss C. M. Lavelle, teacher of the Mission Bay Indian Day School, to give up duties on account of the condition of her health. The Superintendent of Indian Education, while in Fort William recently, discussed this matter with Miss Lavelle, and advised that she resign. - If she terminates her services, it will be necessary to obtain a teacher to succeed her for the coming school year. Please ascertain definitely from Miss Lavelle if she is giving up duties, and, if so, you should endeavour to secure the services of a qualified teacher to succeed her. You should forward the names, qualifications and experience of any applicants for the position. I shall be pleased if you will give this matter your prompt attention.

Sir:

With reference to verbal conversation of recent date regarding Miss C. Lavelle, who has been teaching at the Mission Bay Indian Day School for the past 5 years, I wish to advise that Miss Lavelle recently called at this office and reported that owing to poor health she was obliged to resign.

It is surmised if Miss Lavelle is in good health next year she will, no doubt, apply for another Indian Day School. As this teacher has been very conscientious and a very good worker I presume the Department will look with favour when she applies for another school.

Pursuant to my letter of the 2nd instant and in reply to your 210-8A of the 30th ultimo, I have now to state that the Department will give very favourable consideration to an application from Miss Lavelle for an Indian school next year or whenever she applies. She has asked for a statement concerning her services and I am enclosing a writing for her.

You will please forward to the Department any suggestions you have for the filling of the vacancy. There are some good applications on our general file and, if I fill the position from headquarters, I will telegraph you to that effect. If there is any applicant for whom you wish favourable consideration for this post, you might telegraph the Department.

I have your letter of the 3rd instant, informing the Department that the Mission Bay Indian Day School, on the Fort William reserve, has been closed on account of an epidemic of mumps. It is hoped that it will not be necessary to keep the school closed for any lengthy period. The teacher, when preparing the return for the current quarter, should state thereon the dates between which the school was closed on account of the epidemic. It is presumed that the necessary medical attention has been given in the cases having contracted the mumps.

Ottawa, May 19th, 1928.

Sir:

I have your letter of the 15th instant, informing the Department that, owing to an epidemic of influenza and the closing of the schools in the city of Fort Williams, Dr. Gillie considered it advisable to close the Mission Bay School. Your action under the circumstances is approved. We note that the school was re-opened on the 14th instant.

The teacher, in preparing her return for the current quarter, should state thereon the number of days the school was closed for the above mentioned reason.

Sir:

I have your letter of the 17th instant, informing the Department that Miss Nellie Whelan has given up duties as teacher of the Mission Bay Indian Day School to accept a position as teacher in Fort William, and that you have arranged with Miss G. M. Lavelle, who formerly taught this school and who has recently been performing field matron's work, to again take up teaching duties after Miss Whelan's resignation. The Department will approve of the re-engagement of Miss Lavelle from the 15th instant, with salary at the rate of \$90 per teaching month, the same as was allowed her when she formerly taught this school.

Payment of the salary due both the above teachers will be made upon receipt of the usual quarterly returns. Any balance of salary due Miss Lavelle as field matron should be included in your pay list for the current month.

Referring to your letter of

No. 307515/1

In reply to your letter of above number and date, I would say that there are about 100 children belonging to the reserve, of these from 6 to 16 years there are about 30 at each village, add to these the children in their 6th year and the children on the "Non-transmissible" list the total will come to 50 at each village. There should be two rooms for the children and a private room for the teacher, I would say a building 30 x 28 will be small enough.

Dear Sir,

The School has been opened at Mission Bay (Squaw-Bay) Fort-William on March the 4th with an attendance of 15 pupils and since the attendance has not been less than 10 or 12.

I procured the books and other necessary material from the Industrial School. I had to get common tables made for the pupils and one for the teacher, three cards of wood (42 size) one broom and dust pan. I had the loan of a box stove for one dollar. And the rent of the house is \$3.00 a month as stated in my previous letter. It would have delayed the opening of the school too much if application for this material had been made before hand.

As much as I have been able to ascertain the teacher seem to give satisfaction.

Your humble servant in Xst

The Deputy Superintendent General,--

Mr. Neil McDougall, Agent for the Fort William band, who called at the office yesterday, told me that he considered that two new day schools should be built on the reserve, one at Squaw Bay and the other at the Mountain.

To accommodate the children who would attend the buildings should be 32' x 25', and should provide accommodation overhead for a teacher.

I would suggest that Mr. Ogilvie be asked to prepare a plan for these buildings for submission to the Agent, who could obtain tenders for the erection of the same, which would cost probably in the neighborhood of \$1200 each.

As the schools are now held in temporary quarters, something should be done at once, so that they could be finished before the winter sets in.

I beg to inform you that plans and specifications have been prepared; school house and school residence, for the Fort William Band, to be erected for the Squaw Bay and Mountain villages.

Blue print plans and specifications, in duplicate are sent you under separate cover.

Advertisements are being inserted in the "Daily Chronical" Port Arthur, "Port Arthur Herald" and "Evening Herald", Port William, calling for tenders for these buildings. A copy of the advertisement is enclosed herewith.

The tenders are to be addressed to you and opened on the date stated in advertisement, and after examination, forwarded to the Department with your report stating which tender should be accepted, and your reasons for making the said recommendation.

When the contracts have been awarded blank forms of contract will be sent you, also forms for Bonds for two sureties for each contract, equal to the amount of the contract price to ensure the fulfillment thereof.

Reasonable time will be given the Contractors to erect and complete the Buildings. The time required, however, should be stated in your letter accompanying the opened tenders.

Sir,-

In connection with official letter to you, of the 23rd inst., forwarding plans and specifications for the proposed school-houses and residences for the Port William band, to be erected at Squaw Bay and the Mountain village, I have to request that you will at once proceed to these localities and select suitable sites for these buildings.

Frank
MB
S.B.
In looking at the plan of the Squaw Bay village, the point on which the council house is erected would appear to be the most central location for the school for that place, and, if you think it would be convenient to place the residence there, you may do so, or, if not, choose one of the unoccupied lots in the vicinity. The school-house and dwelling, if placed there, should face in the same direction as the council house, but if the residence is to go on one of the village lots, it should face the road.

At the Mountain village, these buildings should be placed on the Government road, if possible, and, if no site is available on this road, as near the centre of the village as space can be obtained. Lot No. 5 appears to be available. This lot is situated in Concession 2, according to Mr. Lugheed's plan.

Neil McDougall, Esq.,

Indian Agent,

Port Arthur, Ont.

Please

Please report the result of your selection, giving the numbers of the lots. An acre at least should be set apart for the school and dwelling, if on the same lot. At Squaw Bay it would appear to be preferable to place the dwelling on one of the surveyed lots to itself.

Dear Sir

The plans and specifications for the schools and teachers residences at Mountain and Mission Bay.

The Dept has probably had communication from Mr Ogilvy regarding the advisability of putting in the stone foundation and basement under the buildings at the Mountain on account of the ground being so low and no drainage.

I have to draw your attention to the fact that in the specifications for the schools there is no mention of cement floor in basement and for any of the buildings no plumbing for lavatories or for closet buildings outside

Memorandum for

Deputy Minister.

With reference to the proposed school houses and teachers' residences on the Fort William Indian reserve the Indian Agent has recommended that the tender of Mr. C.J. LeBlonde be accepted as it is practically as low as any other reliable one and LeBlonde has executed very satisfactorily the contracts already intrusted him of houses etc on the said reserve. Mr. LeBlonde's tender for one school and one residence at Mission Bay and one school and one residence at The Mountain Village is \$11,100.00.

Before proceeding any further in this matter I beg to draw your especial attention to the following:-

The school buildings at the old village at the Kaministiquia River where the ordinary common buildings, then pretty old, and valued at \$500.00 each or thereabouts, These buildings, when new, would cost from \$800.00 to \$1000.00 each. There would certainly be no objection to rehabilitate the band with similar school buildings in their new homes without their consent, but when it is proposed to expend from their capital ^{the} a large sum of \$11,100.00, I think the matter should receive special consideration, and that the Band, in the event of the Department considering the expenditure to be judicious, should be consulted.

S. Bray
Chief Surveyor.

No. 307515

In reply to your letter of above date and re regarding the location of school and dwelling at "Mountain" village west William---by referring to the plan of the village you will notice at the front or north end of centre street- between Cem2 & 3-next to the G T PRY there are vacant parts of lots on each side which are a little higher and dryer, but I do not think they contain sufficient ground for the buildings, these would stand excavating say 4 feet- this would hardly be enough, the only other spot convenient to the village would be at the extreme end of the village the north end---just beyond lot 20- here the ground rises considerable towards the mountain, good dry ground, sufficient drainage, rock for foundation handy and after consulting the Indians they say not too far for the youngest scholars, about half a mile ---

Sir,-

With reference to the construction of school buildings and teachers' residences at Mission Bay and Mountain Village, Fort William Reserve, I have to say that the Department is not disposed to spend such a large sum of money as that indicated by the tender in the construction of these buildings, unless with the consent of the Indian Council.

It is proposed, if the work is decided upon, to give the work to LeBlonde. The amount of his tender for the whole four buildings is \$11,100.00. This is a large sum to take from the capital funds of the Band, unless as above stated, with their special consent.

Before submitting the matter to the Indian Council please request LeBlonde to give you a tender on school houses, modified as follows;

*S.P.
L.M.*

To be no basement or excavation or furnace. The building is to simply rest on an ordinary stone foundation raised two feet above the ground, to be of the same dimensions as indicated on the plan, but without the steps, *down to the basement* of course, at the back. The shed will be required for wood; it should, however, be two feet wider than it is now. The shed is to be of the ordinary type of wood-shed resting on cedar posts. The chimney should be provided with a fire-place, and a thimble placed at a proper distance above for the reception of the stove-pipe. A good box-stove thirty inches long *with* piping and zinc should be provided.

Neil McDougall, Esq.,

Indian Agent,

Port Arthur, Ont.

No change is proposed to be made in the teacher's residence. When you have Mr. LeBlonde's figures, please submit the whole matter to the Indian Council and discuss it with them. They should pass their resolution stating what they desire, or will consent to. You may explain to them that under the "Indian Act" their consent is not necessary, but as the expenditure proposed is a large one, the Department prefers to have their views. You may show them the desirability of having good buildings of the reserve, and you may assist them with your own views as to what, under the circumstances, would be more judicious. The school building, as originally intended, may be adopted, or if preferred the cheaper building described above. Kindly attend to this as soon as you conveniently can.

I have to acknowledge receipt of your telegram of 25th and beg to return the letter.

Also telegram of 24th, I went over to Mission Bay yesterday and find contractor Le Blend had started to work on the buildings there, as advised in my letter of 19th he would begin operations on account of the advanced season, nothing has been started at the "Mountain" as it was undecided as to location and whether the basement would be included, he has the excavation and foundation nearly completed for the dwelling and a fair start on the excavation for the school at the "Bay", his gang is organized and considerable material and outfit on the ground, The Indians and Rev Father LeMarche will be very disappointed if the work is to be withdrawn, but of course will be obliged to accept the Departments orders.

I might say that at the "Mountain" the situation has improved, we did some ditching on the main street and on the cross street between lots IO & II- including the cost in the road-this has had the effect of drying the lots a great deal, I think the excavation could be put down 3 feet and easily kept dry, 3 feet of a foundation above ground would be allright and filled pretty nearly level would be a solution for the buildings here, the Indians want the buildings on lot II opposite the Council House if possible.

Sir,-

With further reference to the question of the erection of School buildings on the Fort William Reserve, I have to say that as you are aware the awarding of the contract for buildings to be erected on the present plans and specifications would lead to the expenditure of about \$12000.00 from the capital funds of this Band. The Department has endeavored to conserve their funds so that the capital should not be dissipated and that at least \$100,000.00 clear should remain to produce interest for annual distribution. Although larger expenditures have been incurred than was at first contemplated it was thought that when the work was completed there would remain a sufficient amount to meet the ordinary expenses of the Band, and to give an annual interest distribution of about \$3000.00; but if such a large expenditure from capital is incurred as is contemplated by the plans and specifications for school buildings on which tenders were asked, the funds would be so ~~very~~ reduced that it would not be possible to do so. As the Council House only cost \$600.00 it is thought that a school house with accommodation for the School-teacher could be erected for \$1200.00. This would make the total expenditure \$2400.00 for the school buildings instead of \$12000.00. Would you kindly prepare a rough sketch of a building that could be erected for \$1200.00. The building should be 32' X 25' and should have simple accommodation overhead for the Teacher.

Ottawa, October 24th., 1907.

Sir,-

I this day telegraphed to your address at Fort Frances requesting you to call at Port Arthur. It seems desirable that before coming East you should make a thorough examination on the ground of the school buildings which it is proposed to erect on the Reserve, and be able to give the Department a full report on your return. As you may be aware Mr. Leblond, who has not been awarded any contract for the work, began the erection of the buildings at Squaw Bay on plans and specifications which were then under discussion. The amounts to be expended from the Indian Capital for buildings of the style proposed seem to the Department too large, and it is thought advisable to re-consider the whole question. The work undertaken by Mr. Leblond without proper authority has ceased, and the Indian Agent reports that he will complete both buildings at Squaw Bay for \$4500.00; that he will erect the School House at the Mountain, with accommodation upstairs for the teacher, of 22 X 34 dimensions, with a stone for \$2600.00, or the same building without accommodation for \$2200.00; and will build a residence 14 X 18, with a kitchen \$750.00. Rough sketches were enclosed in a letter from Agent of the 14th October without specification, and I enclose same here for your information. Would you kindly go into the matter thoroughly with Mr. McDougall and Mr. Leblond, and be able to inform the Department whether Mr. Leblond will complete the buildings at Squaw Bay without change from the original plans and specifications for \$4500.00. If not, what changes does he propose, and is the cost fairly represented by \$4500.00? No specifications of the buildings proposed to be erected at the Mountain were forwarded. The plan which provides for accommodation for the teacher

seems the one to be preferred, and you should have the tenderer prepare specifications showing what he proposes to furnish for the sum of \$2600.00. I may say that it is the desire of the Department to conserve the Indian Trust Fund as far as possible, and at the same time provide suitable buildings for school purposes. It was the first intention of the Department to provide two buildings which would cost about \$1200.00 each and plans were directed to be prepared for buildings of that character. The expenditure of even such a sum as \$7100.00, which would be the limit of cost under the new proposal, is much greater than was at first contemplated.

I trust that you will give this matter your best consideration and be able to forward a report at an early date. Mr. McDougall points out that with the approach of winter it is necessary to have some decision at once.

Sir

I beg to acknowledge the receipt of your telegram, in reply to mine relating to the construction of teacher's residences and school-houses on the Fort William Indian Reserve and to submit to you herewith agreement, sketches and specifications as arranged between the contractor Mr. C. J. Le Blond and myself.

The principal points of difference between the original plans and specifications and those now agreed upon are the following:

The buildings at the Mountain are a little smaller.

The furnaces are omitted.

The plumbing &c is omitted in all buildings.

Basements are omitted in the Mountain buildings.

Front porch and cupola to school buildings omitted.

Ship lap on the interior omitted.

A very simple porch substituted at the rear of the school building at Mission Bay.

The roof construction is much simpler.
Two coats of paint instead of three coats

The buildings at Mission Bay are partly constructed and to such an extent that material changes cannot be made; otherwise the construction of buildings that I feel assured you would consider to be quite satisfactory could have been arranged for the sum of six thousand dollars.

At a meeting with ex-chief Penassie and the principal residents at the Mountain Village I showed them the sketches of the buildings as now proposed with which they expressed themselves as being quite pleased.

The contractor M^r C. J. LeBlond is a man of good standing. He has a number of other buildings under construction in Fort William. I think we may rely on having satisfactory work done. He is also

also quite willing to make any changes that may be desired, of not a material nature, without increase in cost. Mr. Ogilvie examined the buildings at Mission Bay yesterday, neither of us being aware that the other was in the neighborhood. He noted certain faults in construction which I have pointed out to Mr. LeBlond and he has promised to remedy them all.

I hope the whole matter will meet your approbation. I would especially draw your attention to the sketches for the buildings at the Mountain Village, which I think show buildings well adapted for the purpose required.

Herewith I beg to hand you final estimate for Schools and teachers residences at Mission Bay and Mountain, Fort William reserve, the buildings are now completed according to plans and agreement between Mr Bray and the contractor under date 5th Nov /07.

There has been no school at Mission Bay since last spring, Rev Father Dugas in his letter attached recommends Mr Jerry Alire as teacher at Mission Bay and that Mrs Alex Mc Coy be given the school at the Mountain till they can get Deminie Ducharme to come, He is now teaching school at the Ashland reserve Wis. If the Dept did not wish to open the school at the Mountain till spring I do not see why any of the children could not attend the Mission school which is only half a mile away- the latter will likely have to give up their premises in the spring.

I would also desire to bring to your notice the necessity of having the new buildings insured, this can be done at Fort William--- in the same Company that the the other buildings are insured

Sir,-

Replying to your letter of 8th Inst I herewith enclose vouchers in duplicate as requested and find that the goods were obtained on the enclosed orders. The only order authorized by Dept viz \$4⁰⁰ has been paid.

The a Bannan order has been intended by McDougal to come out of his annuity or interest money.

You will observe on one of the list purporting to be a distribution of last fall's \$300⁰⁰ distribution of interest.

That Bannan's name appears and on a list in this office for his own guidance appears \$24⁵⁰ plus \$10⁰⁰ as the order was accepted in good faith I think it should be paid.

Sir,

Referring to your letter of the 15th instant, I return herewith the Mission Bay School accounts to be passed upon by the Fort William Council, and attached to voucher forms, in duplicate, after which you should certify thereto. This is necessary before the matter of payment can be dealt with.

With reference to the goods furnished A. Bannan by Messrs McLaurin & Dow, it ~~was~~ seems that they ^{order} ~~were~~ issued on account of illness, but the ~~articles~~ ^{order} articles supplied ~~were~~ ^{not such as would be used by a sick person} not appear. The account can not be paid from band funds. If Bannan acknowledges the receipt of the goods, which were supplied upon Mr McDougall's order, and if he (Bannan) signs an agreement to have payment made from his interest moneys, the amount of the account will be collected at the next distribution of interest money and paid over to the merchants.

In answer to yours of above date and No. I submit herewith, a tender made by Edward Gordon, a Carpenter and one of the Port William Band, for the perch, stern doors and stern windows for the Mission Village school at Squaw Bay. I have not found any competent person to submit a tender for the repairs to the foundation walls and do not think that any person within the Band is competent.

The work is important and delay will not help the present condition of the walls. Only a competent workman ought to be employed to do the work.

Yours truly

I have to acknowledge the receipt of your letter of the 12th instant, and in reply I beg to say that you may let the work for the porch, storm doors and storm windows for the Squaw Bay school building to Mr. Edward Gordon, of the Fort William Band, for the sum of \$50.00.

The Department will rely upon you to see that the work is done in a creditable manner.

With reference to the painting and plastering of the foundation I may say that the price formerly submitted, \$63.00, included the cost of delivering the material, presumably for the porch, window ~~sashes~~ sashes, etc. Be good enough to let the Department know the lowest price for which you can have the necessary work on the foundation done.

and No. I enclose herewith a tender for plastering and painting the foundation walls (outside and inside separately) made by Ambrose Cyrette Jr. a member of the Fort William Band.

As you will observe, he gives a tender for outside work only viz: \$27.00 and for inside work \$15.00 and in both cases the Department to furnish Cement & Lime.

I estimate that the material will cost about \$15.00 to \$20.00. To make a good finished job both the inside and outside walls should be plastered. The unfinished walls mentioned in the tender are under the front steps of the School Building and they ought to be completed.

Report of Inspector J.P. Finn on the Mission Bay School.

Buildings,-

The closets are broken. The doors are off and need repairs.

Blackboards,-

Blackboards are very badly needed. One should be placed low enough for the pupils to work on.

Grounds,-

The grounds are rough and stony and could be improved by placing on these stones some fine material either in the way of soil or sand.

Sir,-

Mr. Inspector Finn, in his report on the Mission Bay School, states that the closets are broken, that the doors are off and need repairs, that blackboards are very badly needed, that the grounds are rough and stony and could be improved by placing on these stones some fine material either in the way of soil or sand.

You are hereby authorized to have the necessary repairs made to the closets.

The Department would like you to state the dimensions of the blackboards required so that hyloplate can be ordered and also to give an estimate of the probable cost of improving the school grounds.

Sir,-

In reply to yours of May 22nd file # 307515/5 would say that I visited the Mission Bay school yesterday, and left orders to have the closets repaired.

The blackboard required should be seven feet long and about four high.

It would cost several hundred dollars to level these grounds and cover with sand as they are large and rocky. I have however asked for an estimate on removing all sharp stones and filling that part of grounds between School house and house owned by the School teacher. Will advise you promptly on receipt of estimate.

Sir, - Enclose accounts of
Mr. Bouchi for \$2.00 and \$93.60 respectively.
With reference to account for clearing
school grounds I told Bouchi that
I only had authority to spend \$60.00
He figured at the time that the work could
be done in six days. and when he found
that it would take longer he went
ahead without advising me. Several
stumps had to be blown out with dynamite
He had not figured on this
I think the team should not be paid over
\$5.00 per day otherwise the charges are fair
although the extra expenditure was not

Sir,-

In reply to yours of Sept 13th file 307 515-5. would say that it will cost about \$5.00 to repair and whitewash the three closets here.

The parish priest Father Lamoche objects to having a shield put up in front of these closets. He thinks that the closets would be much better without the shield as in his opinion the boys might hide around the girls closet without being seen as they would be at present.

I think if these closets are moved farther apart, repaired and whitewashed it will be sufficient at present.

I believe that the wrong school is named in this report, as the Mission Bay School is the only first class building in the agency. The desks are in good condition and there are quite enough to accommodate any possible attendance. The ventilation is good. The windows were fixed this spring so that they could be lowered.

OTTAWA, August 8th, 1921.

Sir, -

I have to acknowledge the receipt of your letter of the 2nd instant informing the Department that the school at Mission Bay, Fort William Reserve, was completely destroyed by fire on the 31st ultimo.

In reply, I beg to say that you should forward further particulars as to the cause of the fire. There is a teacher's residence in connection with this school and you should state whether this building has also been destroyed.

The Department understands that there is \$1,000 insurance on the school building and \$1200 on the teacher's residence. When the insurance is received by you, you should forward it to the Department for credit to the account of the Band.

As this school has been closed for sometime and there is very little likelihood of it being reopened, the question of the erection of a new building can remain in abeyance.

The Department will expect a full report from you regarding the cause of this fire, and the insurance collected.

Re fire at Mission Bay School I beg to advise that former Chief Frank Williams allowed a summer camper to use the building but neglected to warn him that the fire place chimney was defective.

The teachers residence was not damaged. I will forward the insurance money soon as it is received.

There are not enough children at Mission Bay to warrant re-opening of a school

OTTAWA, October 20th, 1922.

Sir: -

I have to refer you to your letter of May 22nd, last, in which you stated that it would not cost over \$200 to fit the present teacher's residence at Mission Bay for school purposes. Our letter of May 27th, last, authorized an expenditure not exceeding the above amount, and you were instructed to carry out any alterations which you considered necessary in order to provide sufficient classroom accommodation. As yet, no accounts have been received covering any such expenditure and, consequently, the Department presumes that this matter has not yet received your attention.

Mr. Inspector Bennett, who visited this school on the 11th instant, states as follows: (1) the entrance steps are broken; (2) the cellar is in very bad condition; (3) the teacher's kitchen and bedroom have no privacy from the pupils entering and leaving the school; (4) a porcelain jacket is required for the pipe hole; (5) a new chimney is needed before the pipes can be put up, and (6) a large stove should be secured in order to give more heat in the classroom.

The Department trusts that you will take immediate steps to make this building as comfortable as possible, keeping in mind the matters which Mr. Inspector Bennett states are urgent. The expense incurred should not exceed your estimate of \$200.

As it is considered that a number of the articles which Inspector Bennett states are required for the teacher's residence were in the Mountain Village School, the Department would like to have a list showing the articles, etc., removed from Mountain Village to Mission Bay. Possibly you have removed these since the date of Mr. Bennett's visit, but we desire to have definite information on this matter.

Kindly advise the dimensions of the additional blackboard required, and an order will be placed for same.

The Department trusts that you will give all these matters your immediate attention.

Your obedient servant,

A. F. MacKenzie

Sir,—

9-13-5

I have your letter re Mission Bay School and beg to advise that a considerable amount has already been expended on this building. Everything has been taken from the school residence at the Mountain Road and practically everything but the School desks and the Store from the School.

When this building was being put into shape it was the intention to have the Class room down stairs and the teachers quarters upstairs but the teacher decided otherwise and is teaching upstairs.

There is a cook stove and a large camp heater there now and I note that the Inspector thinks that another heater is necessary.

While this building is not ideal for school purposes it answers the purpose fairly well and I do not consider that a new building should be built until the Indians show by proper attendance of their children that the expenditure is warranted. The Inspector did not help matters out by informing the teacher about the fine quarters provided for teachers at other points.

Dear Sir:

When your Mr. Bennett inspected the Mission Bay School last month he advised me that he would make a report to the Department re the conditions at the above school. I have gotten in touch with your representative here, Mr. Browne, several times, but up to the present he has given me no satisfaction, with the exception of a new chimney and oil cloth for the floors. As Winter is coming on I would like very much to get things in condition. It is not necessary for me to outline what I need as Mr. Bennett no doubt did this in his report.

I would very much appreciate it if you would give me some idea when I can expect things to be made more comfortable both in the school-room, and in my residence.

Trusting that you will give this matter due consideration.

Yours truly,

Madam:-

Replying to your letter of the 11th instant, I beg to inform you that we are again requesting Mr. Agent Brown of Port Arthur to take the necessary steps to place the classroom and living quarters in connection with the Mission Bay Indian Day School in as comfortable a condition as possible for the coming winter. Accounts, covering supplies furnished and repairs made, have already been received and paid, and the Department is, therefore, not aware as to what further equipment is needed. The Agent was instructed to carry out the repairs, etc. mentioned by Mr. Inspector Bennett in his report on his inspection of this school.

Sir:-

The Department is in receipt of a communication from Miss Flanagan, Teacher of the Mission Bay School, a copy of which is enclosed herewith.

The Department has already given you instructions regarding the purchase of supplies and the fitting up of the classroom and living quarters of the teacher. Accounts have been received for supplies and repairs, and we cannot understand what further equipment the teacher requires. If you have not purchased all the supplies authorized, you should attend to the matter at once. We desire to make the conditions at this school as comfortable as possible for the teacher during the coming winter and would appreciate it if you would give this matter your prompt attention. We shall be pleased to receive a report from you regarding same.

Sir,

Enclosure herewith
requisition from Mission Bay School.
The teachers desk is a very old and
infirm one. There is quite a good
desk at the Mountain Road School but at
least one of the legs was broken last time
I saw it. This might be repaired and
sent to the Mission Bay School.

The teacher also wants to know if
the department would pay the cost
of rent for a piano for the Christmas
entertainment.

Your obedient servant,

Ottawa, Nov. 28, 1922.

Sir:-

I have to acknowledge receipt of your letter of the 22nd instant, enclosing a requisition from the teacher of the Mission Bay Indian Day School.

In reply I beg to say that you may purchase and have delivered to the teacher 20 yards of window scrim and oil cloth 18 x 12 for the floor of the bedroom. A pencil sharpener will be ordered to be sent from the Government Stationery Office here.

Regarding the teacher's desk, I beg to say that if the desk at present in the Mountain Road School can be repaired, you may have the work done and the desk transferred to the Mission Bay School. If, however, this desk is beyond repair, you may arrange for the purchase of a cheap table or desk which would be suitable for the purpose. If the price exceeds the sum of \$15, it will be necessary for you to obtain competitive prices from a number of dealers before making the purchase, and the desk should be bought from the firm quoting the lowest price. You will kindly forward properly certified vouchers in duplicate covering the expenditure incurred.

It is hoped that the requirements of the teacher will soon be fully supplied, and I shall be pleased if you will attend, as soon as possible, to all the purchases and repairs which you were authorized to have made at this school.

Sir,—

I have your letter of the 25th and enclosed from Miss Flanagan. This young lady wants a new cook stove, a new desk and curtains for the windows.

I informed her that I felt sure that the Department would not buy a new cook stove but that if she could find a used one that would suit her we could probably arrange an exchange. An exchange that would suit her would cost \$17.00 or a little more.

The entire inside walls have been cleaned, new chimney built, porch built and storm windows taken from the Mountain Road residence and put on.

Sir: -

I have to acknowledge the receipt of your letter of the 29th ultimo, regarding a further request made by Miss Flanagan, teacher of the Mission Bay Indian Day School, for supplies for the use of the teacher's living quarters.

In reply I beg to say that you have already been authorized to purchase scrim for window curtains and a teacher's desk.

With reference to the cook stove, I beg to say if you consider it absolutely necessary that a change be made in the stove at present in use, you may arrange to have it exchanged for a stove in a good state of repair. If you are unable to obtain a satisfactory stove of this kind, you may purchase a new stove. If a new stove is purchased, it will be necessary to obtain competitive prices, and the purchase should be made from the firm quoting the lowest price. The Department will leave this matter in your hands. We hope that, when the above goods are supplied, they will complete the requirements at this school.

We note that the inside walls have been cleaned, a new chimney and porch built and storm windows put on.

Sir,—

I enclose report and requisitions from Mission Bay School. The teacher claims that Inspector Bennett took a long list of her requirements including a bed, dresser and kitchen cabinet and he promised to turn this list in to the Dept. She apparently seems to think that I have received authority to buy anything she wants although I have assured her that I know nothing about the list that Mr. Bennett took and that I cannot buy articles of furniture without authority.

The former teacher was supplied with a folding bed but the mattress is not very comfortable so I understand that Miss Flanagan has borrowed a bed from the Priest.

OTTAWA, Dec. 29th, 1922.

Sir,

I have to acknowledge the receipt of your letter of the 26th instant, inclosing a requisition from the teacher of the Mission Bay Indian Day School, for supplies for the use of the Teacher's Residence and classroom material. In reply I beg to say that the classroom material required is being ordered from the Government Stationery Office, to be sent to the teacher's address.

Regarding the bed, dresser, and kitchen cabinet, Mr. Inspector Bennett included these in his list of requirements for this School, but we were of the opinion that when all the supplies were transferred from the Teacher's Residence at the Mountain Village School, that ample equipment would be provided for Mission Bay. We have already authorized and paid for a considerable amount of furnishings. We regret that we had not in the first instance instructed you to furnish a complete list of the requirements for the Teacher's Residence, in order that all purchases could have been made at one time.

You may arrange for the purchase of a cheap iron bed, spring and mattress, also for a cheap dresser and small kitchen cabinet, and a broom. If possible competitive prices should be obtained, and the purchase of these supplies made from the firm quoting the lowest price. Properly certified vouchers in duplicate should be forwarded covering the expenditure incurred, to which should be attached an abstract of the prices received. It is hoped that when these goods are furnished that there will be sufficient equipment for this teacher's requirements.

While over there I also visited the Squaw Bay Indian Day School, and found that the building needed a few repairs, also kalsomining. As the teacher was going to be away on the 11th and 12th (for the Teachers' Convention), I took the liberty of having the place repaired and kalsomined.

Sir:

Referring to that portion of your letter of the 6th instant, regarding the repairing and kalsomining of the Mission (Squaw Bay) Indian Day School, which you authorized, I beg to say that the action taken by you is approved.

You should forward properly certified vouchers, in duplicate, covering the expenditure incurred in having the repairs and kalsomining carried out. In future, however, you will be good enough, before undertaking any expenditure, to first correspond with the Department, stating the nature of the repairs which you recommend be carried out and the approximate cost of having the work done.

Sir:-

Miss Lavelle, Teacher at the Squaw Bay Indian Day School, has phoned me to say that it has been the custom in past years for \$15.00 to be set aside from the Band Funds for the purpose of giving the pupils little gifts at Christmas. Their party is planned for the 19th inst:

Also, Alex McCoy has applied for \$10.00 for the same purpose in connection with the children of the Mission School, who are to have their "treat" on Christmas afternoon.

I shall be glad to know if I have your sanction for the above disbursements from the Band Funds.

Sir:

I have to acknowledge receipt of your letter of the 3rd instant, requesting that a grant be allowed for the purpose of purchasing gifts for the pupils of the Mission Bay (Skwah Bay) and Mountain Village Indian Day Schools, to be distributed before the schools close for the Christmas holidays.

In reply I beg to say that you may expend an amount not to exceed \$8 in the purchase of suitable gifts for the children of the Mission Bay Indian Day School, and the sum of \$5 for gifts for the pupils of the Mountain Village School.

Regarding this latter school, I may say that we have no returns showing the attendance of Indian children since the quarter ending March 31st, last. If this school has been in operation since that date, returns should be forwarded showing the attendance of Indian children.

After the purchase of the articles for the Christmas treat have been made, you should furnish properly certified vouchers, in duplicate, covering the expenditure incurred in the case of each of these schools separately. The above amount in each case is all that can be provided and this should not be exceeded.

Extract from Inspector's Report on the MISSION BAY
School, April 1, 1924.

R

There is no clock of any kind except the teacher's wrist watch and even that needs attention. Could even a small alarm clock be provided?

The teacher has no washboard. She says it is difficult to wash the towels used by the Indian children without one.

When she wants to iron clothes she has to borrow one. Two flat irons for ironing would not cost much.

New fire brick needed in the stove.

This combined teacher's residence and school is in a rather poor condition. The interior of the teacher's rooms appear fair but the interior of the classroom is forbidding. Rain enters under windows. The plaster is falling from the ceiling.

Desks are all broken; the pipes continually smoke when a strong fire is on, although the chimney and pipes were cleaned.

However, the building is not a suitable one in any way. I hope a new school and residence combined will be provided.

Sir:

Mr. J. M. Bennett, Separate School Inspector, in a report on his recent inspection of the Mission Bay Indian Day School, requests that certain supplies be given for the teacher's use. You may, therefore, arrange for the purchase and delivery of the following: 1 alarm clock, inexpensive; 1 wash board and 2 flat irons.

The Inspector states that new fire brick are needed in the stove, and you should arrange to have the brick supplied and installed.

Regarding the classroom, the Inspector states that rain enters under the windows and the plaster is falling from the ceiling. You should arrange to have the repairs required to the plaster carried out, and any repairs required made around the windows, in order to prevent the rain from entering.

The Inspector further states that the desks are all broken. You will be good enough to furnish a report regarding the condition of the desks and whether or not they can be repaired. If any new desks are required, you should state the number, sizes and whether double or single.

When you have made the purchase of the above authorized supplies and have completed the repairs authorized to the plaster and windows, you should furnish properly certified vouchers, in duplicate, covering the expenditure incurred.

Please give these matters your prompt attention.

Sir -

With reference to yours of the 29th ult., I beg to advise that the Mission Bay Indian Day School has been supplied with the articles mentioned in your letter.

Regarding the repairs to the school, as this would probably interfere with classes I would suggest that this be left until vacation time and am therefore not making any arrangements to have this done at this time unless otherwise instructed by you. The building needs two new coats of paint and I shall be glad to have the Department's authority for this expenditure.

The teacher lives in the downstairs portion of the building and classes are held upstairs in a room 18' x 12' which is, of course, very unhealthy. Would it be possible to have a new school-house built?

I have to acknowledge receipt of your letter of the 13th instant, regarding the repairs required to the building used for school purposes at Mission Bay.

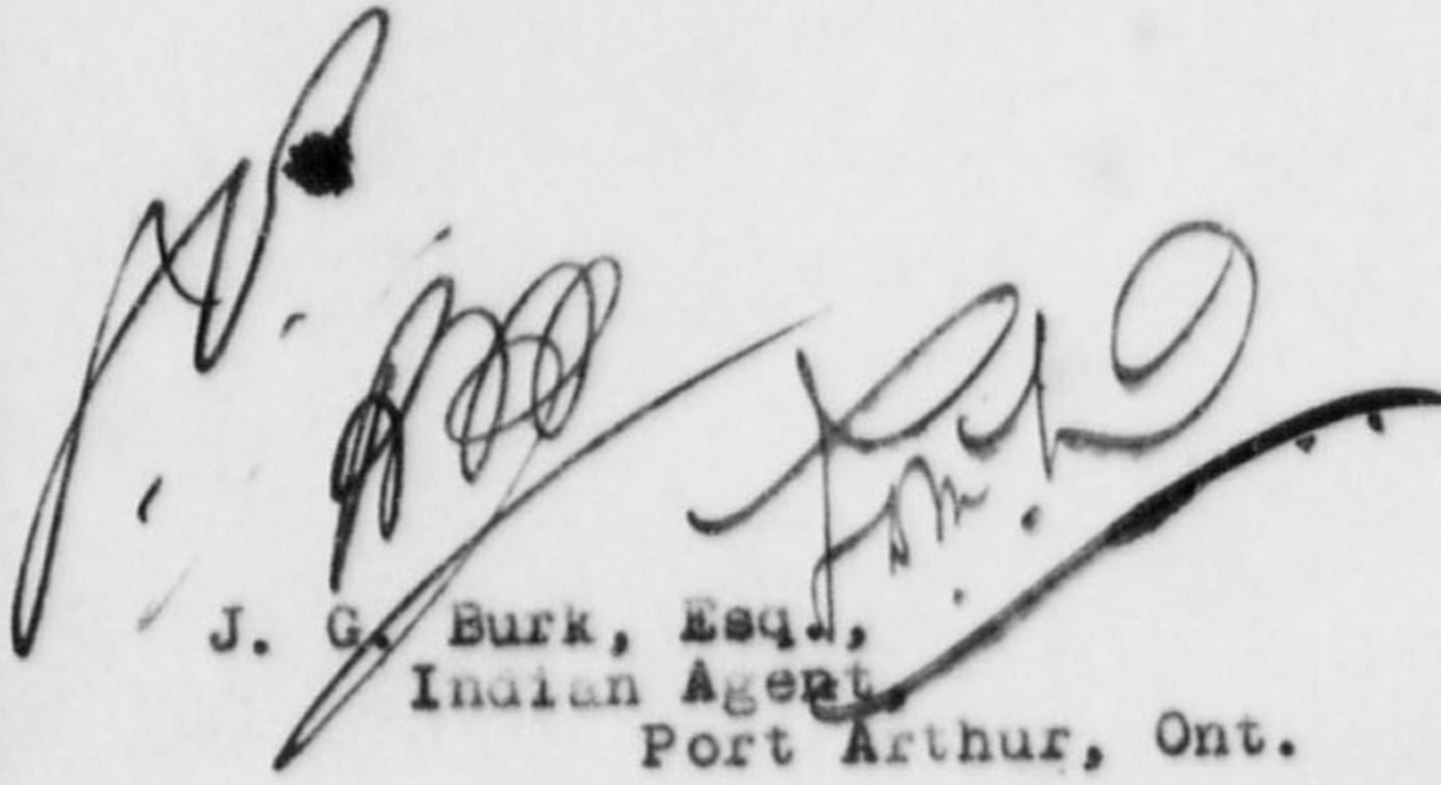

In reply I beg to say that the repairs required should be left until the coming summer vacation. You should draw this matter to the attention of the Department at the end of June, next, giving full particulars as to the repairs required and the approximate cost of the same. It is noted that the building requires two coats of paint. Please state the approximate cost of having this work done, when reporting on the repairs required.

I beg to acknowledge receipt of yours of the 19th instant regarding the repairs required to the building used for school purposes at Mission Bay, the contents of which have been carefully noted. In this connection I beg to advise that there is very little work for the Indians to do at the Fort William Indian Reserve at the present time and would suggest that the painting be done as soon as possible. This will cost approximately \$60.00. Please advise if the work can be done at once.

I have your letter of the 27th instant, requesting that authority be granted to paint the exterior of the Mission Bay Indian Day School.

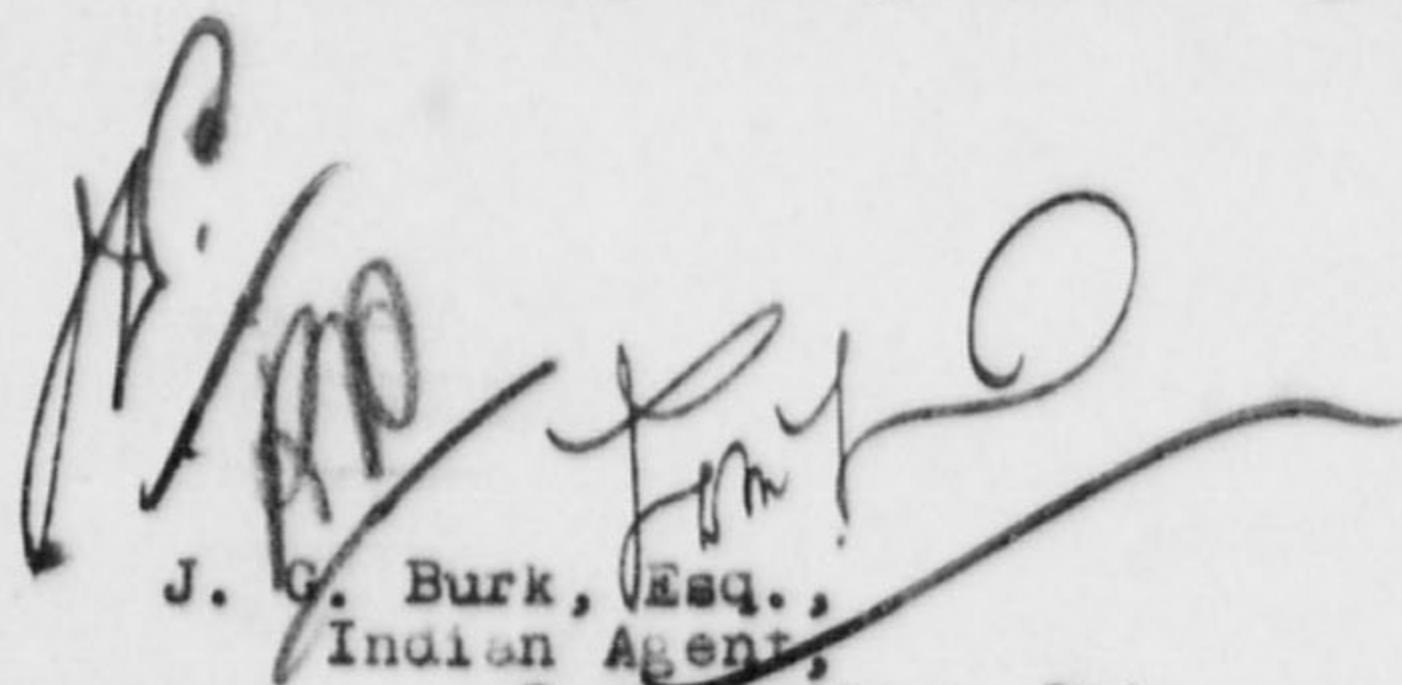

In reply I beg to say that the Department will approve of this work being undertaken at a time considered by you to be the most advantageous to engage the labour and have the work done. The building is to receive two coats of a good grade of paint. You should, after obtaining competitive prices, purchase the quantity of paint and any brushes required. The work is to be done by day labour - Indian labour to be employed if possible. You should keep proper time sheets, in duplicate, for all labour employed, which you should certify and forward to the Department for payment. If necessary, an accountable cheque could be sent you to pay the men employed. It is noted that you consider the cost of painting the building would be approximately \$60, and, if possible, this amount should not be exceeded.

You should report on the repairs required to this building during the coming summer vacation.

Sir:

The enclosed accounts covering chalk and pens have been received from Messrs. Rutledge & Stewart, Ltd., Fort William. These accounts cover material supplied for the use of the Mission Indian Day School. If this charge should be paid by this Department, you should obtain from the above firm duplicate accounts, certify the same, together with the original which is enclosed herewith, and return them to the Department, in order that payment can be made.

I may say that the teacher should not have purchased the materials mentioned, as all supplies of this nature are furnished through the Government Stationery Office here. You should inform the teacher that, if purchases of this nature are made in future, the Department cannot be responsible for payment of same.

Your early attention to the above accounts is requested.

EXTRACT FROM LETTER OF MR. PAGET TO THE DEPUTY
MINISTER, DATED - PORT ARTHUR, July 8, 1924.

SCHOOLS BRANCH
JUL 11 1924

x x x x

When paying the Indians of the Fort William Band who reside at Mission Bay, my attention was called to the difficulties under which the day school is operated. Since the school house was destroyed by fire a few years ago, school has been held in the teacher's residence in a small room upstairs with a low ceiling. I found 18 school children in this small room, furnished with old (and some broken) wooden desks, taught by a very bright young woman, who is most interested in her work, and has carried on since last fall under discouraging conditions, and will continue to do so if there is a chance of improvement before next winter. Please refer to the Inspector's report on this school. The teacher informed me that she fully expects in the near future an attendance of 25 pupils as there are several youngsters approaching school age which she expects will attend when the fall term commences. The teacher spends her week ends in summer at Fort William, where she has relatives, and one has only to come in contact with her to realize that she is well equipped for the work she has in hand and should receive every encouragement. The residence should have some repairs made to it before another winter in order to make it habitable. The plaster is falling off in places, the roof leaks and the basement is a veritable mud hole, but could be drained at a small cost, as the house is built on sloping ground. A woodshed should also be built at the rear in order to store wood during winter.

The location of this school is near the Fort William Public Park, land for which was purchased from the Band a few years ago, and is becoming a popular resort, so that this portion of the Reserve is bound to be visited by people who come to this resort and the educational facilities are bound to be criticized and the Department blamed, and I am sure the teacher could easily arouse the sympathy of the Press and others if she chose to do so. I informed her to leave it to me, that I would lay the facts before you and felt sure that I would succeed in improving the conditions under which she is labouring.

The foundation of the school house remains and only needs some repairs. On this should be erected a frame structure with one large room with a cloak room partitioned off. It should be plastered and lined with building paper to make it warm. There should be a cement floor in the basement, which the Indians can use for a council house. I took the measurement of this foundation to aid the Architect in preparing plans in event of it being decided to build. They are as follows: 36x64 ft. wall 19 inches in thickness; 4 windows 20 inches deep and 3 ft. wide; 1 door at rear; wall is 5 ft. 6 inches in height at the front and 3 ft. 8 in. at the rear where the door is. Steps leading up to front door are necessary. All materials can be landed at the dock at Mission Bay, near the school site. Tenders should be invited both at Port Arthur and Fort William. The contractor and his men could live under canvass. An Inspector should be employed to watch the job. The cost including repairs to residence which should also

be done by the contractor will it is estimated cost \$3000, of this \$1000 was obtained from Insurance Co. for burned building and is at credit of Account 10, I think. The Indians will not I fear contribute // towards the cost as they say that under the Treaty they are entitled to a school, that the Government must provide the funds. There is no other school on this Reserve. One or two Indians will not send their children to any school, and the other Indians asked me if they could not be compelled to do so. Almost all are now anxious for their children to attend school.

If you can find \$2000, I would advise taking action at once, and disarm criticism that is bound to come.

DR. SCOTT.

I would recommend that the \$1,000 insurance be used, and that the balance, viz., \$2,000, be taken from the interest funds at the credit of the band. Mr. Orr could prepare the plans for the building. He has information as to the requirements. If you concur in Mr. Paget's recommendation as to the urgent necessity for the erection of a new building, the funds necessary, over the amount of the insurance on hand from the old building, could be taken from the interest funds of the band, and Mr. Orr should be requested to prepare the plans and call for tenders.

Besides the new school building, certain repairs are required to the teacher's residence and a woodshed should be erected.

Mr. Carr, -

Please see Indian Agent's letter of 20th August re repairs to Teacher's residence, Squaw Bay. It is important that it be made habitable for the winter. Besides plastering in places, the roof requires fixing, the basement made so that it wont hold water and be a veritable mud hole, platform in front also requires repairing, and a wood shed at rear is necessary. The contractor for the school building could do these repairs while his men are on the ground. I think you could leave these repairs in the Agent's hands to be done by the contractor at reasonable cost.

Ottawa, September 26, 1924.

Sir,-

It will be necessary to supply desks for the new school building which is being erected at Mission Bay. As the classroom will accommodate, approximately, twenty-four children, desks will be required for that number.

The type of desk we supply is the single desk and they are manufactured in the following sizes to accommodate children of various ages:-

Size No. 3	for pupils 12 to 18 years.
" No. 4	" " 9 to 14 "
" No. 5	" " 6 to 10 "
" No. 6	" " 5 to 8 "

It would be advisable to arrange the desks in four rows in the classroom, the smaller at the front and the larger at the rear. I would suggest that the following be supplied, name;y,-

4- No. 6 Fronts
4- No. 6 Desks
4- No. 5 "
2- No. 4 "
4- No. 3 Rears

Please consult the teacher and ascertain from her whether the sizes of desks mentioned and the number of each size will be satisfactory. If not, please have her prepare a list of the number of desks she requires of each size. Also, please state whether you recommend that a teacher's desk and chair and two visitors chairs be supplied.

It will be necessary also to have a cupboard in the classroom for the storing of school material. The contract does not call for this work but it is thought that you might be able to arrange with the contractor to build a small cupboard with a lock and key which would be suitable for the purpose.

Blackboards are included in the contract and will be installed by the contractor.

Kindly reply at an early date, giving full information regarding the desks. You should also give full shipping directions.

INDIAN AFFAIRS:

The Board had under consideration the following report from the Honourable the Superintendent General of Indian Affairs:

The undersigned begs to report that, it having been decided to rebuild the Mission Bay Day School near Fort William in the province of Ontario, tenders were called for, receivable up to noon of the 15th day of September, 1924, and the following were received,-

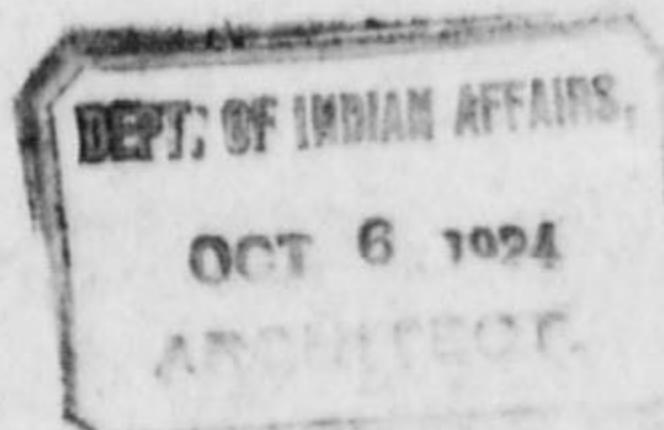

Peter Tonge, Port Arthur, Ont.,	\$3,500.00
Harvey Russell, Fort William, Ont.,	3,361.80
Frank Law & J.A. Burton, Port Arthur,	3,300.00

The undersigned would recommend, pursuant to the requirements of Sub-section 2 of Section 36 of the Public Works Act, that the contract be awarded to the lowest tenderers, Messrs. Frank Law & J. A. Burton, for the amount of their tender as above cited, namely, \$3,300.00 the same being reported by the Architect of the Department as a fair and reasonable price for the work, money being available from the Vote for Indian Education, No 286.

The Board concur in the above report and recommendation, and submit the same for favourable consideration.

INDIAN OFFICE

At Port Arthur, Ont.,

October 11th, 1924.

File No. 8-A.

Sir:

The enclosed resolution passed by the members of the Fort William Reserve on October 8th, 1924, asking the Department for the privilege of using the basement of the new Squaw Bay School, now nearing completion, for the purpose of a Council House, as their old Council House is a considerable distance from their homes, and is in very poor repair, owing to the fact that younger members of the band broke all the windows three years ago, and the said council house has not been repaired since.

I wish to point out that I think that this is a very poor arrangement, as the Indians will be continually interfering with the teacher, and the basement will no doubt be used on rainy days at recess time, for the school children.

Would appreciate an early reply to this letter.

Your obedient servant,

J. G. BURK,
INDIAN AGENT.

Sir:

I have to acknowledge the receipt of your letter of the 11th instant, enclosing a resolution of the members of the Fort William Band requesting the privilege of using the basement of the new school building which is being erected at Mission Bay (Squaw Bay) for the purpose of a council house.

In reply I beg to say that the department cannot approve of the basement of this building being used for council purposes. The basement will be required for the use of the pupils at recess and as a playroom during wet weather. Please inform the chief and council accordingly.

TENDERS

SEALED TENDERS, addressed to the undersigned and endorsed on the envelope "TENDERS FOR MISSION BAY DAY SCHOOL AT SQUAW BAY, NEAR FORT WILLIAM, ONTARIO," will be received up to NOON of the 15th day of September, 1924, for the erection of the above mentioned building.

Plans and specifications may be seen at the office of the Indian Agent at Port Arthur, and at the Department of Indian Affairs, Ottawa, Ont.

Each tender must be accompanied by an accepted cheque on a chartered bank of Canada, for ten per cent. of the amount of the tender, payable to the order of the undersigned (War Bonds of the Dominion or Canadian National Railway Bonds will also be accepted as security, or Bonds and cheque if required to make up an odd amount), which amount will be forfeited if the person or persons tendering decline to enter into a contract when called upon to do so, or fail to complete the work contracted for.

The lowest or any tender not necessarily accepted.

Dear Sir,

We would greatly appreciate it if you would let us know to whom the contract has been awarded for the erection of Mission Bay and Squaw Bay Day School, Fort William, Ont..

If you could also let us know the total amount of the contract, the unit prices bid, and the names and addresses of all bidders, we would be much obliged to you.

Do not bother to write us a letter. Just make a memo on the margin or reverse side of this letter and mail in the enclosed return envelope.

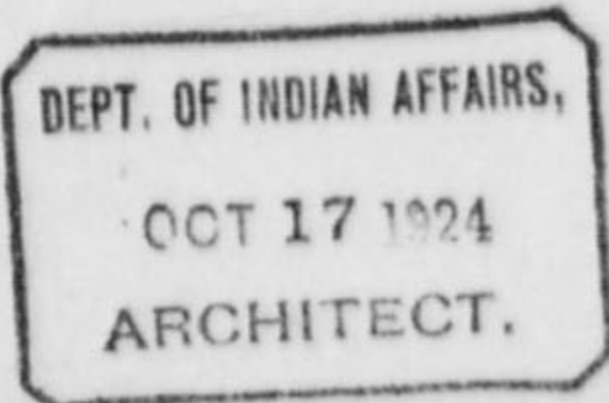

Trusting that you will be kind enough to co-operate with us by letting us have this information as promptly as possible, so that we in turn can pass it on to engineers, contractors and manufacturers throughout Canada, we remain,

Extract from Inspector's Report on the Mission Bay School, October 13, 1924.

If this teacher has to use this building for a residence here are a few real essentials that need to be done.-

- 1, All windows need putty.
- 2, Ceiling of bedroom needs replastering. Down stairs is the same.
- 3, Basement needs draining and walls of basement fixing to keep out water.
- 4, Woodwork down stairs needs painting.
- 5, Stove needs new grate and firebox plates put in. If this is not done it will soon burn into the oven.

x x x x

When repairs were made to this house a few years ago they were of a make-shift character. If the Department has the money to spare new flooring should be laid. I understand that Mr. Burk has made representations to the Dept. as to the necessary things to be done.

x x x x

The new school room is in course of erection. It may be ready in a month.

Sir:

The Separate School Inspector, in a report on his recent inspection of the Mission Bay Indian Day School, has drawn attention to the repairs required to the building used as a teacher's residence at this school.

In this connection I beg to refer you to official letter of the 24th ultimo, in which you were authorized to have any repairs required carried out by the contractors for the new school building, providing you were able to make satisfactory and economical arrangements with them for doing the work. The Inspector states that the following repairs are needed: -

1. All windows need putty,
2. Ceiling of bedroom needs replastering. Downstairs is the same,
3. Basement needs draining and walls of basement fixing to keep out water,
4. Woodwork down stairs needs painting.

The Inspector also draws attention to the condition of the stove, which he states needs a new grate and fire box plates. You should arrange to have any new parts installed.

The department will expect you to give the matter of having the repairs to the building and stove your early attention.

Ottawa, November 13, 1924.

Sir:

I beg to inform you that an order is today being placed with Messrs. J. Oliver & Sons Ltd., Ottawa, to ship addressed to you, Port Arthur, Ont., the following school desks, etc., for the use of the new school building which is in the course of erection at Mission Bay: -

4	No. 3	Single School Desks,
8	No. 4	" " "
4	No. 5	" " "
4	No. 6	" " "
4	No. 6	" Fronts,
4	No. 3	" Rears,
2	Visitors' Chairs.	

The price quoted f.o.b. Port Arthur, Government sales tax included, for supplying the above equipment is \$201.20. The desks will be shipped in a knocked down condition. Ink wells will be supplied with the three larger sizes. When the desks arrive, you should arrange to have them taken to the school and set up in the classroom.

The above firm have been requested to forward their account, in duplicate, to you, and upon receipt of the desks, if in good condition, you should certify the account and send it to the Department for payment. Any expense incurred in having the desks taken from Port Arthur to the school and set up in the classroom will be paid upon receipt of properly certified vouchers covering the expenditure.

It is hoped that when these desks arrive they will be satisfactory and will provide ample seating accommodation at this school.

Sir:-

Replying to your letter of the 6th instant with reference to the payments on your contract for the Squaw Bay School, I beg to say that the certificate issued in October by the Indian Agent showed labour and material in the building at the first certificate to be \$1,500. It also showed on the certificate payment to you of \$1,500. It was necessary to reduce the amount by 10% in order that the payment would equal 90% of the labour and material in the building, which, according to the certificate, was \$1,500.

The second certificate received on the 7th of November showed additional labour and material in the building, amounting to \$1,600. An amount of \$1,440 was therefore sent to you, which was 90% of the amount as shown on the certificate.

If the amounts as indicated on the certificate of labour and material are not correct, if you will consult with the Indian Agent, he can issue another certificate covering the balance due you, if the amounts as shown on the certificates have been improperly filled out by him.

Agreement made in duplicate the **THIRTEENTH** day of
OCTOBER, 1924. A. D.

BETWEEN His Majesty King George the Fifth, represented by the Superintendent
General of Indian Affairs of Canada (hereinafter called the Superintendent General);

AND Frank Law & J.A. Burton,

of 31 Emerson Ave., Port Arthur, (hereinafter
called the Contractors).

The Contractors for themselves, their heirs, executors, administrators and assigns, agree
to do in the most workmanlike manner all works and provide all the materials of the best
kind shown in the drawings and described in the specifications marked "A" and "B"
respectively and signed by the Contractors and to complete, furnish and hand over to the
Superintendent General or to some person by him appointed for that purpose the,

erection and completion of Indian Day School
at Mission Bay, near Fort William, Ont.
according to plan and specification No. 542.

and all other work and labour incidental to and necessary for the entire completion
thereof, whether specified or shown in the drawings or specifications or not, by the
day of A. D.

AND in consideration of the above agreement on the part of the Contractors the
Superintendent General hereby agree to pay the said Contractors the sum of **Three**
~~Thousand three hundred dollars~~ dollars, provided always
that the Superintendent General may at any time during the progress or after the completion
or alleged completion of the work appoint an Architect, Engineer or other officer, in which
case the certificate of such Architect, Engineer or other officer, that the work is duly
completed and of the amount, if any, due to the Contractors after making such allowances
for penalties and for defective or incomplete work, or for extras and deviations as the
Architect, Engineer or other officer shall think fair, shall be a condition precedent to any
claim by the Contractors under this contract.

AND the Contractors for themselves their executors, administrators and assigns, further
covenant and agree:—

1. That the wages to be paid in the execution of this contract shall be those generally
accepted as current in each trade for competent workmen in the district where the work is
carried on. If this condition is violated the Superintendent General may cancel the
contract and refuse to accept any work done thereunder.

2. That if the Contractors fail at any time to pay any account for any goods or
materials supplied, or money advanced by anyone to the said Contractors for the purposes
of this agreement, or to pay the account of any sub-contractor for any work or materials
done or supplied for the said works to be constructed under this agreement, and such

account is in either of such cases one month overdue, the Superintendent General may notify the Contractors to pay such account and if a week elapse and the same be not paid in full, the Superintendent General may pay such account and may charge the same to the Contractors, and the Contractors covenant with the Superintendent General to repay at once any and every sum so paid.

3. That if the Contractors fail at any time in paying salaries or wages of any person employed by them upon or in respect of the said works, or any of them, and any part of such salary is one month in arrear, or if there be due to any such person one month's wages or salary, the Superintendent General may notify the Contractors to pay such salary or wages, and if two days elapse and the same be not paid in full up to date of payment, or to such other date as may be in accordance with the terms of employment of such person, then the Superintendent General may pay to such person his salary or wages from any date to any date and to any amount which may be payable, and may charge the same to the Contractors and the Contractors covenant with the Superintendent General to repay at once any and every sum so paid.

4. That pursuant to the Statute in that behalf, this Agreement is made subject to the express condition that no member of the House of Commons of Canada shall be admitted to any share or part of this Agreement or any benefit to arise therefrom.

5. That the Contractors shall not assign, transfer or set over this contract or any interest therein to any person or persons whomsoever, without the consent, in writing, of the Superintendent General of Indian Affairs first had and obtained.

IN WITNESS WHEREOF the said Superintendent General of Indian Affairs, acting as aforesaid and the said Frank Law and J. A. Burton, have hereunto set their hands and seals the day and year first above mentioned.

Mr. Orr,

I would recommend that an exception be made at the Mission Bay School and a pipeless furnace be installed in the basement, as the circumstances are exceptional at this reserve, and there is no fear of the furnace not being properly attended to. In addition to heating the school-room it will also heat the basement which will be used as a play room in the winter for the pupils.

Sir:-

With reference to the third certificate issued by you in favour of Messrs. Law & Burton for payment on their contract for the Mission Bay Day School, I beg to say that this certificate has been changed to read \$331. This included payment on the contract and the extras less ten percent on the entire work, which it will be necessary to hold for thirty days. I would, therefore, ask you on or before Jan. 10th. to submit a final certificate covering the ten percent, which it is necessary to hold back until that time.

When forwarding the certificate you should also include a detailed statement of the labour and material included in the extras, amounting to \$167.00. This statement should be furnished by the contractors and I would ask you to please certify on the statement as to its correctness.

Your obedient servant,

J. D. McLean.

Ottawa, January 2, 1925.

Sir:

I have your letter of the 29th ultimo, requesting authority to purchase a teacher's desk and chair for the use of the Fort William Indian Residential School and explaining that the desk which you purchased for this school, under authority of our letter of May 14, 1924, was sent to the Mission Bay School in mistake.

I may say that when the account for this desk was received, it was charged against the expenses of the residential school. You may arrange to purchase a desk and chair of a similar type from the firm which supplied the equipment which you delivered to the Mission Bay School. It is hoped that you can obtain a desk and chair at approximately the same price, or cheaper if possible, and have it delivered to the residential school.

When forwarding the account in duplicate, which should be certified by you, you should state that the desk and chair are for the use of the Mission Bay Indian Day School. We desire to charge the expenditure to that school, in view of the fact that the expense for the previous desk and chair was charged against the residential school. Please give the matter of the purchase of this equipment your early attention and forward the voucher, properly certified, as directed.

Your obedient servant,

J. D. McLEAN

Sir:

Re. Steve for Mission Bay Day School.

On a recent inspection at Mission Day School, Port William Indian Reserve, the teacher informed me that their cooking stove was in a dilapidated condition. On inspecting same I find this stove is beyond repair. As the teachers residence is heated by a large Box stove and gives sufficient heat to warm the five rooms, I would suggest getting an Oil Stove which would be much cheaper.

If satisfactory in write & no longer

Will you please advise if the Department would be willing to purchase the above mentioned Oil Stove.

Sir:

I have your letter of the 3rd instant, requesting that an oil stove be supplied for the use of the teacher's residence at the Mission Bay Indian Day School on the Fort William Reserve.

If you consider that an oil stove would be satisfactory for cooking purposes during both the summer and winter seasons, and if you are assured that there would be no danger from fire in the use of this stove, you may arrange for the purchase and delivery to the teacher of an oil stove of the type required by her. If possible, competitive prices should be obtained, and you should purchase the stove from the dealer quoting the lowest price. If you are not satisfied that an oil stove would be satisfactory, you may arrange for the purchase of a cook stove. The Department will leave this matter in your hands to make the purchase of a stove of the type considered by you to be satisfactory.

You should furnish properly certified vouchers, in duplicate, covering the expenditure incurred.

Sir:-

The Separate Schools' Inspector in a report on his recent inspection of the Mission Bay Indian Day School on the Fort William Reserve states that certain supplies are required.

I have therefore to request that you will arrange for the purchase and delivery of the following, viz.,

- 1 wash basin
- 2 brooms
- 1 pail for drinking water
- 8 yds of towelling
- 6 toilet soap
- 6 enamelled drinking cups.

The Inspector further states that there are three toilets which required attention. You should arrange to have any repairs required to these toilets carried out and, if necessary they should be thoroughly cleaned. When you have purchased the supplies above authorized ~~and~~ having the toilets placed in good sanitary condition, you should forward properly certified vouchers in duplicate covering the expenditure incurred.

The Inspector further states that the lighting of the school is subject to much criticism. The windows are on one side but the blackboards have been placed at wrong end of school together with platform and teacher's desk. As a result the light is from the right of the scholars and they are continually writing in shadow and light is striking their eyes from wrong direction. Please inquire into this criticism of the Inspector and furnish the Department with your suggestion as to the best means of overcoming the present condition.

Sir:

Referring to your letter of the 17th inst., regarding the lighting of the Mission Bay Day School situated on the Fort William Indian Reserve. In reply I beg to advise; on receipt of your letter I visited the above mentioned school with Inspector O'Rourke of Port Arthur who advised not changing the platform or blackboard. He advised putting in two new windows in the north side of the room which would give sufficient light.

If this meets with the approval of the Department, I will immediately get prices on the cost of installing.

With further reference to the 3rd paragraph of your letter regarding repairs etc., I wish to advise that these repairs are now being done, and vouchers covering same will be forwarded to the Department.

I have your letter of the 2nd instant, relative to the lighting conditions in the classroom of the Mission Bay Indian Day School on the Fort William Reserve. It is noted that the Inspector advises the installing of two windows on the north side of the classroom, and, if this were done, the lighting conditions would be satisfactory. Please obtain prices regarding the cost of the installing of these two windows and advise the Department as soon as possible. When we have this information, consideration will be given to the authorization of the work.

Sir,-

Ottawa, April 8th., 1926.

With reference to your vouchers Nos. 142-2 and 142-5 for wood, etc., purchased for the Mission Bay School, I beg to say that you should have applied for an accountable cheque if it was necessary to pay cash for the wood, etc., before obtaining it and you should do so in future.

This expenditure is chargeable to the appropriation for Indian Education and not to the Band's funds.

Sir,—

Referring to our last conversation on February 13th last, re the Mission Bay Day School, I wish to advise That I have made arrangements for the installation of two new windows in the east end of school and the teacher's platform changed over. The approximate cost to be \$75.00.

I beg to advise that the teacher's and the boys' and girls' closets are very old and dilapidated and should be repaired and three sanitary pails be furnished for same. I would also suggest that the buildings be white-washed.

Sir:

I have your letter of the 27th instant, in which you inform the Department that you have made the necessary arrangements for the installation of 2 windows in the east end of the Mission Bay Indian Day School and also to have the alterations made in the teacher's platform, the approximate cost of which will be \$75. When the work has been completed you should forward properly certified vouchers, in duplicate, covering the cost.

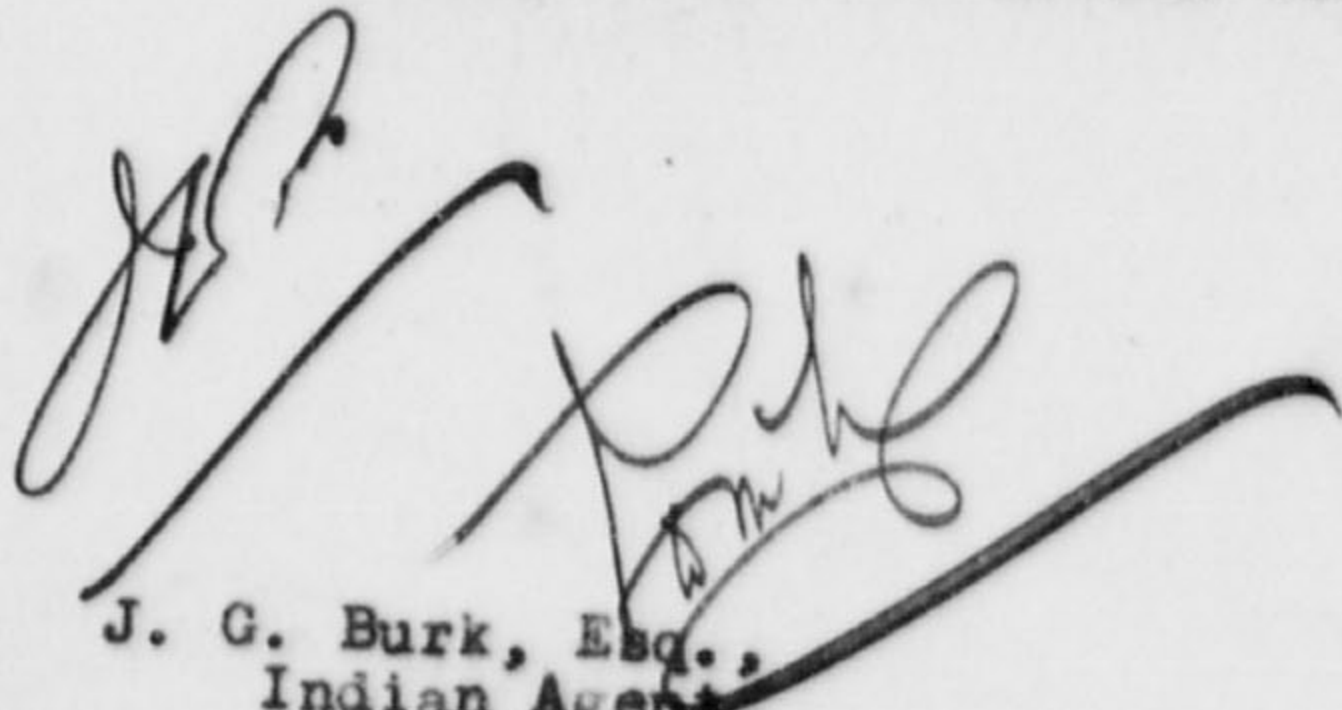

With reference to the boys' and girls' closets, I have to request that you will state the approximate cost of having them repaired and placed in a good, sanitary condition, also the cost of supplying the three sanitary pails which you recommend be furnished. You should also state the cost of whitewashing the buildings.

When we have full information as to the cost involved in cleaning and repairing the closets and whitewashing the buildings, consideration will then be given to authorizing you to have the work done. Your early reply giving this information will be appreciated.

Ottawa, May 8th, 1926.

Sir:

I have your letter of the 5th instant, submitting an estimate of the approximate cost of the repairs, fencing and material required for the use of the Mission Bay Indian Day School.

In reply I beg to say that the Department will approve of an expenditure of approximately \$100 in repairing and white-washing the out buildings, fencing grounds, and providing the following equipment, viz:

3 Sanitary Pails,	2 Hoes,
Oilcloth for Teacher's Table,	2 Shovels,
1 Slop Pail,	A small quantity of
2 Rakes,	Garden & Flower Seeds,
	Linoleum, 12'x 20'.

It is noted that the cost of the linoleum would be \$29.33. It is considered that this material should be supplied at a lower cost or the quantity reduced.

When the above work has been completed and the purchase made of the materials authorized, you should furnish properly certified vouchers, in duplicate, covering the expenditure incurred.

Please arrange to have the out buildings and the fence completed at an early date.

Mission Bay Indian Day School - dated May 25th, 1926.

Original on file 9-13-6

Teachers Residence - Appears in as good condition as
can be expected but in Hall - Kitchen and
Bedroom the outside coating of Plaster is fall-
ing off all over and should be attended to, and
the kitchen oilcloth is a mass of holes every-
where.

School Building - Walls should be decorated in some
other color than white.

There is absolutely nothing to
relieve the bare whiteness of the walls.
Couldn't some pictures be gathered from some
place.

Basement has water in it as usual.

Give this teacher a can of paint and she will paint
upstairs floor.

Sir:

The Separate School Inspector, in a report on his recent inspection of the Mission Bay School on the Fort William Reserve, recommends that the walls of the classroom be decorated in some other colour than white, as there is nothing to relieve the bare whiteness of the walls. He also recommends that some pictures be placed on the walls to overcome this condition, and you might report on this matter, stating whether some inexpensive pictures of subjects suitable for a classroom could be obtained, and, if so, the approximate cost.

The Inspector also states that if the teacher were supplied with a can of paint, she would arrange to paint the upstairs floor. Please consult the teacher in this matter, and arrange to supply her with the paint required for the purpose. You should forward certified vouchers in the usual manner for the expenditure incurred for the purpose.

Sir,—

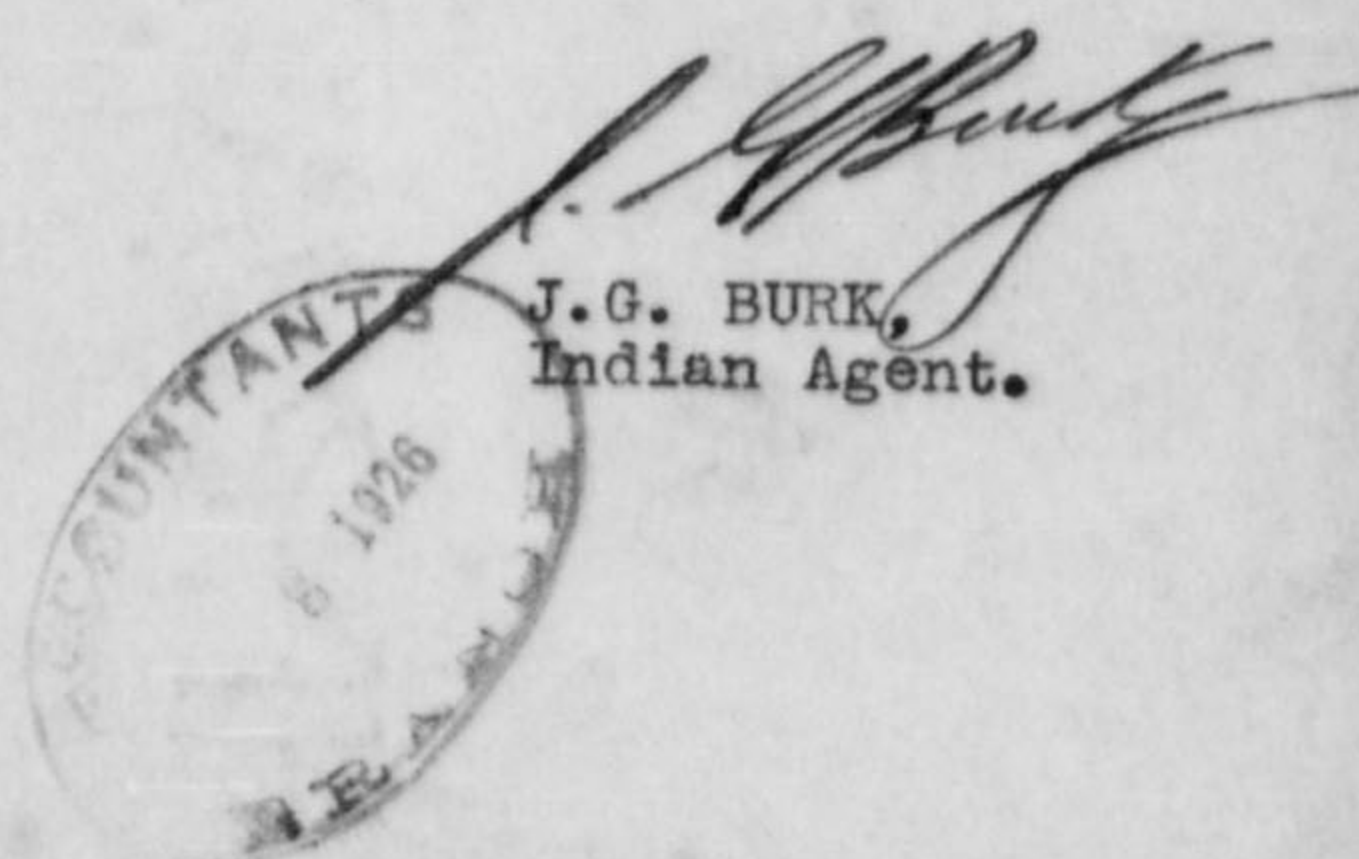

Referring to your letter of the 4th ultimo,
File No. 9- 13- 5, regarding the Mission Bay Day School.
In reply beg to report that the cost of painting the walls
of the classroom will be Forty Dollars (\$40.00) for paint
(one coat only) and Fifteen Dollars(\$15.00) for labour.

On my recent inspection of this school Miss.
Lavelle informed me that suitable pictures can be obtained
for Ten Dollars. I would suggest the painting of the class-
room be done during vacation. Kindly advise if this meets
with the approval of the Department.

Sir:

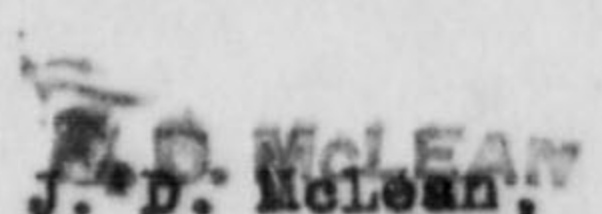

I have your letter of the 6th instant, giving an estimate of the cost of the material and labour in painting the walls of the classroom at the Mission Bay Indian Day School.

In reply I beg to say it is considered that your estimate for the paint - \$40.00 - is high. Would it not serve the purpose if the walls were calcimined or mureseced instead of being painted? Please inform the Department further regarding this change in the materials to be used. I may say that our funds are very limited this year, and, if calcimining would be satisfactory, you should give an estimate of the cost of the material and labour required. When we have this information, further consideration will be given as to whether any work can be authorized or not.

Relative to the pictures, the Department will approve of an expenditure not exceeding \$10. You should consult the teacher as to what pictures she requires and arrange for the purchase of same. However, they should not be placed on the walls until after it is decided what decorating will be done. Please forward itemized accounts, in duplicate, covering the cost of the pictures obtained.

Sir:

With further reference to my letter of July 6th regarding decorating the walls of the Mission Bay Day School at Fort William Indian Reserve and your letter of the 9th ult., which I was unable to answer as I was out of town on treaty payments.

In reply wish to advise I have again taken the matter up and find that the cost of calcimining including the material required will be approximately \$ 35.00 to \$ 40.00. This would be a saving of \$ 15.00.

The inspector advised painting the walls as he said the children were apt to mark the walls and if they are painted they can easily be washed.

I have obtained prices from the T. Eaton Co. at Toronto and find I can purchase the paint for \$ 30.00 and I would strongly recommend using paint as it will last much longer.

Would you kindly advise me as soon as possible if you would consider calcimining satisfactory or would you prefer paint. An early reply would be appreciated as I would like to complete this work before the end of September when Miss Lavelle will return.

Sir:

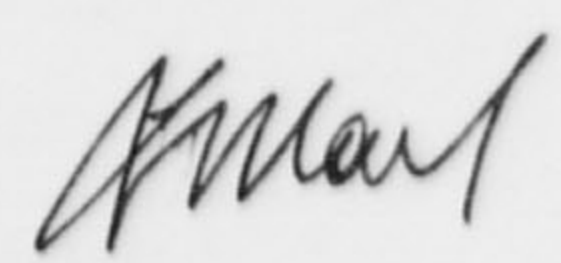

I have your letter of the 23rd instant, relative to the decorating of the walls of the Mission Bay Indian Day School, and recommending that these walls be painted instead of kalsomined.

In reply I beg to say that the Department will approve of your arranging to have the interior walls of this building painted. The total cost of the material and labour should not exceed the sum of \$55, or a lower cost if possible to do so. You should arrange for the purchase of the quantity of paint required and of the colour considered by you to be suitable. You should also arrange for the labour and have the work done before the school reopens. When this work is finished, you should forward properly certified vouchers, in duplicate, covering the cost of the material and labour.

We note that Miss Lavelle, the teacher, will not resume duties until the end of September. As she closed this school for the summer holidays about the middle of July, last, it is considered that she should, in order to complete the ten teaching months in the next school year, open this school about the middle of September, next.

Sir,-

In reply to your letter of the 28th September, I beg to say that official cheque No.1342 for \$25.00 went forward on the 16th June to Mr.N.B.Gerry, of West Fort William, in payment of voucher No.142-32. I may say the Department is prepared to consider the question of the issue of a duplicate cheque if Mr.Gerry and two sureties execute a bond of indemnity on the form herewith inclosed. The form when completed should be forwarded to the Department, and, if it is found satisfactory, a duplicate cheque will issue.

Supplies needed:-

- 2 lbs. of red knitting yarn for mitts and stockings.
- 1 " " Black " " " " " "
- 12 pair of strong knitting needles.
- 10 yds. of white cotton cloth.
- 1 Axe.
- 2 Brooms
- 12 bars Lifebuoy Soap.
- 4 Yds. Towelling.

1. The white plastered walls of the classroom are quite dirty. A buff color should be placed on them.
2. The school has no bell. This community is without clocks and it is the only way to call the children to school and to have punctuality. It is the only day school without a bell.
- 3.. Basement of school still leaks. I guess little can be done.
4. Teacher's room walls need attention.

Ottawa, October 13th, 1926.

Sir:

The Separate School Inspector, in a report on his recent inspection of the Mission Bay Indian Day School, on the Fort William Reserve, recommends that certain material be supplied.

You may arrange for the purchase and delivery of the following:

2 Lbs. Red Knitting Yarn {for mitts and stockings},
1 Lb. Black " " " " "
12 Pairs Strong Knitting Needles,
10 Yds. White Cotton Cloth,
1 Axe,
2 Brooms,
12 Bars "Lifebuoy" Soap,
4 Yds. Towelling.

Please forward properly certified vouchers, in duplicate, covering the expenditure incurred.

The purchase of these supplies should receive your early attention.

Your obedient servant,

J. D. McLEAN

EXTRACT FROM REPORT OF INSPECTOR BENNETT,

on his inspection of the Mission Bay
Indian Day School, dated May 2nd, 1927.

Original on File 9-13-6.

"1. Furnace couldn't be used since chimney was too small and the pupils were smoked out. A box stove had to be placed in the class-room.

"2. At least 6 inches of water has been in the cellar. It is used for wood only so it doesn't matter. Besides the teacher has her own house."

"1. This reserve does not possess any clocks in their homes; besides, if they did they wouldn't keep time. Consequently, there is need of a school bell (as on other school buildings) on the reserve. Can you supply one?

"Miss Lavelle is doing well for you. She accomplishes more with these children than I have seen in many other day schools. However, in spite of their progress, the deficiency in imagination in the Indian race is seen - Mental arithmetic, and kindred tests."

Sir:

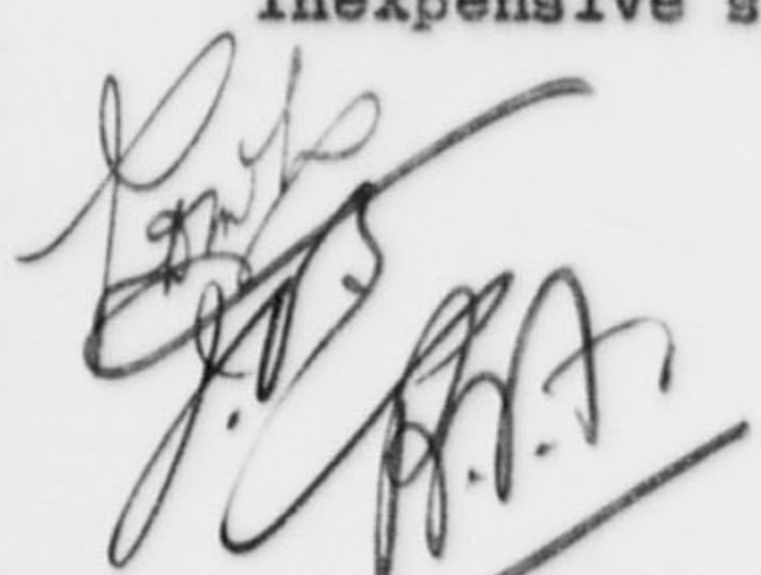

The Separate School Inspector, in a report on his recent inspection of the Mission Bay Indian Day School, states that the furnace in this building could not be used as the chimney is too small, and, as a consequence, the room fills with smoke. To overcome this difficulty he states a box stove had to be used in the classroom. Please furnish a report as to whether you would recommend that any alterations be made in the chimney, or whether the present arrangement for the heating of this building by a stove is satisfactory.

The Inspector also states that there is considerable water in the cellar, which is used for the storage of wood only. Please report regarding this matter and state what steps you would recommend be taken to provide proper drainage, and the cost of having the work done.

The Inspector recommends that a school bell be installed on the school building. Please state whether there is any tower or other place on the roof in which a bell having a weight, with mounting, of approximately 275 pounds could be installed. If not, you might state whether this bell could be installed in a special stand erected on the school grounds, and, if so, what it would cost to put up an inexpensive stand for the purpose.

J. D. McLean,
Asst. Deputy and Secretary.

Sir,—

RE: Mission Bay Day School.

Referring to your letter of the 7th inst., file number 9-13-5, and my reply of the 12th relative to the Separate School Inspector's report on the Mission Bay Indian Day School. The furnace in this school was not used last winter as it would invariably smoke when the draft was turned on full. Consequently I thought it advisable to install a box stove, which is far more satisfactory and does not burn one quarter of the wood. The teacher informed me the box stove gives much more satisfaction than the furnace as the children are able to dry their mittens in the winter time.

Personally I would not recommend any alterations to the chimney as the present arrangements for heating this school are very satisfactory.

Referring to the second paragraph of your letter regarding the water in the school basement, the cost of installing a drain would be approximately \$25.00, as the formation of the ground is very rocky.

Personally I would not recommend this expenditure as the water only seeps through the basement in one corner for a few weeks in the spring and seems to dry up very quickly.

Referring to the third paragraph of your letter regarding a school bell installed on the school building which would weigh approximately 275 lbs I wish to advise that a special stand could be erected on the school grounds for approximately \$20.00. There is no tower on the school roof, but a suitable stand could be erected which would cost about \$25.00 or \$30.00.

Ottawa, May 31st, 1927.

Sir:

I have your letter of the 28th instant, relative to the furnace and drainage at the Mission Bay Indian Day School referred to by the Separate School Inspector in a report on his recent inspection of this school. In this connection it is noted that you do not recommend any alterations to the chimney or to the present heating arrangement at the school, which you state are satisfactory, also that you do not recommend any expenditure in connection with drainage of the water in the school basement. No further action need, therefore, be taken regarding these matters.

Relative to a school bell, we are obtaining prices here and will place the order for a suitable bell. The weight of the bell and mountings which we will supply will be approximately 200 pounds. The bell on which we are obtaining prices is 22" in diameter, and will be satisfactory for the purpose for which it is required. You may arrange to have a special stand erected on the school grounds for this bell, and when the bell arrives it can be installed thereon. We note that you estimate the cost of erecting this stand to be approximately \$20. It should be built in a position on the grounds convenient to the school and not interfering with the playground activities. The Department will pay any expenses in having the bell installed, and you may forward properly certified vouchers in the usual manner covering the expenditure incurred in the building of the stand and installing of the bell. We will inform you in a few days of the name of the firm from whom the bell will be obtained.

Dear Sir:

Replying to your letter of
May 31st, we shall be pleased to supply you
with one of our School Bells, No. 7-192,
diameter 22", complete with mountings, as
described in Catalogue No. 81, for the price
of \$20.00, f.o.b. Port Arthur.

We carry a stock of these
bells at Toronto warehouse with the object
of effecting quick deliveries, and trust
to be favored with your order by return mail.

Our 1927 Catalogue is not
yet published, but it is in the hands of the
printers and will be ready within the next
few weeks. We have made a note to send you
a copy, and meanwhile please use No. 81 which,
although prepared for last year, may be con-
sidered practically up to date. There have
been some new lines added and a few changes
in prices, but you may rest assured that on
any business placed with us you will be
automatically allowed the lowest prevailing

Sir:

Enclosed herewith please find requisition for the Mission Bay Indian Day School at Fort William which was telephoned in. The school teacher also asked for the following supplies:

- 5 lb. tin of Cocoa.
- 2 $\frac{1}{2}$ doz. cups.
- 2 $\frac{1}{2}$ doz. spoons.
- 6 dish towels.
- 1 fine pan,
- 1 Broom.
- 1 Coleman's coal oil Lamp.

The lamp is to be used in the school. The lamp the teacher has in her residence is a gasoline one and the teacher considers it rather dangerous to carry it from one place to the other.

Miss Lavelle just informed me the children have to walk a considerable distance to the school and the teacher deems it advisable to give them a hot drink of cocoa just before leaving and a hot drink at the noon hour.

Consequently I would strongly recommend purchasing the cocoa and the other necessary supplies.

Please forward an itemized account, in duplicate, properly certified, covering the cost of the above.

Relative to the Coleman coal oil lamp asked for to be used in the school, I beg to say that the Department does not understand the necessity for this lamp for school purposes, as it is thought that the classroom work would be conducted during the time when artificial light is not required. I shall be pleased to hear further as to the need of this lamp.

Sir:

Referring to your letter of the 10th inst., file No. 9-13-5, relative to my requisition for school supplies for the Mission Bay Day School, Fort William Reserve, and referring to your third paragraph I beg to report that the Coleman Coal Oil Lamp will be used in the Mission Bay School after school hours.

Miss Lavelle, who teaches in this school, advised me that she conducts a great number of sewing classes in the school house after school hours. These classes are generally held during the winter months when artificial light is required.

A great number of school concerts are also held in the school house during the winter months, which is a great source of entertainment for the school children and their parents. These concerts also encourage the parents to send their children to school.

Consequently I would recommend purchasing this lamp as it will undoubtedly assist the teacher in her work.

Sir:

On an recent inspection of the Mission Bay Indian Day School the teacher informed me the following supplies were required:

- ~~2~~ Boxes of White Chalk,
- 1 Large-size Pail,
- 3 quarts of Varnish to stain the
aisles of the school room,
- 1 Large Kettle,
- 1 Wash Basin,
- 1 Double Boiler,
- 2 Brooms,
- ~~1~~ Bottle of Lysol, *no*
- 12 bars of soap.

As the floor of the teacher's sitting room is not covered with carpet or lineolum I would suggest purchasing two small inexpensive rugs.

Sir:

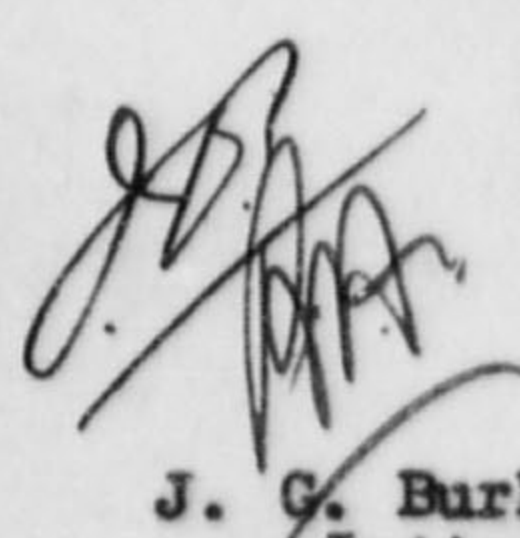

Replying to your letter of the 16th instant, relative to the supplies required by the teacher of the Mission Bay Indian Day School, I beg to say that you may arrange for the purchase and delivery of the following:

1 Large Size Pail,	1 Wash Basin,
3 Qts. Varnish (to stain	1 Double Boiler,
aisles of schoolroom),	2 Brooms,
1 Large Kettle,	12 Bars Soap.

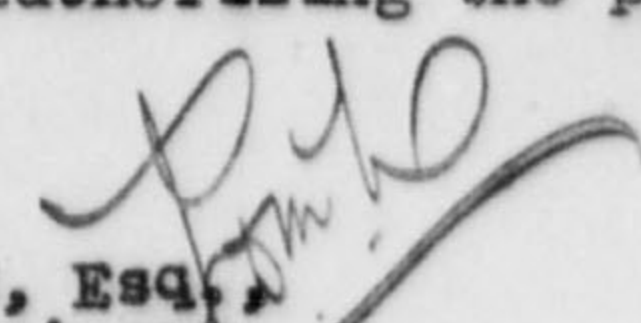

After the purchase has been made, you should furnish a properly certified account in the usual manner covering the cost.

Two boxes of white chalk are being ordered from the Government Stationery Office to be sent to the teacher.

Relative to the supplying of carpet or linoleum for the floor of the teacher's sitting room, I have to request that you will forward an estimate of the cost of supplying same. When we have this information, consideration will then be given to authorizing the purchase.

I have the honour to enclose herewith a requisition for supplies for the Birch Island Indian Day School.

With regard to the ladders asked for, I beg to say that an extension ladder is required for outside work such as putting on storm-windows and in the case of fire. A step-ladder should be furnished for inside use such as putting up stovepipes and cleaning walls and ceiling of the building. As Birch Island School is situate in a remote district these articles are difficult to procure the loan.

Sir:

On a recent inspection tour on the Fort William Indian Reserve, I beg to advise I personally inspected the Mission Bay Day School property and noticed the school gate is in a very poor state of repair.

I would suggest that a heavier gate be built to replace the old one which is in a very dilapidated condition.

The approximate cost of a new gate would be \$10.00 or \$12.00.

On my recent spring inspection tour at various Reserves in this Agency, I note that the school out-houses should be disinfected and white-washed. I would recommend that 50 lbs of lime be shipped to each school for white-washing and disinfecting purposes.

The approximate cost of white-washing the out-houses would be \$3.00 or \$4.00.

Would you kindly advise if the above meets with the Department's approval?

Sir:

I beg to advise that the Fort William Indian Reserve is divided into what is known as Squaw Bay and Mountain Village--a distance of 4 miles separates these two factions. The Band have erected a small council house at Mountain Village, and have been in the habit of using the school house at Squaw Bay once or twice annually for council meetings when anything of importance is brought up.

Recently a council meeting was held in the Mission Bay School House when 2 companies applied for separate leases to operate rock quarries. I wish to advise the council house and school house is always thoroughly washed and cleaned after each council meeting.

I would be very pleased if the Department would advise me if these annual council meetings meet with their approval. As previously stated the school house is only used once or twice during the year, and is always thoroughly scrubbed and fumigated.

Sir:

The Separate School Inspector, in a report on his recent inspection of the Mission Bay Indian Day School, states that some repairs are needed in the classroom, also that the windows are very dirty and should be cleaned before the extreme cold weather sets in. He further states that the plaster in the classroom is broken off in different places. You should arrange to have any repairs required to the plaster carried out and the windows washed.

The Inspector states that the doors of the outside closets need to be fixed. You should have any repairs required to the closets carried out, and they should be cleaned and placed in a sanitary condition. This work should be attended to before the cold weather sets in.

It is further stated that the school is at present heated by a stove as the furnace does not work satisfactorily. Please state what repairs are required to the furnace in order to place it in a satisfactory condition, and you should also give an estimate of the cost.

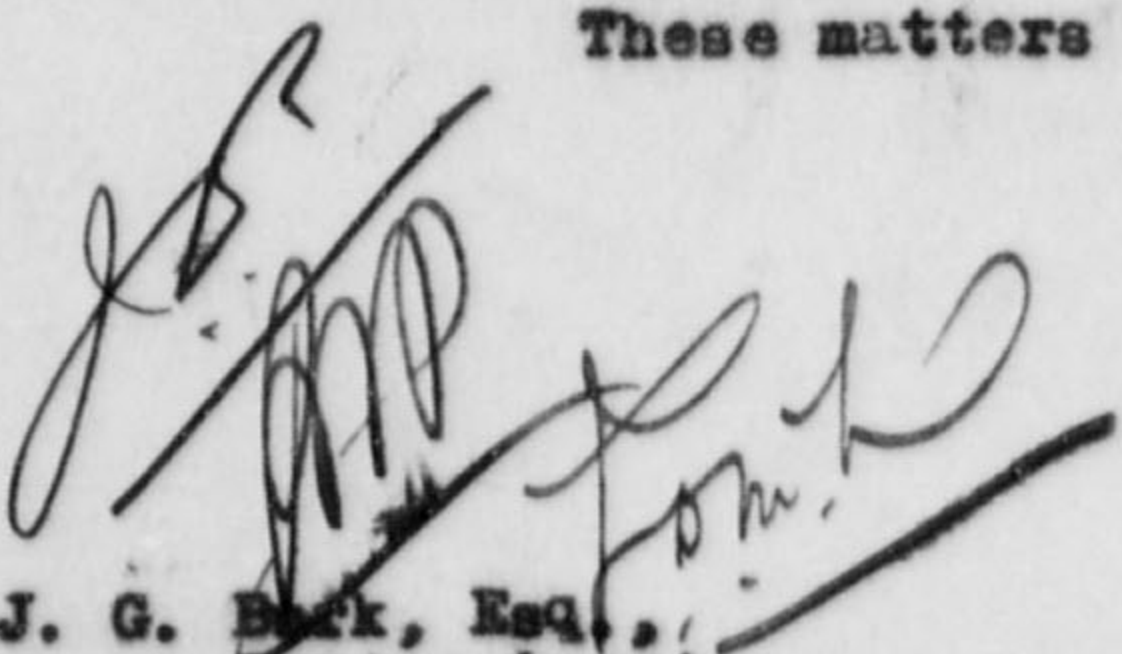

After you have carried out the above authorized work, you should forward accounts, in duplicate, properly certified, covering the cost.

These matters should receive early attention.

Sir:

With further reference to your No. 9-13,-5, November 10th, regarding the Separate School Inspector's report in connection with the Mission Bay Indian Day School, Fort William Reserve, I wish to state I have recently visited the Mission Bay Day School and arranged for the necessary repairs in connection with the outside closet doors. The plaster in the classroom will also be repaired.

Referring to your 3rd paragraph regarding the furnace, the school is heated by a box stove which gives wonderful satisfaction. The teacher advised me she would prefer using the stove, as the school children require same in connection with their noonday lunch. The cost to repair the furnace would be approximately \$15.00.

Duplicate accounts will be forwarded to the Department when the minor repairs have been completed.

Your obedient servant,

J. G. Burk,

Sir:

I have your letter of the 1st instant, informing the Department that you have arranged to have the repairs required carried out to the Mission Bay Indian Day School and that accounts covering the cost will be forwarded in due course.

Relative to the furnace, it is noted that it is not being used, as the school is being heated by a box stove which gives satisfaction. If you consider that the furnace should be repaired in order to be ready in case of need, you may incur an expenditure not exceeding approximately the sum of \$15 in having the work done. The Department will leave this matter in your hands to have the furnace repaired or not as you consider advisable. If the repairs are carried out, you should forward a certified voucher in the usual manner covering the cost of the work.

Sir:

With further reference to my letter of April 10, No. 210-4A, drawing the Department's attention to the 3 school toilets directly back of the Mission Bay school and residence, which are in a frightfully dilapidated condition caused by a very severe windstorm several weeks ago. Unfortunately the buildings are too old to repair. Consequently 3 new toilets should be erected, which will cost approximately \$25.00.

Recommendation was also made for kalso-mining the kitchen, living room, and bedroom of the Mission Bay school residence. This school is heated by a wood stove, and the walls have become very dark, which no doubt was caused by smoke.

I would also strongly recommend that the kitchen, sitting room, and hall floors be painted. The teacher informed me she would be very pleased to do the kalso-mining, also the painting if the Department would purchase the necessary material costing approximately \$15.00.

The curtains in the sitting room of the residence have not been replaced for a great number of years. Consequently I would recommend purchasing inexpensive curtains for the sitting room.

An early reply will be appreciated.

Your obedient servant,

The Secretary,
Dept. of Indian Affairs,
Ottawa, Ontario.

Ottawa, June 5, 1931.

Sir:

I have your No. 210-4A of the first instant, relative to the condition of the toilets at the Mission Bay Indian Day School. It is noted that they are in a dilapidated condition and that you recommend having three new toilets erected, at a cost of approximately \$25. In this connection I have to request that you will furnish further information as to the type of toilet you recommend. Also please state why three are required. The Department considers it doubtful if new toilets could be erected for the amount stated by you. Therefore, I shall be pleased to have full information as to what work you recommend be carried out in regard to these toilets.

With reference to the calcimining of the kitchen, living room and bedroom of the residence and the painting of the kitchen, sitting room and hall floors, I have to say that the Department will approve of your incurring an expenditure not exceeding approximately \$15 in the purchase of the calcimine and paint required for this purpose. It is noted that the teacher will perform the work of calcimining and painting without cost to the Department. Further, you may arrange for the purchase of inexpensive curtains for the sitting room. After you have purchased the above authorized supplies, please forward itemized accounts, in duplicate, properly certified, covering the expenditure incurred.

Sir:

I beg to report I have just received a telephone communication from Miss Troy, teacher of the Mission Bay Indian Day School, advising there are a great many colds amongst the school children, and the majority of the children are undernourished. She recommended purchasing the following:

50 lbs. Dri-milk,
5 lbs. Cocoa,
20 lbs. Rolled Oats.

The approximate cost will be \$10.00.

The Chief of the Fort William Band has just called, and has also recommended the purchase of the above articles. If same are authorized I presume it will be charged to the Fort William Band's interest account.

I would appreciate an early reply.

Sir,-

The Department is in receipt of your Voucher No. 64-7 of the 6th instant, for \$4.00, for coal oil supplied to the Mission Bay Indian Day School.

Is the coal oil used in the school or the teacher's residence? If in the latter, the Department considers that it should be paid for by the teacher.

Consideration of payment of this account by the Department will be deferred until your reply is received.

Sir:

I beg to acknowledge receipt of your letter of the 17th inst., No. 9-13-5, with reference to voucher No. 64-7, amounting to \$4.00 covering coal oil supplied to the Mission Bay Indian Day School. In reply I beg to report that the oil is used in the teacher's residence both for cooking and lighting purposes. With reference to purchasing oil for cooking purposes at various schools I find the oil is more economical than wood for cooking.

With reference to the Mission Bay Day School I wish to report this school is equipped with a 3½ foot camp heater which supplies sufficient heat for the school residence. The teacher does considerable cooking on this stove, but is also obliged to use the oil stove for baking, etc.

In conclusion I would refer you to official letter of June 6, 1932, No. 9-3-5, in which the Department advised it would be in order to continue supplying Indian Day schools with coal oil for both lighting and cooking.

Sir:

I beg to enclose herewith vouchers covering minor repairs to the Mission Bay Day School, on the Fort William Reserve. The work was completed in August, and as I was out of the office when the Indian called for his wages, the teacher made a settlement, and in turn I paid her, when I returned to the City.

Unfortunately Harry Loudett, who did the kalsomining and minor repairs to the school and residence, has been away. Consequently I have not been able to secure a receipt from him. Under the circumstances I deemed it advisable to have the teacher sign the receipt and forward before the end of this month.

Sir:

I beg to report I visited the Mission Bay School on the Fort William Reserve and find that a stove was badly required and should be purchased in the near future.

I may say authorization was obtained to purchase a stove last year, but I found I was able to secure a piece of galvanized iron and rivets and repair the stove quite satisfactorily, but I now find that the rivets are not holding, and it will be impossible to use the stove any longer.

A new stove, including elbows and pipes, will cost approximately \$28.20.

I would be pleased to receive the necessary authorization to purchase a stove.

OFFICE OF
INDIAN AGENT

Port Arthur, Ont.,
June 1, 1936.

Sir:

R

I just returned from a visit to the Mission Bay Indian Day School and I find that it is necessary to Kalsomine the living room and kitchen and also paint the floors and make a few necessary repairs, consequently it will be neccessary to purchase paint, muresco, etc. It will also be necessary to purchase a lamp and a few new cooking utensils. The approximate cost of these articles will not exceed \$25.00, and I would appreciate very much the necessary authority to make the purchase.

Your obedient servant,

J. G. Burk,
Indian Agent.

Dear Sir,-

The Department understands from your letter of the first instant that an expenditure not exceeding \$25.00 will permit you to kalsomine the living room and kitchen and paint the floors; make necessary repairs and, also, purchase some new cooking utensils for the Mission Bay Indian Day School.

If our understanding in the above regard is correct, you may expend an amount not exceeding that mentioned above.

Yours truly,

A. F. MacKenzie.

Sir:

I beg to enclose herewith, invoice amounting to \$1.20, under our voucher No. 30-5 covering the cost of one hinge hasp and lock. **R**

This was purchased for the Mission Bay Indian day school during the absence of the teacher on summer vacation, as the lock in use at the school was not suitable. The matter was not brought to our attention soon enough to permit writing for authorization before the purchase was made, but I trust the account will be accepted and passed for payment.

Attention-Chief, Training Division

Sir:

I have to report that as the steps and platform of the Mission Bay Indian Day School are in such poor condition, they are unfit for use by the school children, and it will be necessary to repair same as soon as possible. The approximate cost of these repairs will be \$65.00 and I would be very pleased to receive authorization to have this work done, at your earliest convenience.

Your obedient servant,

J. G. Burk,

Dear Sir:

With reference to your letter of the 18th instant you may arrange for the repair of the steps and platform at the Mission Bay School. Your estimate of \$65.00 appears rather high. It is hoped that you can have the necessary work done at a considerably lower figure.

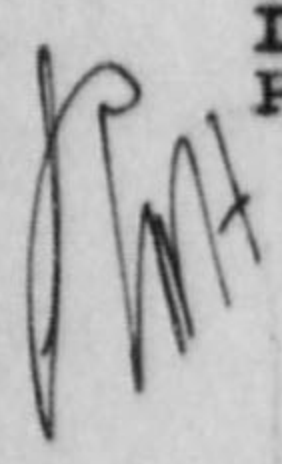

Yours truly,

Attention-Supt. of Welfare & Training Div.

Sir:

I beg to report on a recent visit to the Mission Bay Indian Day school, Fort William reserve I found that the residence and school was badly in need of repairs and also required a new heater. I am attaching herewith, a list of what is required with the approximate cost.

This school is quite frequently visited by Tourists and citizens of the Twin Cities of Fort William and Port Arthur and at the present time is in a very dilapidated condition.

The heater, mentioned above, is required for the classroom. The one in use at the present time is badly burned and as a drum type heater is required, I would recommend that same be purchased from the Piper hardware Co. in Fort William, who have several of this type now on hand, that were purchased from the Fort William band and which were manufactured last year at the Factory which was operating on the reserve at that time.

winter
As the season has now set in I would urge that authorization be granted to make these purchases as soon as possible.

Your obedient servant,

J. G. Burk, Indian Agent.

MEMORANDUM

April 12, 1940

THE DEPUTY MINISTER

R U S H

A letter (bearing postal date April 10) is received this morning, addressed to the Minister, from the Rev. Dan. McIvor, M.P., Port Arthur, which reads as follows:

"The School at Squaw Bay Mission & Residence is in a dilapidated condition & must be replaced for I think it is useless to try & repair it. I have examined it. This school is visited by many tourists & citizens & so it is a poor recommendation for our Government.

"I would ask for your consideration & co-operation as soon as possible".

Will you please have the matter looked into at the earliest possible moment, and be good enough to have a draft letter prepared for my signature, acknowledging the correspondence in the Minister's absence and replying thereto.

Re: Mission Bay Indian Day School

Dear Sir:

The Minister is in receipt of a letter from the Reverend Dan. McIvor, M. P., Port Arthur, Ont., which reads in part as follows:-

"The school at Squaw Bay Mission and residence are in a dilapidated condition and must be replaced. I think it is useless to try and repair these buildings".

No provision has been made in the 1940-41 estimates for the construction of an Indian day school at Mission Bay and I may add that with one or two exceptions our building program for this year has been completely suspended. However, you might make an inspection of this school and send forward to the Department information regarding the type of building by which the present structure might be replaced, the approximate cost, etc. I am anxious to secure these details, in the hope that, if conditions change, we may be in a position to make provision for the building of a school at this point in the 1941-42 estimates.

Yours truly,

R. A. Hoey,
Supt. of Welfare & Training.

Dear Mr. Melvor:

In the absence of the Minister, I desire to acknowledge receipt of your letter of April 10, in which you intimate that in your judgment steps should be taken to replace the Squaw Bay Mission Indian day school.

The officials of the Indian Affairs Branch inform me that no provision has been made in the 1940-41 estimates for the construction of a new school at this point. I should add that in view of war conditions our building program has been very drastically curtailed. The records indicate, however, that in response to requests from the Indian agent repairs at an approximate cost of \$65.00 were undertaken at this school in November, 1938, and repairs to the extent of \$48.00 in December, 1939.

The officials feel, however, that this particular building is in a dilapidated condition and it is their intention to communicate with the Indian agent, asking him to make an inspection of the school and to send forward an estimate of the amount that would be required, should it be decided to proceed with the erection of a school during the fiscal year 1941-42.

Yours sincerely,

Sir:

Re: Mission Bay I. D. School

In reply to your letter of the 15th ultimo, file No. 9-13-5, with regard to a letter received by the Minister in connection with the condition of the above noted school, I beg to report that at the present time, the teacher's residence and the school classroom are two separate buildings. The teacher's residence is a two-story building, of four rooms with concrete foundation. The classroom is a one story building consisting only of one room, this also has a concrete foundation. Both buildings are of frame construction and are heated with heaters. They are very old buildings and in a very dilapidated condition and would cost a considerable sum of money to even put them in fair condition. I would not recommend spending any money in repairs as, due to their age, they would require a considerable expenditure from year to year in maintenance.

For the past two years, the amount of \$5,500.00 has been placed in our estimates, for the construction of a combination school and residence, similar to the schools now in use at Gull Bay, Moberg and other day schools in the agency. Owing to the sharp increase in the cost of materials during the past few months, however, I have had a new estimate made and find that to construct a building of this type, at the present time, the cost would be around \$6,700.00. This figure is based, however, using all white labour and I believe would be reduced to about \$6,000.00 using Indian labour wherever possible.

The type of building, we have in mind is outlined by Departmental plan No. 532 and designated as "Plan of Oka Indian Day school, Oka, Que." This type of building is far more economical with regard to repairs and maintenance, as well as being more convenient for the teacher and pupils.

I will take this matter up with Mr. Burk, the agent, on his return and if a more detailed report is required, the matter can be given more time, with regard to details of material, labour etc.

DEPUTY MINISTER

I desire to refer to Mr. Pratt's memorandum of April 12 in connection with a letter received from Rev. Dan. McIvor, M.P., regarding the school and teacher's residence at Squaw Bay Mission. You will remember that a draft reply dated April 15 was forwarded to your office for transmission to Mr. McIvor.

I am today in receipt of the attached report from the Port Arthur Indian Office.

It has not been found possible to provide in the current year's appropriation the amount that would be necessary for a new building and consequently no action can be taken in this regard.

Sir:

Attached hereto please find account covering the cost of a padlock, nightlatch and key purchased for the Mission Bay Indian day school.

In explanation of this purchase I beg to report that this school residence has been vacant for the greater part of the winter and it was found, when entrance to the building was attempted that the frost had caused two of the doors to jam. Before entrance could be made, it was necessary to damage both the locks. In view of this I would be pleased if the Department would pass the account for payment, as it was impossible for Miss Onheiser to stay at the school without the locks being replaced.

Sir:

With further reference to your letter of May 3rd, 1940, file No. 9-13-5 regarding a letter received by the Minister in connection with the Mission Bay Indian Day School and Residence, on the Fort William reserve, I wish to report the teacher's residence is beyond repair and the teacher at the present time is living in West Fort William, as the cost of repairs to this building would not warrant any further expense. You will note for the past five years the sum of \$5,500.00 has been included in the estimates for the construction of a combination school and residence, similar to the schools at Gull Bay and Mobert. This type of building is shown on Departmental plan No. 532, designed as "Plan of Oka Indian Day School" Oka, Que. If funds are not available for the construction of a combination school, would it be possible to build a small teacher's residence costing approximately \$3,000.00?

The school house could be repaired and painted for approximately \$135.00 as this building is in fairly good condition.

I have your letter of the 12th instant, with reference to the Mission Bay School and teacher's residence.

No funds were provided in the current year's appropriation for the erection of a new school or teacher's residence at any point in Canada. You will therefore realize that it is impossible for the Department to consider building a teacher's residence at Mission Bay this year.

It is noted that the school could be repaired and painted for an amount not exceeding \$135. Please let me have detailed information regarding material required, in order that purchase may be made through our Purchasing Branch.

EX'D.
A

Extract from Inspector Greening's report on the Mission Bay Indian Day School visited on May 12, 1942.

I feel, however, that with the increasing scarcity of teachers, it will become more and more difficult to keep a really good teacher at this school unless some kind of a decent residence is provided, in which connection I would draw attention to my last report on this school.

In my opinion it would be a waste of money to try to put the old residence into any kind of habitable condition. It would cost a good deal, and, after the money had been spent, there would be little to show for it. Moreover, the actual school classroom building's wall has the plaster badly broken and needs other repairs. As I have said, the classroom is now kept beautifully neat and tidy, but a teacher can have little heart in trying to keep it so, when the main wall, the one she is facing most of the time, is "plastered" with old cardboard cartons.

While the external appearance of the school is not too bad, the old residence is really an eyesore, which is the more to be regretted since the buildings are within easy distance of Fort William, with the result that a good many people pass them, especially during the warmer weather. I have, myself, heard disparaging remarks made of the buildings which are a poor return to the Department for the interest it takes in its schools.

The ideal solution would be to build a new combined school and residence and tear down both the old buildings. (They are adjacent to the new hospital and add nothing to its attractiveness.) However, it is realized that, during these times, strict economy is vitally necessary, and that all unnecessary expenditures must be ruthlessly eliminated. The foregoing remarks, however, are submitted so that the situation may be fully understood.

Dear Sir:

Authorization was received last year to expend the amount of \$135.00 in making temporary repairs to the Mission Bay school but owing to the large building programme at the Head of the Lakes it was impossible to secure the services of a carpenter consequently the repairs were not carried out.

As I have previously pointed out the building is practically beyond repair and if it is at all possible a new combination school and residence should be constructed. Would you kindly advise if anything has been allowed on our estimates for this year for this work.

Dear Sir:

With reference to your letter of June 19th, file No. 9-13-5 with regard to previous correspondence in connection with the classroom and residence at the Fort William reserve, I wish to advise that there are two separate buildings at Squaw Bay, and that the estimate made last year was on the school classroom building. This building is in a fairly good state of repair but is very badly in need of paint as well as some repairs made to the windows, doors, the flooring and interior. This could be done for approximately \$135.00.

The teacher's residence is in such condition that last year the Insurance Companies refused to cover it with insurance. The department was informed of this at the time and the recommendation for a new building sent in at that time. Realizing that it is practically impossible to obtain appropriation for the construction of a new building I have had an estimate made as to the cost of repairing this building temporarily, so that it would be habitable for a few years. This can be done for the sum of approximately \$285.00. This would cover repairs to the building only and a further expenditure would be necessary to supply some equipment, such as dishes, rugs, curtains, bed and mattress, etc. If repairs to the building can be authorized the cost of the equipment can be estimated and forwarded you.

I would be pleased if you would advise, as soon as possible if this work can be started as it is very difficult at the Lakehead at the present time to secure the services of a carpenter, and at the present time there is one available.

J. G. Burk,

Sept. 6, 1942.

Attention-Supt. of Welfare & Training

Dear Sir:

With reference to your letter of June 19th, file No. 9-13-5 with regard to previous correspondence in connection with the classroom and residence at the Fort William reserve, I wish to advise that there are two separate buildings at Squaw Bay, and that the estimate made last year was on the school classroom building. This building is in a fairly good state of repair but is very badly in need of paint as well as some repairs made to the windows, doors, the flooring and interior. This could be done for approximately \$135.00.

The teacher's residence is in such condition that last year the Insurance Companies refused to cover it with insurance. The department was informed of this at the time and the recommendation for a new building sent in at that time. Realizing that it is practically impossible to obtain appropriation for the construction of a new building I have had an estimate made as to the cost of repairing this building temporarily, so that it would be habitable for a few years. This can be done for the sum of approximately \$285.00. This would cover repairs to the building only and a further expenditure would be necessary to supply some equipment, such as dishes, rugs, curtains, bed and mattress, etc. If repairs to the building can be authorized the cost of the equipment can be estimated and forwarded you.

I would be pleased if you would advise, as soon as possible if this work can be started as it is very difficult at the Lakehead at the present time to secure the services of a carpenter, and at the present time there is one available.

Yours very truly,

J. G. Burk,
Indian Agent.

Dear Sir:

Re: Repairs, Mission Bay Indian Day School

I desire to acknowledge receipt of your letter of the 6th instant and to state that you are authorized to proceed with the repairs necessary at the above-noted school. It will be necessary, however, to purchase the paint through the Departmental Purchasing Agent and a requisition for the amount of paint required should be sent forward at the earliest possible date. It is, to the officials here, a source of regret that this work has not been undertaken until this comparatively late date.

It is noted that the teacher's residence at this school is in a dilapidated condition and that approximately \$285.00 will be required to undertake the necessary repairs. I doubt very much the wisdom of spending this amount of money on an old building. Would it be possible to make a few minor repairs to this residence on the understanding that the funds necessary to construct a new building will be provided in next year's estimates? Your recommendation on this proposal will be very much appreciated.

Yours truly,

R.A. Hoey,
Supt. of Welfare & Training.

Attention-Mr. R. A. Hoey, Supt. of
Welfare and Training

Dear Sir:

With reference to our verbal conversation of September 23rd, in connection with authorization to make repairs to the Mission Bay Indian day school and residence at the Fort William reservation, and to expend approximately \$550.00, I would be pleased if you would forward an advance of \$200.00 to cover the cost of labor in this connection.

I am enclosing herewith, a requisition covering materials required for both the school building and the residence. I should like to point out, however, that it is very difficult to estimate accurately just what materials will actually be required, for as you are no doubt aware, unforeseen repairs invariably develop in a project of this nature, as the work progresses.

In order to carry out these repairs as soon as possible, would it not be possible to permit the purchase of these materials as they are required, from local firms. Several local firms are advertising paint at reduced prices, at the present time and it may be possible to make some saving in this material, by taking advantage of sale prices. A separate requisition is enclosed covering the paint required for the school.

Yours truly,

J. G. Burk,
Indian Agent.

Memorandum

Mr. R.A. Hoey

I have your memorandum of the 21st instant, (File 9-13-5) and attached requisition for material for repairing the Mission Bay Indian Day School and Teacher's residence, Port Arthur Indian Agency.

For reasons outlined in detail in conversation of even date, the 22 gallons of paint included on the requisition should be purchased through this office. Please advise regarding the colour or colours required to enable us to place the order promptly. We would also like to know the brand, name of manufacturer, and unit price of the paint which the Indian Agent is able to secure at reduced rates.

In view of the conditions described in your memorandum, there is no objection to your authorizing Mr. Burk to make the best possible arrangements for local purchase of the balance of the material required. When delivery has been taken, please send invoice and voucher to this office for the usual action.

Dear Sir:

With reference to your letter of the 17th instant and my reply of the 21st instant, the Departmental Purchasing Agent has approved the local purchase of the articles shown on the attached list.

Regarding the paint, boiled oil and turpentine, the Purchasing Agent considers that he can purchase paint of the proper quality at a better price than could be secured locally. He feels that in many cases paint sold at sales is not satisfactory. You should, therefore, let me know at once the colour or colours of the paint required. The Purchasing Agent would also like to know the brand, name of manufacturer and unit price of the paint which you state you could secure at reduced rates.

Referring to our verbal conversation on March 17th during my visit to Ottawa, in connection with a grant of \$350.00 to complete repairs on the Mission Bay Indian day school and residence, I would appreciate if you could forward an advance cheque of \$150.00 to cover labour in this regard.

As this is a very old building it is extremely difficult to ascertain the exact amount of materials required I would appreciate if authority could be granted to purchase material locally as the work progresses and as it is required.

I will forward a requisition at a later date for additional painting at the Pic school.

Memorandum:

DEPARTMENTAL PURCHASING AGENT

Repairs are required to the Mission Bay Indian Day School in the Port Arthur Indian Agency. Indian Agent Burk estimates the cost of material and labour at \$350.00, of which amount approximately \$175.00 will be material.

In asking authorization for this expenditure the Agent writes, in part, as follows:

"As this is a very old building it is extremely difficult to ascertain the exact amount of material required and I would appreciate if authority could be granted to purchase material locally as the work progresses and as it is required."

If possible it would be appreciated if the authority requested by the Agent could be allowed.

On March 11th last our voucher No. 56-25 in favor of Fallis-Foote Co. of Port Arthur, amounting to \$26.45, and covering dishes etc. purchased for the Mission Bay Indian day school residence, was forwarded Ottawa for payment. Up to the present date this account has not been paid and the merchant is pressing this office for payment.

During a visit to Ottawa, in a verbal conversation with Mr. R. A. Hoey, Superintendent of Welfare and Training, the need of this equipment was pointed out and authorization was granted to make the purchase.

Under the circumstances, I would appreciate if a cheque covering the above account could be forwarded the merchant without delay.
